

Stripes on the Barber Pole

How many of our readers can tell what the stripes on the barber's signifiy? You see the pole with stripes and you know there is a r's shop back of the pole, but the knowledge of the average n ends. In the early days bar- lid the bleeding for the com- ty and surgeons were not as iful as they are now. (We you say that "some still do the ing.") The first thing thought sary, way down to the time of ge Washington's death, was that patient should be bled. Tap and take a few ounces of blood him no matter how weak he be. When Washington was last gasp, the fools bled him. the red stripes on a barbers means the red ribbon bandages barbers bound over the wounds d by the bleeding of people.

LACE REVIVAL.

Miles of It Are Being Used to Trim Garments.

Another change in fashions which is creating a stir of interest in this country is the lavish use of lace. France had much of it in reserve, but she made it fashionable in order to give the women and older children a chance to earn money through wartime. Thousands of the Belgian lace makers are refugees in France, and to revive the fashion for lace was to make these exiles self supporting.

The American designers jump with joy over the idea of putting lace on gowns, for there must be miles of it stored away in this country waiting for a chance to see the sunlight. Now there will be a chance to use it up for frocks, wraps, blouses, peplums, hats, parasols and accessories. The designers are even putting precious lace on satin frocks for the afternoon, and afternoon gowns are made of a new kind of shadow lace in ecru or oyster white dropped over a black satin sheath lining.

The success of the peplum or outside blouse will give an impetus to loose waists that can be girdled in with Chinese brocade or with the new brilliant ribbons copied from antique designs. These blouses may be lined with white or colored chiffon or silk net and worn with any kind of skirt.

Jenny has brought up the crochet lace of the Roumanian peasants, and this, in string or biscuit color, makes an admirable peplum blouse over a dark or light skirt for country club wear.

Another method of using lace as an accessory is to drape it in the form of broad suspenders over the shoulders, let it drop to the hips and then cascade it there to give the oval silhouette.

Cherut makes a gown of cauf au lait crepe de chine in a straight line from head to foot, with half the skirt of black crepe de chine. From shoulders to hips there are draped suspenders of black Chantilly lace.

fitted out with an embroidered collar and slit pockets what more does a fond parent desire?

Salad Suggestions.

Salads of Fresh Vegetables.—Lettuce, radishes, cucumbers; tomatoes stuffed with cucumbers; lettuce and sliced tomatoes; lettuce, radishes and onions; cold slaw with green peppers; tomatoes and green peppers.

Salads of Cooked Vegetables.—Beets, string beans; beans and onions; beets, potatoes, onions; mixed vegetables.

Fruit Salads.—Apple, cabbage and nuts; canned pears and cheese; canned or fresh cherries and nuts; canned or fresh peaches cut into strips.

To make salads attractive use flavors which blend and colors which harmonize.

Salad dressings, with the exception of French dressing, should be thick.

Garnishings should be dry, since water thins the dressing.

Save that spoonful

Four and often five spoonfuls of ordinary tea do not go any further than three of Red Rose Tea.

Less Red Rose is required because it consists chiefly of rich, strong, full-flavored Assam teas.

Use Red Rose Tea and save that extra spoonful.

Kept Good by the Sealed Package

Save Seed Corn and Serve Your Country

The need for saving seed corn for next year's use, was never greater than at the present time. There is no reserve amount of seed in Ontario this Fall. All of the seed corn that was available was used last Spring, and upon this Fall's crop depends the crop of next year. Since the weather in Ontario in the fore-part of the season was not favorable to the rapid growth of early corn, it makes the selection of seed this fall more difficult, and doubly urgent.

From now on, the farmers of Ontario will have one of the greatest opportunities of the year to serve their Country, and add to their own prosperity. By taking time enough to pick and to put away for next year's use, seed corn from the standing stocks in the field, every farmer can add five bushels to his average acre yield of corn. Not only this, but it is his duty in a year like this, to carefully save his own seed, and to save as much more as he can, all of it should be carefully dried as soon as selected.

This is Seed Corn time in Ontario. By selecting seed corn during seed corn time, one gets seed that will mature in normal years. Seed corn so selected has to be dried before the freezing weather, so that it will not be injured by freezing during the winter.

THEY SOOTHE EXCITED NERVES.—Nervous affections are usually attributable to defective digestion, as the stomach dominates the nerve centres. A course of Parmelee's Vegetable Pills will still all disturbances of this character, and by restoring the stomach to normal action relieve the nerves from irritation. There is no sedative like them and in the correction of irregularities of the digestive processes, no preparation has done so effective work, as can be testified to by thousands.

What He Saw in Turkey

Dr. Stuermer was invalidated from the army on the Eastern front, and when his health was partly restored he was sent by his newspapers to Turkey in 1915. In Constantinople he beheld with his own eyes the beginning of a terrible crusade against the Armenians. Thousands of refined Armenian men, women and children were obliged to leave their homes and set forth on the journey which was to end in death in the desolate plains of Asia Minor or on the parched shores of the Euphrates. For months he would daily encounter bands of these people being driven through the streets. One evening when his wife was passing a police station she heard frightful groans from within, and a policeman told her calmly that they were torturing a Armenian. He was told by other Germans that nothing written about the Armenian massacres could possibly be exaggerated.

Miller's Worm Powders do not need the after-help of castor oil or any purgative to complete their thoroughness, because they are thorough in themselves. One dose of them, and they will be found palatable by all children, will end the worm trouble by making the stomach and bowels untenantable to the parasites. And not only this, but the powders will be certain to exert most beneficial influences in the digestive organs.

The favorite hobby of Princess Mary of England is to collect photographs of aviators.

Single women in Sweden are allowed to serve on juries, but married women are barred.
