

	PAGE
Importance of Water Powers (1)	484
High-Tension Transmission Lines and Steel Towers (5½)	485
Specific Speed Diagram for Hydraulic Turbines (½) ..	502
Electro-Chemical Industries in South Africa (¾).....	514
Installation of 13,000-Foot Submarine Power Transmission Cable (4)	531
Applied Electricity for Practical Men (½)	534
Treatise on Hydraulics (¾)	535
How to Make Low-Pressure Transformers (¼).....	535

INDUSTRIES.

Industrial Uses of Hydro-Electric Power (1¾).....	76
English and American Tool Builders (¾)	79
Great Britain's Blacklist (1½)	81
Technically Trained Man in Business (¾)	99
Research Organization (5)	105
Industrial Preparedness for Peace (½)	119
Labor Organization in Canada, 1915 (1)	119
Great Britain's Blacklist (1¾)	121
Procedure in Making Electrolysis Surveys (1¼).....	130
Research Organization (4¾)	131
Depreciation of Machinery (½)	139
Great Britain's Blacklist (1)	142
What Manufacturers Look for in Engineering Graduates (4¾)	153
Great Britain's Blacklist (1½)	162
Great Britain's Blacklist (2)	169
Substitutes for Ferro-Manganese (¾)	170
Mineral Research First (¾)	174
Engineering Societies and Industry (½)	181
Great Britain's Blacklist (1)	188
Proposals to Advance British Engineering (¾).....	199
Rarer Metals (¾)	199
Nickel Company's Plans (½)	200
War Exports and Peace (¾)	201
Iron Output Increased (¾)	215
Shortage of Labor on the Coast (¼)	218
Engineer and the Chemist (1¼)	221
Sulphite Coal (¾)	238
Design of Steel Stacks (8½)	252
Removal from British Blacklist (½)	261
Make Steel by Electric Refining (¼)	270
New Electro-Chemical Industry in Norway (¾).Oct. 5 194 CN	
Copper Mountain in British Columbia.....(¾).Oct. 5 194 CN	
Standardization and its Assistance to the Engineering Industries (3½)	293
Will There be a Steel Merger? (¼)	206 CN
Nova Scotia Steel and Coal Company (¾).....Oct. 12 206 CN	
New Plant at Niagara Falls, N.Y. (¾).....Oct. 12 208 CN	
Making Cable for the Battlefield (¾)	208 CN
How to Build up Furnace Efficiency (½)	343
Pacific Shipyards Busy (¾)	248 CN
International Nickel Company (¾)	387
Industrial Research in Canada (½)	380
Export Trade (¾)	380
Design of Steel Stacks (3½)	395
Seeks \$30,000,000 for Research Work (¾)	426
Canada Places Rail Orders in States (½).....Nov. 23 285 CN	
Nipissing Mines Company (¾)	285 CN
Relation of Pure Science to Industrial Research (2)....	437
British-American Nickel Co. (¾)	442
Canadian Iron and Steel Industry (½)	451
Get Ready for Peace (¾)	453
Blacklist, The (½)	453
Occupation for Wounded Soldiers (½)	453
Steel Company of Canada follows Conservative Policy (½)	Nov. 30 298 CN
Use of Gas Increasing (¾)	464
Shipbuilding on Profitable Basis (½)	472
Financing our Engineers Abroad (1)	475
Advisory Council on Industrial Research (1)	475
Relation between Perpetual-Inventory Value and Appraisal Value (3¾)	481
British Columbia Legislation to Encourage Shipbuilding (1¼)	492
New Steel Works for Siberia (¾)	514
Electro-Chemical Industries in South Africa (¾).....	514
Canadian Ships for Norway (¾)	514
Government Aid for Research Work (1)	517
When Ammunition Orders Cease—What Then? (1)	517
Canadian Steel Companies (¾)	Dec. 21 336 CN

Must Develop Export Trade (1½)	Dec. 21 338 CN
Canada's Iron and Steel Industry (½)	521
Timber Decay and its Growing Importance (3¾).....	521
Scientific and Industrial Research (1¼)	526
Shipbuilding in Canada (1½)	537

LETTERS TO THE EDITOR.

Proposal to Dam Niagara Falls (1¼)	73
Rosewater Hydraulic Table (1¼)	90
Rosewater's Hydraulic Table (½)	159
Technically Trained Man in Business (½)	282
Consistency of Concrete (¾)	314
Design of Steel Stacks (3½)	395
Moving Pictures of Canada's Resources (½)	431
Occupation for Wounded Soldiers (½)	453
Design of Steel Stacks (1)	495

MATERIALS.

Standard Paving Block Specifications (2½)	17
Proposed Specifications for Douglas Fir Bridge and Trestle Timbers (2)	57
Stone as Road Material (2)	58
Fluxing of Asphalts (5)	63
Mechanical Handling of Asphalt (4)	83
International Specification for Steel (1¾)	150
Substitutes for Ferro-Manganese (¾)	170
Topical Discussion on the Relation Between Yield Point and Proportional Limit in Various Grades of Steel (5)	171
Consistency of Concrete (½)	181
Rarer Metals (¾)	199
Specific Gravity of Non-Homogeneous Aggregate (3)....	268
Make Steel by Electric Refining (¾)	270
Consistency of Concrete (¾)	314
Studies Regarding Concrete Mixtures Employed in Construction of Shoal Lake Aqueduct (7½)	331
Treatment of Wood Paving Blocks (9¾)	335
Experimental Research with Road-Building Materials (1¼)	361
Laboratory Tests for Road Building Materials (1¾)....	375
Wood Block Paving Specifications (7½)	376
Laboratory Manual of Bituminous Materials (¾)	449
Specifications for Concrete (2)	469
Recent Developments in Pitch-Sand Mastic Fillers (2½)	473
Explosives (¾)	494
Timber Decay and its Growing Importance (3¾).....	521

MISCELLANEOUS.

Lachine Fire Alarm System (¾)	8
Suggested Fees for Engineering Service (¾)	16
Discharged City Engineers Reinstated (¾)	50
Operating Costs for Municipal Gas-Engine Plants (2½)	55
Success of an Unique Experiment by New York State Cities (3¾)	94
New Type of Disconnecting Box (¾)	118
Diesel Oil Engines (7½)	184
Diagrammatic Statistics for Municipal Engineers (6)....	317
Thawing Explosives (3)	323
Heavy-Oil Engines (3)	362
City Manager (2)	364
Economics and Cost of Motor Truck Operation (7½)...	383
Engineer and Public Service (¾)	389
Efficiency in Civic Undertakings (3½)	438
Municipal Engineering Practice (1¼)	448
Citizen Co-Operation in Governments (1¾)	462
Ontario Forest Protection System (3¾)	463

RAILWAYS.

Canadian Railroad Financing in New York (¾)	23
Much Railroad Work Ahead (¾)	50
Motor Truck as a Freight Feeder (¾)	98
Procedure in Making Electrolysis Surveys (1¼).....	130
Kenilworth Avenue Subway, Hamilton (8)	143
