

IN SURGERY AND GYNECOLOGY,
 IN DISEASES OF THE RESPIRATORY SYSTEM,
 IN DISEASES OF THE DIGESTIVE SYSTEM,
 IN DISEASES OF THE EYE AND EAR,
 IN MALARIAL, TYPHOID AND ERUPTIVE FEVERS,
 IN GENITO-URINARY AND CUTANEOUS DISEASES,

and in the general antiseptic treatment of diseases of every character, Listerine has established an enviable reputation, thorough clinical test having demonstrated that no other one antiseptic is so well adapted to the general requirements of the Physician and Surgeon, for both internal and external use, as this carefully-prepared formula of essential oils, ozoniferous ethers, and benzo-boracic acid—all antiseptics and chemically compatible.

Literature on demand.

SCOTT'S EMULSION

BOTH INDICATED!

Probably you have frequently noticed that when you are about to prescribe cod-liver oil you think of the hypophosphites, while the reverse is equally true. This is because when one is indicated so is the other, at least this is true in the great majority of cases. Physiologically, they combine well, too, one reinforcing the other.

We do not mention glycerine on the label, yet we believe, with the London *Lancet*, that it is exceedingly valuable, in that it aids in the absorption of fats and retards tissue waste.

Scott's Emulsion contains these three remedies, so combined that they never separate or deteriorate in any way. You will find it the most pleasant and most efficacious preparation of its kind on the market.

We will gladly send you our formula, together with samples, upon request.

Two sizes; 50c. and \$1.00. SCOTT & BOWNE, Chemists, Toronto
