DESCRIPTIVE LITERATURE FREE ON REQUEST.

SYRUP Cocillana Compound

A combination of Tincture Euphorbia Pilulifera, Syrup Wild Lettuce, Tincture Cocillana, Syrup Squill Compound, Cascarin, Heroin Hydrochloride and Menthol.

A Satisfying Cough Syrup.

Syrup Cocillana Compound was devised especially to meet the needs of the prescription writer. It is an uncommon cough syrup, as a glance at the formula will show, and one of marked efficiency. It is of particular value in acute bronchitis with unusual irritation, and in chronic bronchitis when secretion is scanty and cough excessive. It is pleasant to the taste. It is attractive in appearance. It does not lock up the secretions.

5 Seconds by the Watch

Hypodermatic tablets that merely disintegrate in water, their undissolved particles settling to the bottom, reflect no credit on the man who makes or administers them. They are poor therapeutic agents. They are worse than worthless in an emergency.

Parke, Davis & Co.'s Hypodermatic Tablets

DISSOLVE PROMPTLY AND THOROUGHLY.

Test one by the watch. Drop the tablet into a syringe half filled with lukewarm water. Shake vigorously. In five seconds (or less) it will have dissolved completely. There is no delay, no uncertainty.

SPECIFY THEM WHEN ORDERING.
