Corn meal, \$2.70 to 2.75 per bbl. DAIRY PRODUCE -Butter, receipts 2,298 packages. The market continues quiet, but the demand for export continues also, but at limits below the prices asked here. Holders are, however, very firm in their views, and the unwise competition of buyers in the country which has led them to break away from the market values at intervals has encouraged these high views, especially in the country where the actual condition of the market is not so much a factor in calculation as last year's business. The consequence is that this market is too high as compared with New York, and one or two

buyers have left to purchase there. We quote—Eastern Townships, 25c to 26c; Morrisburg, 22c to 23c; Brockville, 21c to 22c; Western, 20c to 21c; Creameries, 26c to 28c. Cheese, receipts, 2,163 boxes. The market continues firm but slow at present prices, and buyers do not seem willing to take hold at present. The English market continues steady at 65s per cwt for choice, which is equal to about 12c here. Still small sales are made here at 124c to 13c, and some

COAL .- The most interesting feature in the trade this season has been the harmony with spring wheat, \$1 20 to \$1 25; barley, 55c which the Philadelphia combination have peas, 65c to 70c; oats, 30c to 32c; cattle worked together. There has been no ratting, and the system of working the mines but three days a week has been strictly adhered hides, \$50 25 to \$8; dressed hogs, \$7 to \$7 50; hides, \$50 25 to \$8; sheepskins, \$1 25 to \$2: severely inquired a loafer. At the last general meeting of the convention an advance of 20c. per ton for household sizes and 10c. for steam grades was agreed upon, the rise to take effect on the Rye, 62c to 66c; Beef, hind qrs. \$6 to \$7 50; 1st September, from which date the three do, fore qrs. \$3 50 to \$5; Mutton, \$6 to \$7 50; days limit is removed, and the mines Veal, \$5 50 to \$8; Spring beef, doz. 15c to will be worked to their full capacity. In this market trade continues very but 75c to \$1; Cabbage, doz 25c to 40c; firm with the prospect of a general rise at an early date. Stove has already advanced to \$6.25 per tou, other grades remaining firm at \$6 with little or no shading for large lots. An bu \$1 25 to \$2; Chickens, pair 50c to 60c; advance in freight may be looked for almost | Fowls, pair 40c to 65c; Ducks, brace 60c to immediately. In a tow of seven barges which arrived here this week there was but one laden, the others proferring sto return empty rather than accept the \$1.25 offering. Welsh Anthracite and Scotch grate are quoted at \$5.00, with Scotch steam at \$4.25 to \$4.35 per long ton, delivered from the saip. Nova Scotia coal is quiet, and is sold at ship's side from \$3.75 to 3.90 per long ton for large lots. For domestic purposes there is very little demand, quotations being \$4.25 for steam and \$5 for grate per ton of 2,000 lbs.,

in all kinds of general hardware has continued inactive, but when it is remembered that August is usually a quiet, sort of holiday month in this market, trade, on the whole, may be reported fair, for the volume is certainly larger than for the corresponding month of last year. Travellers are preparing to start out next month with their fall samples. We have no changes to note this week in quotations, which for bar and pig iron remain very firm. The strike in Scotland continues, and the outlook of the pig iron market is apparently in favor of higher prices, but as yet no advance has been reported. Here there is the usual quiet business, peculiar to the season, being done; transactions are small, comprising lots of from ten to fifty tons for consumers. Large buyers are not in the market yet, unless at their own prices, which are said to be below the cost of importation. Remittances are uniformly reported satisfac-

LEATHER .- The improvement in the demand for leather which began to be experienced towards the close of last week, as noticed in our last report, has continued, and, on the whole, a much more active business has been done than during the week previous. Shoe manufacturers have been buying more freely of all kinds required for the season's trade; we hear of one round lot of sole horses are doing very little. One man, howleather having been sold this week to a local ever, reported the sale of a very fine animal manufacturer at a price within the range of our quotations, but as a rule sales comprise for \$150. American shippers are willing to small lots only. There is no speculasmall lots only. There is no speculative demand noticeable at present, orders being simply for present wants, which, however, have been much larger than during the earlier part of the season. Prices are reported unchanged but firm; the firmer prices this week for dry hides in New York has effected a hardening tendency in values for sole leather in this market. Stocks remain light. Remittances are considered very good, for the

with grantiances critic satisfactor. The section

volume of business done is considered large for the season, and a speculative feeling seems to be cropping up. In teas there has been considerable movement, the enquiry has been chiefly for lower grades and for fine to choice, which are scarce and command high prices. Medium and good medium grades are more plentiful though all are firmly held. In medium Japans a good business has been done at from about 30c. to 37c. We hear of a recent sale of a round lot at 321c. The market in Japan is beginning to show signs of weakness. Sugars—The demand has continued good, and all kinds are firm. Values for Whites have advanced &c. all round during the week; granulated is quoted at 10½c to 10¾c; Diamond A, 10½c to 10½c; Grocers A, 10 c to 10 c; Paris lumps, 11c to 11 c. The demand for yellows is active, and both the refineries here are unable to overtake the orders in hand. Prices range from 8c to 9½c. Molasses.—The market has been excited over a further advance for Barbadoes, which are held at 50c. per wine gallon; the advance being caused by the short crop on the island. Trinidad held at 40c to 42c, and Porto Rico at 45c to 47c, for round lots. Rice is plentiful, and in inclieu at 61%; 25 City Passenger at 123. moderate demand at \$3.85 to \$4.10; no Afternoon sales: 50 Montreal at 153%; 50 reported sales of round lots. Fruits—There is a lull in the demand, awaiting the arrival 154; 59 at 154; 41 at 1544; 50 Ontario at 87; 145 at 87; 28 Jacques Cartier at 84; of the new crop. The market for currants is Marchants' at 106: 75 Commerce at 130; somewhat excited over the reports of damage ** 145 at 87½; 28 Jacques Cartier at 04; Somewhat excited over the reports of damage Merchants' at 106; 75 Commerce at 130; Somewhat excited over the reports of damage to the new crop by rains; the opening price at 125 at 129½; 125 at 129½; 55 Richelieu at 61½; at Patras is understood to be 168 6d f. o. b. The crop of seedless Sultana raisins and figs. is also reported to be injured by the extreme heat. About 3,000 boxes of Sultanas have been sold here during the past week on p. t. Prices range from 71c to 81c. Valencias are scarce at the moment; the cable quotation for the new crop is 23s; small lots of old crop selling at 73c to 8c. Syrups unchanged. Spices quiet; black pepper firmer at 104c to 103c; cloves, 374c to 40c.

THE CATTLE MARKETS.

MONTREAL, August 30. There was a fair supply of both cattle and sheep on the markets to-day, but owing to the brisk demand prices were firm and in some cases higher than they have been for a number of weeks. About 150 head of shipping cattle were bought to-day, at from 4c to HARDWARE AND IRON.—This market remains in statu quo, or about as last reported. Business over 5c per 1b. Good butchers' cattle sold over 5c per 1b. Fat hogs have been arriving freely of iate, nearly 1,000 head having been brought to the city since the beginning of last week. Most of these had been ordered by city butchers and the price agreed on before arrival. Small lots were selling to-day at 6c

THE HORSE MARKET.

per lb. The market boats this afternoon

brought a considerable number of cattle,

sheep and hogs, but they were late coming in.

Montreal, August 27. The horse trade has been very inactive all week, the number of steeds purchased for export being only 51, costing \$4,904, as against 104, costing \$9,901, the previous week. The demand from local traders is comparatively better than from exporters, but they are only buying old and inferior horses mainly for drawing coal and heavy goods from the wharves. Dealers in carriage and saddle of the former class at \$200, and another went horses, but farmers areasking higher prices, and as very few are coming in just at present they have decided, the best of it. On the Corporation market one horse sold for \$42; 1 for \$35; 1 for 50; 1 for \$28 and 1 for 24. FARMERS' MARKET PRICES.

All the approaches to the Bonsecours Market, as well as Jacques Cartier Square, were thronged to-day with produce-laden vehicles, farmers as well as market gardeners being well represented. Grain of all kinds and potatoes were offered in larger quantities than for some time past and prices of these were lower, potatoes being especially cheap for this time of the year. Roots and vegetables continue in very large supplies, the onions being unusually far advanced for so early in the season; they are abundant and very low-priced. Cabbages are abundant and of good quality and are being shipped to other markets in considerable quantities. Some four or five thousand heads of cabbages were recently shipped from here to the Maritime Provinces. There were about thirty cartloads of melons offered by farmers and fully as much more by market gardeners. As the prices are moderate there seems to be a pretty active demand for them. Tomatoes were abundant and cheap, though not in such large supplies as they were ten days ago. The apple market is thronged, and small shipments are being made to Britain; plums continue plentiful and cheap, and blueberries are also abundant; peaches were slightly higher-priced, while pears were rather lower in price. Poultry were in better supply, there being a considerable number of young ducks and a few geese offered. The butter market was better supplied, but prices continue without material change Eggs are advancing in price. you wanted to say 'damn' first?' retorted this bad man.

'Have you seen my pipe, love?' 'Do you mean your meerchaum, darling? Here it is inside the fender. It smelt so of that horrid tobacco that I washed it for you.'—Punch.

'Is he mean?' asked one club man of another. 'Mean? Why when he has spent a quarter it continues after it has left his hands to turn over and over for several days as a mere matter of habit.'

'Your future husband seems very exacting; he has been stipulating for all sorts of things, said a mother to her daughter who was on the point of getting married. Never mind, mamma,' said the affectionate girl, who was already dressed for the wedding, 'these are his last wishes.'
