COAL

TRIAL ORDERS

TRACKING: ACTIVITIES UNDERTAKEN IN QUARTER:

QUARTERLY RESULTS REPORTED:

QUARTER: 1 Ongoing contact with Rom importers of iron ore,  
sulphur, asbestos and providing appropriate  
information to interested Cdn companies

QUARTER: 2 Ongoing contact with Rom importers of metals  
and mineral products.

QUARTER: 3 Ongoing contacts with Romanian importers of  
metals and mineral products.

QUARTER: 4 Specific contacts with relevant Rom officials  
directly involved in this field of activity.  
Post participation in an European workshop on  
asbestos organized by Cdn Institute of Asbestos,  
External Affairs and EMR

Iron ore: price factor main impeding element  
Sulphur: Cansulex offer not accepted  
Asbestos: LAB Chrysotyle signed a 750 to contract with Rom FTO subject to import licence being issued by MFT.Roms now want to renegotiate price

Romania no longer interested in Cdn supply.  
Price and distance factors main impediments.

Some interesting exchanges of views with Rom specialists and decision makers.  
Asbestos : LAB succeeded, with Emb help, in selling 700 tonnes to Romania. 200 tonnes are still in Constanta harbour

Romanians are willing to restart specific imports from Canada if commercial terms are adequate.  
Romanian officials mostly share the view points expressed during the asb workshop in Brussels
