(1) Estimated.

(2) Living expenses shown here are for boarders in private homes and not for those living in University residence, as in the rest of the table.

(3) These figures represent the expenses for science students only; affiliated classical colleges comprise the arts faculty.

NOTE - These figures must be considered approximate. The cost of living index in June 1948 was 154.3 (average 1935-39 = 100) and this index has risen since that time. Readers of this paper who are particularly interested in this subject should apply for information directly to the Registrars of individual universities.
