Introduction and General Statement.....	1
Salient Points,- Branches of Geology not taught or inadequately taught under present conditions	4
Summary of assistance required.....	5
Summary of equipment required.....	7
Graduates in geological sciences from McGill	
General account.....	9
Location at present.....	13
Occupations.....	13
Students from 1920-1930 and where they completed their courses.....	14
List of graduates and past students arranged by years of first degree.....	16
Report by Professor T.H.Clark, on	
General Geology.....	21
Stratigraphy.....	23
Paleontology.....	24
Field Work.....	26
Report by Dr. Gill, on	
Undergraduate,- Physiography.....	27
Practical Geology.....	27
Graduate,- Physiography and Map Interpretation.....	28
Structural Geology.....	28
Economic Geology Museum.....	28
Report by Professor Graham and Dr. Osborne	
Mineralogy and Crystallography.....	30
Petrography and Mineralography.....	32
Equipment required for Mineralogy and Petrology.....	33
Report by Professor O'Neill	
Economic Geology.....	34-36
<hr/>	
Chart,- Tabular presentation of subjects treated under the various geological sciences.
