

43

July 24th 1922.

My dear Currie,

I was very glad to hear from you that Major Furse did good work at the Winnipeg Conference. I think he has returned very satisfied with his trip and I hope we shall have succeeded in starting something that will add to the careers open to adventurous youth at your Universities as well as ~~to~~ have done something which in the long run will help to strengthen Canada's realisation of the fact that she owns an Empire.

I have given a line of introduction to you to Neville Chamberlain, Mr. Joseph Chamberlain's second son. He has taken, among many other public activities, a great interest in the development of Birmingham University and I am sure you will like to meet him.

Many thanks for your kind line of congratulations on my Privy Councillorship.

*Yours sincerely*  
*Hoover*
