Statistical Returns Which Afford Food for Reflection-The Victoria Jail.

Mr. F. S. Hussey, superintendent of Provincial police, in his fourth annual report which has just been laid before the Legislature, says : "The Provincial prisons are all in a well kept state and the sanitary condition of each has recently received the most careful attention, and I am pleased to

the Kearsarge's crew at the time of the en-gagement, and was presented by him to the late Frank Campbell ar., over twenty years ago. It is reported that the Victoria Electric Railway and Lighting Co. have been advised that their £100,000 five per cent. debentures have all been taken. The prospectus states that the debentures are for £40 each and

ers in this jail it has been necessary on several occasions during the past year to remove convicts to New Westminater prison to complete their terms of imprisonment." Accompanying this concise report of the condition and requirements of the provin-cial prisons are numerous statistical state-ments, which afford interesting and instruc-tive reading. The total number of prison-ers dealt with during the year ending Oc-tober 31, 1893, at the four provincial jails, in Victoria, New Westminster, Nanaimo and Kamloops, was 1,105. Nanaimo had 479, Victoria 273, New Westminster 210, and Kamloops 143. The most serious of fences charged are thus enumerated : Mur-der 11, attempted murder 1, arson 1, abduc-

THREE FORKS.

TO THE EDITOR : - Last evening's Times contained a clipping from the Nelson Miner, published with the intention of misleading the public and the Legislature as to the true intent and object of a bill brought in by the Government to enable a title to issue for our pre-emption claim at Three Forks. The article in question was, we believe, inspired by two well-known land-grabbers, the owners of rival townsites some four or five miles distant from Three Forks, who did not succeed in inducing the Nakusp and Slocan Railway Co. to make their terminus at aither point at either point instead of Three Forks, and who now, in a spirit of revenge, do not hesitate to misrepresent the Government and try and injure it in the eyes of the public in order to strike a blow at others. The statistical report of the Victoria jail, for the prison year, shows a total of 273 prisoners received, an increase of 5 over the previous year; these were received as fol-lows: From the city police, 164; from the provincial police, 66; from the sheriff, 9; and from H. ## TRIDUUM OF THANKSGIVING.

NEW YORK, Feb. 17.-The church of St. Alphonsus was crowded with worshippers to-day at the opening of a triduum in honor of the blessed Virgin. High pontifical mass was celebrated at ten o'clock in the morn-

Muir followed with some general remarks relative to the volunteer movement in Great Britain, and showed that per head of popu-lation there were more volunteers in Scot-land than in any other part of Great Britain, while in efficiency the Scottlah volunteers were second to none. He had been one of a deputation to meet Hon. Mackenzie Bowell and Major General Herbert on behalf of a Scottlah regiment, and from what was said then he had come to see that the most i.n-portaat requirement at the present time was sentences in Nanaimo and New Westmin-ster jails, as well as in other prisons." The statistical portion of the report from the Victoria jail is admirably complete. It shows the average number of prisoners per month to have been 1291, or 425 per day; the juil second for a star from all the jail receipts for the year from all sources were \$6,769 47, and the expenditure (inclusive of salaries, \$6,870 00), \$11,330 95. The average cost of maintaining each pris-oner in food and clothing alone is found to portant requirement at the present time was artillery. At times I was completely pros-trated, and 'so difficult was my breathing that my breast seemed as if confined in an iron cage. I procured a bottle of Ayer's Cherry Pectoral, and no sooner had I began taking it than relief followed. I could not be-lieve that the effect would be so rapid and the cure so complete.
