STEAMSHIP SHARES

WEAKNESS IN C. P. R.

Stock Yields One and One-Half Points-Liberty Bonds Hold. Rally.

New York, Feb. 16.—Steamship shares were the outstanding features of today's brief stock market. Marine preferred and Atlantic Gulf displayed especial activity at extreme gains of 2½ and 1½ points, respectively.

and Allantic Gulf applayed espectations, respectively.

There was also an unusual demand for United Fruit, which rose almost three points, while American International Corporation threw off much of its heaviness of the previous day.

Gains elsewhere were limited to relatively unimportant industrials, including secondary steels. Great Northern ore rose two points, and Sloss-Sheffield Steel almost five.

Minor metals, including American Zinc, Butte and Superior and National Lead, advanced one to three points, coppers later making average gains of one point. Features of strength among specialties were American Woolen, Hide and Leather. common and preferred, and Pacific Telephone, one to three point advances being largely retained.

U. S. Steel moved within restricted limits, but closed at the smallest fractional gain. Rails showed none of their recent prominence, but were steady except Canadian Pacific, which yielded 1½ points. Sales amounted to 360,000 shares, Liberty bonds held their rally, the 3½'s selling at 37,90 to 98,10, the first 4's at 96,30 to 96,50, and second 4's at 95,84 to 96. International bonds eased slightly. Total sales, par value, \$1,950,000. United States bonds, old issues, were unchanged on call during the week.

BRAZILIAN SHARES

Dominion Steel and Mackay Preferred Other Firm Spots in Market.

Brazilian was the only active issue on the Toronto Exchange on Saturday, the stock being in fair demand at from 36 to 364, with the close. It above that of Friday. The market view appears to be that the worst is now known so far as Brazilian's earnings are concerned, and that, with any definite indication of the approach of peace, there will be a marked appreciation in the quoted value of the shares. Other noticeably firm features were Dominion Steel at 61% and Mackay preferred at from 61 to 61%. Strength in the latter was due to the announcement in the annual report of the directors policy of buying these shares in the open market. Steamships common was unchanged at 42% and Twin City at 65. Dealings in the war loans were extremely light.

The day's transactions: Shares experts.

MINE PETERSON LAKE

Operations Shifted From the "Gould Lease."

In a statement covering operations of the Peterson Lake Silver Cobalt Mining Company, Limited, for the nine months and managing director, says:

We are at present working on the latt Lake section of your property, forcerly known as the Gould lease, and hould we fail to find silver values in the latt require we shall leave this section. mould we fail to find silver values in the near future we shall leave this section, for the time being, as we are of the pinion that we shall have to go to a desper level to discover good values in the world today. It has now reached such a stage of development that it is certain to earn and discover have from our present workings, we shall open up what is known as the No. 2 shaft, on the west shore of the lake, about midway between the old Seneca.

LAKE OF WOODS RISES

about midway between the old Seneca and Little Nipissing leases, where we believe (from information received and official records we have), we shall find ore deposits of value.

"Re the litigation of the Dominion Reduction Company v. Peterson Lake: We informed you in the last quarterly state.

We are now commencing the erection "We are now commencing the erection of a mill of 100 tons daily capacity on the property to treat the slimes on the old Seneca-Superior section. Independent surveys and assays show these slimes contain over 75,000 ounces of sliver, and should defray all expenses of building the mill etc., and net the company in the neighborhood of \$30,000 for further development."

financial statement shows \$18,321 cash on hand, after providing \$3607 for unpaid dividends. The head office dissements for the nine months' period ounted to \$12.043, the chief items being: Government income tax for Seneca-Superior Co., \$6640; stock transfers, \$1133, and legal expenses, \$1250. There was spent on mine exploration \$12,630. Work done in drifting, crossoutting, which good

FAVORABLE OUTLOOK FOR COPPER STOCKS

Metal Ranks Next to Steel as Essential to World's Progress.

Hamilton B. Wills in his weekly Gains Elsewhere on Saturday
Limited to Rather Obscure
Industrials.

Hamilton B. Wills in his weekly letter says:

The importance of copper is now fully recognized by all authorities in industrial, financial and military circles, and next to steel there is no other metal which is so absolutely indispensable to the world's progress as

copper.

The shrewdest financiers, governmental experts and keen-sighted investors are thoroly alive to the unique situation of the copper mining and producing industries, and the steady accumulation of good copper securiaccumulation of good copper securities is due to the knowledge on the part of astute market judges that present prices, in many cases, place bargain valuations on the coppers.

There has been a notable awakening of public interest in the coppers. of public interest in the copper group, and a careful analysis of the strong

technical position of these stocks, as well as conditions in the industry, re-veals an outlook promising another record year for copper, and all signs point to a big forward movement in the market prices of copper securi-ties straight ahead.

HOLLINGER'S RICHES

The main points in the Hollinger annual report are summed up by Homer L. Gibson and Company as 1,950,120 tons of ore have been mined and milled. \$19,728,383.03 in gold bullion has been

\$8,194,000 has been paid to sharehoiders in dividends. \$3,000,000 has been expended for plant and equipment.

\$712,724 in surplus is now on hand. \$375,000 to \$400,000 is now being produced each four weeks. \$200,000 (approximately) in net pro-fits are earned each four weeks. \$40,231,435 worth of ore is in re-

velopment and construction period of the mine's history. The plant is now Capable of handling 2500 to 2600 tons Loan, Trust, Etc. the mine's history. The plant is now capable of handling 2500 to 2600 tons of ore per day, and is one of the most complete and efficient anywhere in the mining world. Impressive as these facts are, however, their significance is somewhat dwarfed by the following additional data, also obtained from the official reperts.

Approximately 90 per cent. or \$17,750,000 of the above mentioned production, has been drawn from above the 425-foot level. This from 33 tens which have been developed underground, while 41 other veins carrying do. 1st m't'g. 5 p.c.

than \$42,000,000 will be taken from above the 425-foot level.

The workings have already reached a depth of 1250 feet from the surface, and altho very little development work has been done at that great depth, the veins have been proven to carry values and to have the same general character as on the upper levels. Diamond drilling has been done to a vertical depth of over 1400 feet, and no change in rock formation has occurred.

If the 41 veins remaining undeweloped carry one half of the value to the 425-foot level, as have already been day's transactions: Shares, exclu- the veins have been proven

weloped carry one half of the value to the 425-foot level, as have already been proven in the 33 veins already partially developed to that level, a gross production of over \$15,000,000 for each 100

RECEIPTS OF CORN AT CHICAGO LIGHT

Stormy Weather Tends to Interfere With Movement of Crop-Oats Also Strong.

Chicago, Feb. 16.-Corn ranged some-

what higher in price today, owing, more lacked volume. The market closed steady at 4c net advance, with March \$1.27% and May \$1.26%. Oats gained ic to 1½c, and provisions 20c to 30c.

Bears in corn were at a disadvantage from the outset. Stormy weather, which would tend to interfere with the crop movement, formed a handicap on selling operations. The newly-reinstated bar against shipments to the cost second. operations. The newly-reinstated bar against shipments to the east seemed to be forgotten as a price-making influence, and, instead, attention was focused on the comparative smallness of today's fresh supplies in Chicago, which at first were estimated at 200 cars, but later dwindled to 101. Under such circumstances no important setback took place, and the market held up well at not far from the best prices of the season, notwithstanding that, as a whole, primary receipts for the week totaled materially in excess of corresponding amount last year.

year.
Oats ascended to the highest prices yet for the present crop. Shorts, who had found offerings light, covered freely.
Sharp upturn in hog quotations hoisted provisions. Holders showed considerable disposition to realize on the advance. Hogpacking to date shows a big shortage.

MONTREAL PRODUCE Montreal, Feb. 17.—In sympathy with the strength which prevailed in the options market for oats last week, there was a strong feeling in the local market for the cash article, and prices, during the week scored advances amounting to 1½c per bushel. The market closed firm on Saturday, with car lots of No. 3 C.W. and extra No. 1 feed oats quoted at \$1.04 per hushel

14,000 per bushel.

The feature of the past week in the flour situation was the great scarcity of winter wheat flour, stocks having been completely exhausted. Up to the present some of the largest flour dealers here have not received offers of a single barriel of the new government standard. some of the largest flour dealers here have not received offers of a single barrel of the new government standard grade. The new government standard grade of flour is quoted at \$10.70 per barrel, in bags, f.o.b. cars. Montreal.

A feature of the past week in the local egg market was the strength which developed in the early part of the week, and dealers generally advanced the prices of fall fresh and storage eggs two cents a dozen, this being the result of the increased Lenten season demand and the small stocks on spot. The receipts of eggs on Saturday were 179 cases. The receipts for the week were 1686 cases, as against 3246 in the previous week.

The butter situation still remains strong, and prices last week for all grades scored a further advance of 1c per pound, a net advance since the first of the year of 50 per pound. The demand during the week was steady, and a fair amount of business was done including sales of 300 of 50 per pound. The demand during the 300 week was steady, and a fair amount of 1,600 business was done, including sales of 400 some round lots at 49½c to 500 per pound 100 for finest creamery. One lot of 350 pack-1,000 ages sold at 49½c per pound. Several 4,200 sales of finest dairy butter were made at 41½c to 42c. The trade in a wholesale 1,300 joboling way was fairly active, with sales 900 of finest creamery at 50c per pound, in solid packages, and at 51c in one-pound blocks.

A good trade was also done in oleo-

poxes.

German Attempts to Bomb American Field Hospital

With the American Armies in France. Saturday, Feb. 16.-An American field hospital in a town A good trade was also done in electric department of the past week were 1565 packages, a decrease of 2126 packages, as compared with the previous week. Saturday's receipts of butter were 63 packages, as against 1598 on the previous Saturday.

The cheese market continues quiet. The receipts of cheese last week were 302 boxes.

American field hospital in a town within our lines apparently was the target for a German airplane which flew over it last night and dropped several unusually heavy bombs. The hospital, in which were a number of sick and wounded officers and men, was the building nearest the places.
