Boys' Shoes...

A problem. Yes and no. To be sure it has long been somewhat of a puzzle—finding shoes for the boys which will be decent in appearance and at the same time give reasonable wear. The shoes have been either too light to wear well, or as clumsy as an india-rubber elephant. The same trouble exists today. That is, you find it until you find a shoe store which is up-to-date. That's the kind of a store this is. Boys' very neat, riveted sole, lace boots, sizes 1 to 5, made in U.S.A., at 89 cents. Boston, Calif., at 85 cents. Better ones at \$1.15 and \$1.25.

ALHION HOTEL—15 DUNDAS STREET.

Tables, R.R. which left here in December last to define the boundary on the north bank of the Gambia, is at a standstill, as it has been found that the old boundary line is incorrectly placed, and that certain territories in-will district are within the seven kilometers radius, thereby bringing the French inland telegraph line, which connects the Senegal possession of the French with their colony, Senegambia, within the British Protectorate.

KIPLING BETTER

The Patient's Chances for Life Really Improved.

New York, March 1.—There was an appreciable gain in the condition of Rudyard Kipling during the last few days.

Dunham and Dr. Dunham, the last being the family physician of the Kiplings, when they are at Brattleboro, Vermont, remained in the Grenoble all night. With the exception of Dr. Dunham, however, they did not feel it necessary to remain in the sick man's apartments, and Dr. Dunham did not spend the night there. Though he did not say so, there was a thought preva-lent that Dr. Dunham stayed there for some time so as to be ready to relieve the patient immediately in case of need. The gain has not been great, but he is really

BETTER THAN FOR SEVERAL DAYS.

and it has given the doctors hope. Dr. Dunham appeared at 5 o'clock in the lower part of the hotel. He said: "I am fairly well pleased with the condition of Mr. Kipling. He is resting quietly."

Mr. Doubleday was seen at 7:30 o'clock. He said that the symptoms some times improve, but the symptoms of Kipling is in danger of death comes with a shock of grief to a fel-low-countryman and a reading man. Almost since the beginning of his career I have read every word he wrote, and have found in his words an in-spiration beyond that of any other liv-ing novelist. He deals at first-hand with the half-dozen passions which mold human nature, and always with insight and nobility. His death— which God forbid!—would, in my hum-ble judgment, deprive English letters of our greatest name, and England of her real poet laureate."

HE DEFIES THE BRITISH

African Chieftain Threatens to Make Trouble.

Supported by Others Who Ac-knowledge French Allegiance.

Statement of the Strength of Britain's Militia.

Dreyfus Revision Bill Passes the French Senate—The Queen May Not Visit the Riviera This Spring.

Bathurst, Gambia Settlement, West Africa, March 1.—Great Britain may have another petty native war on her hands. A chief named Jimbaba Ma has appeared with an armed force, and has defied the authority of the British government in the Upper Gambia, at a place called Kanube, in the British Protectorate, about 200 miles up the river. The administrator, Sir Robert Jewell, has considered it advisable to send down here for her majesty's ship Alceste to proceed immediately to the place. She has left with an ad-ditional contingent from her majesty's ship Magician, which vessel is also in the river. The chief in arms has not a large following, but it is generally known that he is supported by other chiefs who owe allegiance to France. The British sphere of in-fluence extends seven kilometers on either side from the center of the river as far as Yabuteude, where it is also supposed to extend the same distance in every direction. This, of course, causes serious inconvenience when dis-tinguished chiefs have to be dealt with, as they can easily place themselves and their followers beyond the bound-ary, outside the jurisdiction of British authority. Another chief at a place called Kuntung, about twenty miles from Kanube, has deposed his brother, who has been obliged to seek the pro-tection of the authorities at McCarthy's Island, as a protest against the action of the government in superseding him. The Anglo-French boundary commis-sion, under the colonial engineer, and Capt. F. R. E. which left here in December last to define the boundary on the north bank of the Gambia, is at a standstill, as it has been found that the old boundary line is incorrectly placed, and that certain territories in-will district are within the seven kilometers radius, thereby bringing the French inland telegraph line, which connects the Senegal possession of the French with their colony, Senegambia, within the British Protectorate.

BRITAIN'S MILITIA

return, the total strength of the Eng-lish militia in 1898 was 132,493, and the number wanting to complete the estab-lishment was 19,054, of all ranks, in-cluding 64 officers. The deficiency in the artillery was 10 per cent, and in the infantry nearly 17 per cent.

CRIMPING.

In the course of a discussion arising upon a motion declaring that the gov-ernment should endeavor to remedy the growing employment of foreigners in the British mercantile marine, Mr. Joseph Havelock Wilson, Liberal mem-ber for Manchester, and general secretary of the National Seamen's Union, denounced the crimping preva-lent in New York, which, he asserted, it was in the power of the president of the Board of Trade to suppress. Mr. Ritchie replied that the Board of Trade was doing everything in its power to protect seamen from crimping, and had not lost sight of the evil, as de-veloped in New York. The motion passed.

THE ENGLISHMEN SHOT AT

Manila. Replying in the House of Commons to the Hon. Philip James Stannope (Liberal), who asked the government to make friendly representations to the United States on the subject of pecuniary compensation being granted to the relatives of the Englishmen who were shot at Manila, the parliament-ary secretary of the foreign office, Right Hon. William St. John Broder-ick, said the British consul at Manila had telegraphed the fact of the shoot-ing, but the government must await a full report on the subject before form-ing an opinion on the points raised.

THE QUEEN'S PROPOSED VISIT TO FRANCE.

The London correspondent of the New York World cables the following to his paper today: The World cor-respondent tonight thought that Queen Victoria has practically decided to abandon her projected visit to the Riviera. She had arranged to start on March 3. This change of plans is not due to any fiction of France, but because of the constant personal at-tacks by which her advent has been heralded in the Nicols Journal. Re-membering the assassination of the Empress of Austria, it is feared that these attacks may incite some half-demented person to take an attempt on the Queen's life. The Queen is loth to give up her holiday, and may re-con-sider her present determination, which is to remain at home.

ARE JAPS MEDDLING?

Madrid, March 1.—The Reforma as-serts it has received letters from re-liable sources at Manila saying that 30 cannon, 30,000 rifles and several million cartridges from Japan have been land-ed at Sual, on the west coast of the Island of Luzon, about 100 miles from Manila, and the seat of the rebel govern-ment.

The Reforma adds: "Japan evidently intends to act towards the Americans in the Philippines as the Americans acted towards the Spaniards in Cuba."

THE ORLEANIST PLOT.

Paris, March 1.—Nothing seems to have come of the alleged Royalist plot. The sudden action of the government

in the domiciliary searches, it is be-lieved, was a mere device of the pre-mier to assure acceptance of the revision bill.

THE REVISION BILL.

Paris, March 1.—The senate continued the discussion of the trial revision bill, which was attacked and defended on the old lines. The bill, the premier pointed out, did not in the least di-minish the safeguards of the accused. The government wished the whole evi-dence to be known to everybody, and therefore it would be printed in its entirety. The premier declared that the government wished to make the passage of the bill a question of confi-dence. M. Waldeck-Rousseau bitterly attacked the government for introduc-ing so incoherent a measure. A gen-eral debate followed, after which a mo-tion to pass was adopted by 155 votes against 125. The senate then adjourned.

THE AMEER LIVES.

London, March 1.—The secretary of state for India, Lord George Hamilton, announced in the House of Commons today that there was no truth in the reported death of the Ameer of Af-ghanistan.

CONCESSION TO CHINA.

Rome, March 1.—The Famulina an-nounces that China has granted Italy a 90-year lease of San Mun Bay, in the Province of Che Kieng.

THE DUKE'S POSITION.

Paris, March 1.—An interview with M. Buffet, the representative of the Duke of Orleans, was published here this morning. He declared the Orleans had made no advances to politi-cians or officers, but he admitted the Duke of Orleans would be pleased to profit by a time of trouble to gain his ends. M. Buffet added: "That the duke never intended to use force." The po-lice, it is announced, have seized only one important document during the searches recently made. It relates to the selection of a politician and pro-vided him with funds and a title. The document also touches on the question of the appointment of a prominent anti-Dreyfus general as minister of war, but the general himself was not implicated.

CABLE NOTES.

The Vatican strongly disapproves the intrigues of the French pretenders, Orleansist and Bonapartist.

The Morgen Bladzet says that ar-rangements have been concluded whereby a sealing vessel will search Franz Josefstad for Walter Wellman and the members of his expedition to Greenland, unless the explorer returns safely.

Senators Degoutin and Cardenal have been unseated for accepting posts in Porto Rico from the American Govern-ment.

It is understood that grants of land in the Sudan will only be made to purchasers who undertake to culti-vate it.

Captains of the two British and American boats at Bluefields, Nicaragua, have wired President Zelaya, at Man-agua, that the revolutionists will quit if he will guarantee their lives and property and maintain order.

DEATH OF LORD HERSCHELL

One of Britain's Most Prominent Public Men Passes Away.

Washington, D. C., March 1.—Lord Herschell, one of the joint high com-missioners from Great Britain, died here at 7 o'clock this morning.

Washington, March 1.—Lord Her-schell was lord chancellor of Great Britain, and was sent to the United States because of his eminent attain-ments, to take a leading part in the negotiations designed to settle all ex-isting differences between the United States and Canada.

THE CAUSE OF DEATH.

During the wintry weather, when the sidewalks were slippery, he fell heavily, as he was about to get into a carriage, and broke one of the pelvic bones. He seemed to be progressing favorably towards recovery, and was in good health comparatively until about 7 o'clock this morning, when he was suddenly stricken with heart failure. Dr. W. W. Johnston was summoned, and responded at once. He saw at a glance that the case was a desperate one, and called Dr. Maddox in con-sultation. The two doctors, two nurses, and Lord Herschell's two secretaries, Mr. Cartwright and Melworth William-son, were with him when he died at 10:30 a.m.

LORD HERSCHELL'S CAREER.

Lord Herschell, first baron of that name, one of the high joint commis-sioners from Great Britain on the Anglo-American-Canadian joint commis-sion, recently in session at Washington, was born No. 2, 1837. He was a son of the late Rev. Rydley Herschell, of London, and Helen, daughter of William Mowbray, of Edinburgh. He married 7 o'clock Agnes, third daughter of Ed-ward Leigh Kindersley. There is one son and two daughters living. Baron Herschell was a privy councillor, a Knight Grand Cross of the Bath, Doc-tor of Civil Law, Doctor of Laws, a deputy lieutenant for Kent and Dur-ham, a justice of the peace, captain of the 1st Life Guards, and was appointed British member of the Venezuela and British Guiana boundary arbitration tribunal in 1897. He was knighted in 1890, and was created a peer in 1876. The de-ceased was educated at London Univer-sity, where he graduated Bachelor of Arts, with classical honors. He be-came a barrister of
