BAKERS RAISE PRICE OF PIES AND CAKES TWENTY PER CENT. MORE FROM TO-DAY

Dominion Bakers' Association Assert That Cost of Materials Renders Advance Necessary - Wholesale Flour Men and Others Dispute Retailers' Allegations.

This is the day that the bakers boast the price of cakes and pies from 15 to 25 per cent, both wholesale and retail.

The concerted action on the part of the bakers in effecting a general rise of prices is largely due to the efforts of the secretary of the Dominion Bakers' Association and two or three of the prominent bakers.

What They Will Do. Following the advance in the price of flour, butter, eggs and other raw material used in the baking business, they have decided that, commencing Monday, July 19, all goods which have heretofore been sold at 10 cents per dozen or ten cents a dozen and 12 cents each.

These cards were prominently displayed about the bakers' windows on Saturday.

Heretofore small cakes of the cookie, bun and roll variety have been selling at 8, 10 and 12 cents per dozen retail, according to the size and quality of the goods.

Some of the restaurateurs and boarding-house keepers, not to mention the thousands of housekeepers who purchase from the bakers, are marveling at the great increase, especially at this season of the year when fruits and fillings generally are plentiful and cheap.

Remedy, Make Your Own. "The best medicine is in their own hands. If they don't want to pay the price let them make their own pies and cakes," is the way one manager of a large bakery has replied when queried about the increase.

The bakers who were consulted all had the same story to tell. The ingredients, such as flour, butter, lard, eggs, etc., had all gone so high that they were obliged to make the increase.

"The price should have been increased about the first of April," said Mr. Weston, manager of the Modern Bakery, "but we have been holding off expecting provisions to take a drop in price, but they show no sign of doing so, and we either have to raise prices or go out of business."

Another baker said he was paying 20 cents a pound for shortening, such as butter, whereas some time ago he was only paying about 10c per pound. Eggs also cost him 22 cents now. The cake and pie makers also complained of the increase in the price of flour as another justification for the general rise of the cake and pie quotations.

Wholesale Advances. The wholesale dealers who supply the bakers with flour, eggs and the usual materials used for shortening, are not by any means confirming the story of ruinous advances in the price of these provisions.

According to the Toronto manager of the Lake and Milling Company first grade flour is now selling at \$5.20 per barrel and second grade at \$5.70, about nine months ago the price was \$5.50 for the first grade. Then the price was raised to \$5.70, and later to \$6, and on May 6 was raised to \$6.25, and on May 13 to \$6.50, and on May 20 to \$6.75, and on May 27 to \$7.00, and on June 3 to \$7.25, and on
