To Our Friends and Patrons We wish to convey our hearty thanks for the remembering of the House of Foy, which has resulted in so generous a measure of patronage for our new Mail Order Business. At the same time, we desire to extend to all friends, both old and new, the old, old wish that alone can express the sentiment of this day-A Merry Christmas To You

These Pros Refuse to Wear Stockings Because They're Swimmers and Race

gone from one end of the United States and unnecessary regulations." Union, meeting in New York, decided to keep women swimmers from competing with the male of the species, and as a side-issue decreed that there must be a change in the garb worn by the lady-fish.

The A.A.U. highbrows ordained it to this effect: "All women contestants in swimming events must wear bathing suits of a black texture that cover their bod-

es from shoulder to toe." The giggle is still giggling, or it was at very recent reports. The mermaids absolutely refused o get excited over the advice and announced that henceforth, just the same as feretofore, they will follow their own inclinations and wear the popular one-piece kind of Annette nelierman decollete suits.

Several of these sprites declared with a grin tucked in here and there that to insist on women wearing stockings in swimming events is the funniest thing they ever heard suggested.

"I'd like to take some of those men, hang long stockings on them' and then make them swim rades in rough water," one remarked.

The women are united in declaring that the stockings quickly become water bags, retarding the swimmer and making it almost impossible to face.

Another remarked:

"No girl would be able to achieve good time in a suit such as the officials prescribe. The knee and foot must be free. Neither man nor woman in the water feels at home with any fabric clogging the feet and legs. If the costume is insisted upon it will simply put an end to women racing. But I do not expect western ofbsolutely refused o get excited over

New York, Dec. 24-Giggles that have ficials to agree to such narrow-minded Pacific coast to the other were started one woman well-known as a swimmer recently when the Amateur Athletic wants to know why the A.A.U. officials didn't suggest that the women wear hats and shoes, too.

Joe Tinker was discussing the old team. "We had some great times, all right," he laughed. "I'll never forget Bd Reulbach and his chewing gum.
"Ed always started a game with a plece of gum. He might go along good for several innings and then pass two or three men. The second Chance noticed Reulbach dig down for another plece of chewing gum he would let both hands fall to his side.
"The next moment, Reulhach would be strolling for the shower. Chance got so he could tell how Reulbach folt on the slab by that habit Ed had with his gum."
