NORTH TORONTO

The regular meeting of the North Toronto Branch of the G.A.U.V. was held last evening in the town hall, the chair being taken by Comrade McLeod. It was stated last night that a winter's program is new being arranged, which will include dances and euchre. The branch is to form a cribbage club, being the first one of its kind in the north end of the city. Pour naments will be held during the winter. It was also proposed to form a football club in connection with the branch.

These presentations were made as a mark of esteem and recognition of the many services made by Messrs, Pallatt and Norrie, and also for the great interest taken by them in the Wolf Cub Pack.

SCHOOLS CONGESTED NOBLE MAINTAINS

"It would be impracticable and illegal to put pupils in Sunday school rooms, because they are entirely unsuitable for public school work. It would be extra expense, because we would have to pay a high rent, if we could get tnem at ail, and this expense would come directly out of the taxes of the people next year. The mayor's suggestion is foolish. "Regarding the old Crawford street school. This is out of date and unsanitary.

owners, and, therefore, the peor man would have no say in this regard. This would give the rich man a chance to deprive the poor man's child of a proper education. If the bylaw did not carry, next year's school tax rate would be considerably increased, because the board of education is compelled by law to provide suitable housing and teachers for all pupils of school age. Thus, the board would be compelled to erect a sufficient number of portables, which sum would come out of the current year's taxes.

"His worship says the city council had given the board of education all the money asked for this year. This is absolutely untrue, as the following facts will show:

solutely untrue, as the following facts will show:

"We put in our estimates, as required by law, on March 1 of this year, for \$4,903,000 as a total for high and public scnools. The city coingil granted us \$865,300—barely enough to finish buildings under construction. Then, in July, they gave us a supplementary grant of \$1,000,000. Thus, for four months, we were held up and could take no action towards getting our plans and specifications ready. The million-dollar grant only passed the city council on Aug. 8 of this year.

"School buildings serve the public for at least thirty years; therefore, the cost of such buildings should be distributed over as long a period of time as possible. Why should the taxparer of ten years from now."

In presenting the foregoing, the chairman of the board stated that every statement was official and had been carefully checked over.

Want Rosedate School.

A large deputation applied for a public school in North Rosedale.

Dr. Noble welcomed the deputation, but said they were barking up the wrong tree, as the board of control had cut it out of the estimates.

The chairman assured the deputation that the North Rosedale item would be put in the estimates again.

Trustee Edmunds asked the deputation to present their case to the city council."

Trustee Stanley Brown gave notice of motion that the approximate cost of a site and public school building for North Rosedale be put in the estimates for 1921.

Bengough Appointment.

The board approved of a reference to the board's solicitor of the question of the legality of the appointment of Thos. W. Bengough as director of vocational courses, and opportunity school classes. Mrs. Howie addressed the board in favor of the same proportion of athletics for girls as the boys.

Trustee Edmunds introduced a motion that the board of education retain the services of two physicians, a lady and a gentleman, to make physical examinations of the teachers and other employes appointed by the board.
