

### There's Every Reason for Buying Your Player-Piano Right Away

Surely you realize that the perfection of the Player-Piano, so generally recognized as having been attained in the Mason & Risch, means the gradual decline in value of all "silent" pianos. As the sale of Player-Pianos increases the market for "silent" pianos grows more limited and their value grows less.

Pretty soon you will want to exchange that piano you have at home now, which is so seldom played, for a Mason & Risch Player-Piano, which all can play. Its exchange value right now is greater than it will ever be in the future. For purely monetary reasons, therefore, you should not delay investigating the

### CANADIAN ORATORS IN GREAT BRITAIN

Many Well-Known Speakers to Take Part in the Elections.

#### EXHIBIT OF TAILORING

That Will Play an Important Part in British Political Contest.

A significant feature of the British elections is the active participation in the campaign by a number of Canadian platform speakers. This is a strong proof of the constantly increasing sentiment and interest that John Bull is showing toward this country. It is also a distinct honor to Canadians to be so eagerly sought for in an election campaign which involves so many important issues. Among those who have gone to England to take an active part on the platform is Mr. A. C. Pratt, M.L.A., member for South Norfolk, Mr.

Pratt is an experienced campaigner, and one of the most effective and forceful speakers who have gone over. He has been invited by the Tariff Reform League, and is already scheduled for some 37 different meetings. A singular feature of his campaign methods is shown in the following incident, which occurred just prior to his departure. Before leaving Toronto this astute campaigner called at the big Hobblerin tailoring house on Yonge-street and was measured for a couple of suits of clothes. He has taken them with him, and will exhibit them at his meetings during the campaign as proof of the benefits of our protectionist policy, adducing the fact that this firm can purchase the cloth right in the very heart of the great English industrial centres, have it made up here, with the best of trimmings and linings (that also come from England), employing the most skillful cutters, designers and tailors in the production of the same; and then be able to sell excellently tailored to measure garments at moderate prices. This will be a striking argument on the platform, and one calculated to make the Englishman do some thinking. It is the first time that an exhibit of tailoring skill has figured in an English election, and while at the same time being a most unique idea, politically, it is indeed a glowing tribute to this well-known firm of tailors, who have been selected to furnish such splendid evidence of Canadian progress. The firm are to be congratulated upon the part their garments will play in the British elections.

### HAVE RAISED \$700,000 TO MEET BANK'S DEFICIT

Call on Shareholders of Ontario Bank is Meeting With Results.

The Royal Trust Company, liquidators of the Ontario Bank, have received nearly \$700,000 as a result of the call of 95 per cent. issued to the shareholders under the double liability provision. The deficit to be met is \$800,000, and it is expected that in a day or two more the remaining \$100,000 will be realized. Should this call and the assets net more than the required sum to meet the liabilities, there will be a return made to the shareholders, but this is not to be looked for within the next two years. The bank suspended payment in 1905, and on Sept. 23, 1908, the winding-up order was made. It is expected that at least two years more will be needed to realize upon the assets, which consist of Fort William and other real estate, stocks, etc. A 10 per cent. dividend will shortly be declared to the creditors, who will ultimately be paid in full.
