31	Sun	Mars and Sun in opposition.	6 53	5 6	16	morn	17	13

*Plumb Pudding for the Million.*—Take half a pound of flour, half a pound of currants, half a pound of grated carrots, half a pound of grated potatoes, a quarter of a pound of suet, and a little seasoning, mix them together, and boil them in a basin an hour and a half. You will then have an excellent plumb pudding for a trifle more than a sixpence! Just try the experiment.

*To take stains out of Silk.*—Mix together, in a phial, two ounces of lemon, and one ounce of oil of turpentine. Grease and other spots in silk are to be rubbed gently with a linen rag dipped in the above composition.

The number of cows kept in London and environs, is estimated at 9000, which produce annually 23,300,000 quarts of milk, valued at £720,000.
