Louis Donovan, Maritime 126pound amateur skating champion,
left last evening for Toronto to
compete in the Eastern Canada
Olympic trials there on Thursday
and Friday of this week. The
young local mitt artist was accompanied by his brother, C. K. Donovan, who will act as his second.
A collection taken up at the
Arena last evening to defray expenses of the trip amounted to
the splendid sum of \$104. It is
confidently expected that Louis
will make a good showing at Toronto. His doings will be followed with interest.

ritleholder Has Advantage
Early; Then the Challenger Mixes It.

Nedder Healey of Hallfax, welterweight champion of the Maritime Provinces, and Johnny McIntyre of Glace Bay, a former title-holder, last evening battled in the Arena before a crowd of between 1,500 and 2,000 fans, and after 12 fast rounds the judges disagreed as to the winner and Referee Jimmy Power called the bout a draw. There was some difference of opinion amongst the spectators, the house being about evenly divided for both contestants. The judges were D. L. Maclaren and Dr. J. L. Day.

Healey was the aggressor in all but the last round, when the challenger let loose a fusiliade of blows which brought the fans to their feet. It was this attack which evened matters for McIntyre.

In the sixth, Healey had McIntyre to the manufacturer in the first preliminary, which went sour rounds, the decision being given to Knox. The bout was great deal of science to it.

Very much on the defensive and knock out was a though a knock out was cretain. The champion, after sparring for position, opened up a terrific barrage of blows, which caused he Glace Bay boy to cover continudally. Right and left punches were oblented with caused in McIntyre's head and body, and only the former title-holder's ring generalship and speedy foot-work kept and shored which form a knockout. When the bell sounded he was hanging on in a rather dazen condition.

Teeth Beauty Adds a premier charm

It comes by combating film You who love beauty should learn this way to prettier teeth, if you don't know it now. That is one great beauty item.

Millions now use this method. You see the results today wherever you look. Now see them on your own teeth. Make this delightful test. grates the film at all stages of formation. The other removes it without harmful scouring.

Able authorities proved these methods effective. Then a new-type tooth paste was created to apply them daily. The name is Pepsodent.

Now careful people of some 50 nations employ it, largely by dental advice.

Film mars beauty Then Pepsodent creates a constant fight on acids and starch deposits. It multiplies the alkalinity of the saliva, also its starch digestant. Thus it gives manifold power to these great tooth-protecting agents in the mouth.

The result is a new dental era. Men, women and children, all the world over, are enjoying it today.

Your teeth are coated with a viscous film. You can feel it now. Under old-way brushing, much of it clings and stays. Soon it becomes discolored, then forms dingy coats. Teeth thus lose their beauty and luster.

Film also holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea.

Under old methods, those film-caused troubles became almost universal.

Then dental science found two ways to fight film. One disinte-
