COMPLAIN OF ILLEGAL USE OF UNIFORMS

Returned Men Appeal to Ottawa to Have Old Uniforms Dyed Before Sale

(Montreal Star.)
The Canadian Workers' Federation of Returned Sailors and Soldiers have discovered a new one, and their discovery has resulted in an urgent appeal to Ottawa on behalf of the overseas men.
It came about in this manner. Several men in uniform turned up at a certain large plant in Montreal to look for work. That plant is noted for its consideration to men who have served overseas. The man who runs the employment office is an active service man himself, and he knows the ways and wiles of the man in khaki. But when these applicants in uniform came before him he discovered that far from having served overseas, these men had never been out of Montreal and in fact had never been in the army.
The rapid exit of the pretenders was followed by a thorough investigation which showed that in certain shops in the city military clothing is on sale at a fairly low price. The clothing has been obtained from the government, but no restriction appears to have been made regarding those who are entitled to buy. Some men who are not entitled to wear a uniform have bought a suit of khaki and have paraded around wherever it is to their advantage to do so.
The protest made by the C. W. F. R. S. asks that the buttons be removed from the uniforms, that the cloth itself be dyed, or that some regulation be passed so that those who are allowed to purchase these uniforms.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

"UNDER COVER" OPENS AT ST. VINCENT'S TONIGHT

To followers of the stage little need be said concerning the splendid New York drama "Under Cover" to be presented at St. Vincent's Theatre, Cliff street, opening tonight for three nights and Saturday matinee. All new up-to-date scenery has been provided and a popular, talented cast of amateurs directed to present the play under the direction of Arthur McCloskey. Special orchestra music will accompany the production. The curtain rises at 8.15 and ticket holders are assured of a delightful theatrical treat which adventure, love, romance and comedy pleasantly intermingles.

Two funnels.
Several feet of rubber tubing.
Included in the apparatus were found devices for bottling, corking and labeling, as well as burnt sugar.

MORSE FORMS \$25,000,000 OCEAN STEAMSHIP CONCERN

New York, Nov. 19.—The United States Transport Company, Inc., a \$25,000,000 steamship concern, has been organized by Charles W. Morse, owner of several Hudson River steamers. The company already owns seven ocean-going cargo carriers of the oil-burning type and is operating in the Mediterranean and French Northern Atlantic trade.
Mr. Morse and his associates closed a contract with the United States Steamship Company whereby the new concern is to purchase all the ships built, those in course of construction and all of those to be built at the yards of the company in Virginia and Connecticut for a period of years. With construction continuing at the present rate the new transport company will have approximately 250,000 tons of shipping within twelve months.
The terminals in this country will be New York and Baltimore, with occasional sailings from Philadelphia.

RURAL MAIL CARRIERS POSTPONE THEIR STRIKE

Charlottetown, P. E. I., Nov. 19.—Post Office Inspector McLean was notified yesterday by Austin McInnis of Richmond, P. E. I., secretary of the rural mail carriers' union, that the threatened strike through the maritime provinces has been postponed to December 22, as the acting premier of Canada has wired the union that their grievances will be given careful and sympathetic consideration.

FIRST LYNX IN YEARS.

Tupper Lake, N. Y., Nov. 19.—The first lynx to be shot in the Adirondacks in years fell before the gun of J. C. Edgar of Killbuck. Edgar was hunting in the region between Crystal and Half Moon lakes when he came upon the animal.
The lynx sprang, but Edgar let go with both barrels of his shotgun bringing the animal down, although his shells contained only fine bird shot.
The lynx measured four feet and two inches long and weighed forty pounds.
The Japanese say "east-north" instead of our "northeast," and "west-south" instead of "southwest."

Clogs New Fad For English Children

London, Nov. 19.—The clatter of the clogs is now a familiar sound in the Garden City, Hampstead. The wearers of the wooden shoes are the children of the well-to-do families of this select literary circle. If the rule does not prove the exception, the new fashion in footwear will soon spread to the more aristocratic circles of the West End.
Tina and Tina again has been proved that what the garden suburbs do today in the way of physical adornment Mayfair and the rest of London will do tomorrow. The one-time popular bonnet and drawing room sandal fashion and the more recent bobbed-hair craze both had their origin in Golden's Green and Hampstead, and it is common knowledge that the pioneer of the bare-head cult in England resided in the same supersanitary and enlightened neighborhood.

G. W. V. A. Branch at Hampton Organized

A branch of the Great War Veterans' Association has been organized in Hampton with Rev. C. Gordon Lawrence as president and Gifford Flewelling as secretary-treasurer. There are about seventy-five returned men in Hampton and vicinity and of that number a large percentage have joined the association. They have secured rooms over the bank, and are holding a regular meeting in the near future to raise funds for the association.

New Tracks Will Cross Niagara

C. P. R. Has Already Surveyed Route—High Prices For Right of Way

Niagara Falls, Ont., Nov. 19.—The C. P. R. Company has surveyed a line from the north of Welland City, touching the border about one and a half miles above Black Creek, where an international bridge will be built crossing the river to Buffalo. Many properties between the five and Sodom Road have been bought and others have had options taken on them. It is said that huge sums have been paid over for the farms. It is even said that prices, when announced, will prove to be record ones. Many other farms outside this limit have been inspected and large sums offered. It is said that buyers have been after the properties from Pennsylvania, Buffalo, London, Hamilton, Welland and Port Colborne. It is said that the bridge will be built to take electric cars and vehicular traffic. According to the estimates, the bridge will be the last word in engineering, and will have a tremendous effect on Wolloughby, and will most likely start a boom. So far everything has been done with the minimum of noise.

WORKING MEN TAKE FULL ADVANTAGE OAK HALL'S OFFER

The working men of St. John have certainly shown their appreciation of an opportunity to save money on their winter wearing apparel, by taking full advantage of the many real bargains offered by Oak Hall this week. Oak Hall have spent much time and thought in accumulating large quantities of hosiery, shirts, sweaters, overalls, gloves, mitts, hats, and other necessities of winter wearing apparel at rock bottom prices and this week are giving the working men an opportunity to beat out the H. C. L. by putting all these lines on sale at prices which are so low that a man can save many dollars on the purchase of his winter outfit. This sale continues all week, ending Saturday night, but the foresighted man will purchase before the end of the week, while he is certain of procuring just what he wants.

LABOR PARTY PLANNING TO RAISE \$5,000,000 FUND

New York, Nov. 19.—Plans by which the American Labor party hopes to raise a \$5,000,000 fund, \$1,000,000 of which is to be obtained in New York, are disclosed by Ernest Bohm, secretary of the New York organization and of the Central Federated Union.
The money will be devoted to "propaganda" work for the new political body, it is said, and the same methods will be employed to raise it that are being used to collect funds for the steel strikers.
"We expect the same co-operation financially for the National Labor party that we are getting for the steel strikers," said Mr. Bohm today. "There is the same feeling in the minds of the American Labor party that there is for the steel strike, and I believe that we shall have the same success in obtaining a \$5,000,000 fund for the party's propaganda that we are having in raising the proposed \$10,000,000 fund for the steel strikers."
He and the other leaders of the National Labor political movement have not the slightest doubt that the labor organizations which have donated so liberally up to the present for the steel fund strike will make the same donation to the fund for the party.

Finding Fragments of Armada Ships

Slavaging Operations Near Tobermory are Yielding Results

Tobermory, Scotland, Nov. 19.—Salvage operations on the galleon De Florencia, the treasure ship of Spain's "Invincible Armada," sunk off Tobermory 330 years ago, are beginning to yield results. These operations were begun in 1903. Recently several breech-blocks of cannon, bits of the ship's hull and other relics have rewarded the treasure hunters' efforts.
The De Florencia was sunk by one of the MacLeans of Morven, who fired her powder magazine. If her main stores are retrieved from the sea, the ship should yield a rich haul, according to contemporary chroniclers, the ship's stronghold was full of gold, silver plate and jewels, including a crown intended for the coronation of the Spanish nominee to the throne of England. By a covenant made shortly after the wreck this crown, if recovered, goes to the King of England, but the rest of the treasure to the Duke of Argyll.
The explosion which sank the De Florencia scattered the vessel and her contents over a wide area of sea bed, and that fact has so far baffled those who have tried throughout the centuries to locate the wreckage and treasure.
Inveraray Castle houses a beautifully ornamented bronze ordinance, which was one of the galleon's fifty-two guns. From time to time blunderbusses, swords, scabbards, doubloons and pieces of plate have been brought up.
The bits of oak found, believed to be bits of the ship's hull, are overlaid with a crust of compressed shells as difficult as concrete to penetrate, and some time may elapse before it is possible to reach the more important part of the sunken cargo.

EARLY PLAY BRINGS \$2,800.

New York, Nov. 19.—George Washington's copy of a comedy called "The Contract," his autograph on the title page, brought \$2,800 at a sale of the library of the late Samuel P. Avery in the Anderson Galleries. H. Popper was the buyer.
The play was written by Royal Tyler of Vermont, and it is said to have been the first written by a native American and performed by a regular company in this country. Goldsmith's "History of the Earth, the Animated Nature," second edition, in eight volumes, bearing also Washington's autograph and bookplate, went to George D. Smith for \$1,200.

EYE STRAIN.

This is usually due to a defective formation of the eye ball, and not to a diseased condition.
While glasses do not cure this defect, they correct it by restoring normal vision without strain.
Eyestrain causes loss of nerve energy and physical disability. If bodily comfort is desired, together with ease in reading glasses to correct this defect should be procured. If you are suffering from eye strain let us examine your eyes and fit you with the right kind of glasses.

Mr. Married Man---Do This

Write out instructions for your wife to follow with reference to earning an income for the support of herself and your children after your death.

After you have found out how "easy" it is to write out these instructions, figure out how "easy" it is going to be for your widow to carry them out.

The task we think will convince you that you must maintain as much life assurance as you can possibly afford in order that your family shall not be dependent upon the charity of others, if you should die.

Women's Apparel

To be Discussed by The Manufacturers

What are the underlying causes for the high prices of women's apparel? This will form one of the chief topics of discussion at the convention of the dress manufacturers of the United States who will assemble in Atlantic City on Dec. 2, and participating in the first convention that the women's garment manufacturers have ever held.
The introduction of uniform costs in the dress manufacturing trade and the standardizing of production methods will represent the basis of a talk to the delegates by Colonel Sanford E. Thompson of Boston, an authority on these subjects.
Matters pertaining to the checking of credits—and in this connection the dress manufacturers who will attend the convention extend credits of more than \$100,000,000 a year to the retail trade of the country, will be discussed by J. Harry Tregoe, secretary of the National Association of Credit Men.
Other speakers include June Rand of Los Angeles, president of the Sassy Jane Manufacturing Company, one of the few women manufacturers of dresses in the United States, and Dr. E. Ewing Pratt, former chief of the United States bureau of foreign and domestic commerce, who will tell of the enormous opportunities open to the manufacturers of women's wearing apparel in the United States to sell their products in foreign countries.
David N. Mossesohn, executive director of the organization, will preside at the convention.
