THE BEST QUALITY AT A REASONABLE PRICE

The Points in a Watch

There are two important things about a man's watch—appearance and mechanical construction.

Appearance is a matter of taste. Buy the design that appeals to you most.

Construction is a matter of much technical detail. It is something you should talk over with an expert.

Hamilton, Howard, Waltham and DeWitt are the line watches. Each is made in different grades. There is one grade of one of these watches that is the best watch for you.

We will be glad to give you the technical information and help that will enable you to make the right choice. We have special watches priced from \$17 to \$125, each price representing the utmost in watch value.

Among the Soldiers' Families. A soldier at the front received a letter from the Salvation Army to say that his wife was getting along nicely after a severe illness in which she had been found alone in the house.
