TIME FOR GENERAL LOOK AT THE MATTER OF SAFETY OF BUILDINGS

Some Suggestions Airing From The Grand Union Fatality

The sad tragedy in connection with the fire in the Grand Union Hotel has caused a great deal of discussion about town concerning the safety appliances and conditions in all hotels, boarding houses, school houses, factories and other places where the danger from fire might be great. There have been many suggestions concerning this question, and a good deal has been done in the last few years to improve the conditions; but it is said to be an open question whether enough has been done.

It has been suggested that the building inspector be required to give this matter constant attention. It is even said that the fire escapes on some of the school buildings are more ornamental than useful. A prominent citizen said this morning that there could be no better time than the present to look into this whole question, and not to overlook in the investigation those wooden tenements which are overcrowded, and some of which are mere firetraps. While the strong jury which Corner Roberts has empaneled for the Grand Union inquiry will necessarily concern themselves with the case in hand, it is suggested that they may have some general observations to make. In this connection it would be interesting to learn what are the net results of a very careful investigation made by the late Chief Kerr and others appointed for the purpose some years ago. Their report and recommendations are still available.

WILL PAY DOCTOR'S BILL OF \$635 FOR OPERATION AND CARE OF CLARENCE RICHESON

Boston, Feb. 26.—Dr. Howard Lothrop will be paid in full for his services in operating upon and attending to Clarence V. Richeson, while the latter was in the Charles street jail on a charge of slaying Avis Linnell.

Richeson wounded himself while in jail, and the wound required a delicate operation, which was performed by Dr. Lothrop, who had been summoned by Sheriff Seavey. Subsequently Doctor Lothrop put in a bill for \$635 including \$500 for the operation and the balance for services in treating the prisoner afterward. A question arose about the liability of the city for the bill.

Dr. Lothrop, through his counsel, John I. Hall, sued the estate of Sheriff Seavey as well as the city of Boston, Judge Hall of the Superior Court, who heard the case reserved his decision.

It was learned that the parties had effected a settlement under which the estate of the late Sheriff Seavey will pay \$300 and the city of Boston the balance of \$335, so the judge will render no decision and the litigation is ended.
