BIGGEST WOMAN IN WORLD DEAD

Justine Masson of Montreal Weighed 780—Lost Mind and Broke Down Walls in Anger

(Montreal Herald). The biggest woman in the world died today in Montreal. She weighed 780 pounds. Her name was Justine-Masson, and a few years ago she was a familiar figure about the streets of the city. Her mind became affected, however, and she was taken in charge by the Assistance Publique.

During her stay in that institution, her exploits became famous. She was so big and so strong that in her fits of insanity she used to break down the walls of the rooms in which she was enclosed, and it was finally found necessary to build a special house for her outside the main building.

Many incidents are told of her life before entering the asylum. On one occasion she caused a sensation at Bonaventure station by insisting on getting into a victoria to be driven to her home. She got in, but she was so large that a special coffin had to be built for her. Then no undertaker could be found who would undertake to bury her, so the body had to be removed in an express wagon.

the carriage had not proceeded very far before it broke down. She then, it is said, took a street car, but could not get through the door, and had to stand on the back platform, blocking the passage so that no one else could get in.

On another occasion, she was arrested, and an attempt made to take her to the police station. Four policemen from nearby beats were unable to handle her, so the reserves were called out, and it took eight policemen to effect the arrest.

Here are my hat rules: Don't wear a black hat unless you are lucky enough to possess youth, red or blonde hair and an exquisite complexion. Don't wear a hat because the saleswoman said it was becoming. Use your own judgment. It is you that will have to wear the hat.

Don't buy a hat merely because it is expensive. Because a hat costs fifty dollars does not mean it will become your own. Always, before buying, examine your hat in the light of day. Colors seen by candle light do not look the same by day. Never, never forget this. Don't buy a hat when you are in a hurry.

Several electric massage machines were included, one with an applicator of intense rapidity for the chest and shoulders, another of lesser degree for the arms and one of extreme softness for the neck.

On the last powder or facial cream may be placed so as to rub a glow into the cheeks in such a way that the sharpest eye cannot tell it from the natural color that nature gives to those who take the air.

A gold plated comb, the teeth of which are hollow and through which a spray is forced from a tiny bulb, is another part of the equipment. There is a bell-like electric machine for face bleaching, several varieties of shampoo bands, nail polishers, nail emulsions, a jeweled set of cuticle scissors and knives, expensive marcel irons, an array of imported silken hair nets, and aseptic sterilizing cabinets in which much of the assortment is placed.

Little Beauty Chats

By BLANCHE BEACON

The Beauty and Her Hat

THE next time you go about hunting take a full stock of good judgment with you, as to choose an unbecoming hat is the beauty sin.

Have an open mind toward all hats. Mind! Do not start down town with your mind fully made up that a certain kind of a hat is not becoming and a certain other style of hat is, because it is quite likely you are mistaken in both cases. Really, one can tell very little as to the becomingness of certain shapes until they are tried on.

Think of hats and nothing else as you ride or drive or walk to your hat shop, as in this way you will be in the proper frame of mind when the "trying-on" process begins. Forget about your engagements and your worries, as hat buying is a momentous affair and demands your every thought. You may, perhaps, silently question the truth of my statement that hat choosing is "a momentous affair" but give this matter a little more thought and I think you will be of my mind.

One can be made or unmade—as to appearance—by the style of hat one effects. No matter how pretty a woman may be, if she has the poor judgment, when buying a hat, to select a shape or a tint that is not becoming, she can rest assured that whenever she wears that hat people will look at her pityingly and with an "I wonder why" expression in their eyes.

Don't wear a hat unless you are lucky enough to possess youth, red or blonde hair and an exquisite complexion. Don't wear a hat because the saleswoman said it was becoming. Use your own judgment. It is you that will have to wear the hat.

Don't buy a hat merely because it is expensive. Because a hat costs fifty dollars does not mean it will become your own. Always, before buying, examine your hat in the light of day. Colors seen by candle light do not look the same by day. Never, never forget this. Don't buy a hat when you are in a hurry.

CONSTIPATION Can Be Cured.

You cannot expect to be well if you allow your bowels to become clogged. What is necessary is to have a free motion of them every day, and to keep them in this condition all the time if you wish to be strong and healthy. If you don't keep them open the system will become clogged up with poisonous matter and produce constipation, headache, dizziness, bad blood, etc.

Keep the bowels in good condition by using Burdock Blood Bitters; the remedy that has built up an unrivalled reputation during the past thirty-six years, as a cure for all troubles arising from a constipated condition of the bowels.

Mrs. Thomas Calder, East Lower Fort Garry, writes: "I am writing you to let you know what Burdock Blood Bitters has done for me. I suffered very much from constipation and none of the medicines I took agreed with me. Now I am glad to say that there is nothing like B.B.B. Since taking it I have not been troubled."

Burdock Blood Bitters is manufactured by The T. Milburn Co., Limited, Toronto, Ont.
