BASEBALL

City League

The game which the Rocklands won on Carleton last evening by the score 8 to 2 was not decided until the final inning of play. The work of both teams was good; the pitchers put up a good and of ball and received excellent sport. The batter was Doney and arley for the winners; Seely and tee for the losers.

The standing of the league is:

Won.	Lost.	P.C.	
Peters	5	1	.830
M. A.	4	3	.569
Islands	2	5	.286
Carlton	2	6	.250

The Greeks Could Tell
Boston Globe.—The Bangor baseball team had won three games and lost at it counts. How it happened to win three games is unexplained.

Sunday Baseball
Girard, Kans., June 27.—Girard has had a happy solution of the problem Sunday baseball by setting apart one day in the middle of the week when anybody suspends business operations and goes to the ball game. The arrangement came through the suggestion of the Rev. M. L. Morrison, pastor of the Presbyterian church, after considerable wrangling early in the summer between people who wanted ball games on Sunday, and those who did not. Under the new arrangement tried on Thursday all merchants closed their stores during the game.

A Pitcher's Day
Wednesday was a very busy day with the batters in both leagues, and in the games played by the majors no fewer than 34 pitchers had a chance to work. This was an average of almost one to each game.

In the National League five games were played, 21 pitchers working, and here being 97 hits made for 58 runs. This was an average of nearly ten runs per game, and the average of each team was approximately ten hits in each game played.

In the American League there were only four games played, 24 runs being made in these and 71 hits being made against 18 pitchers. The shifting in the American League boxes was not as frequent as in the National League, but it was enough to cause the experts who figure that this indeed is a hard year for pitchers are pretty nearly right.

Diamond Sparkles
Out in Detroit the fans all are wondering just what is the matter with the "Hugger Jennings" Tigers. Until last Sunday in the last seven games they had been champions of a few seasons ago but dropped eleven of them by the small margin of one run.

On July 4 and the next day, Saturday, Brooklyn plays against the Giants, and it would not be surprising should the weather not upset hopes, if a new record for attendance at ball games is made. Brooklyn is baseball mad, and "Ebbets" Superbas hold a lot of fire to batter over the Giants in the games of the series played to date.

Bangor Wants Changes
President Utterback of the Bangor team in an interview said that the Bangor club intend to try to have the schedule of games so changed that more games would take place in Bangor and also that the present excessive expenses caused by the teams traveling so much might be cut down. Under the present arrangement he said, Bangor did not have enough home games to pay the club expenses. Of course any change in the schedule would have to meet with the approval of the other clubs.

Out for 115 in the first innings, while the Australians were only 103. In the second and final innings the Philadelphians were all out for fifty-seven runs. The match will be concluded today, when the Australians will take their second innings. It was decided last night to begin another match between the same players immediately after the conclusion of their present match.

TAKE A DOSE OF NATURE'S MEDICINE

Throw away your half filled bottle of drugs and poisons, your patent nostrums and doctors' concoctions. You know they haven't any good effect, and that your stomach is all upset as the result of filling it with these poisons. You know they have weakened your nerves and taken the life out of your blood.

Get back to Nature. Consider The nerves are delicate and give her assistance. Nature will cure you if she has the power. This power is electricity. That's because electricity builds up—supplies nourishment, strength to the body. Drugs destroy, tear down, because they contain poison. Instead of nourishment, they contain poison. Why? Because it paralyzes the nerves.

AQUATIC SPORTS ELSEWHERE; HOW ABOUT LILY LAKE?

Other cities of the Dominion hold regattas every year at which boat and canoe races and swimming contests are run off. The Rideau Club of Ottawa have held such an event for many seasons last year Fredericton put on a very successful regatta in connection with its Old Home Week. Now St. John's, Newfoundland, is preparing for an extensive meet.

An enthusiastic committee have interviewed prominent men of the city and have secured handsome cups and medals as prizes for the events. The crew of H. M. S. Sirious, which will be in harbor at the time, will enter the races and should offer keen competition to the local men. A very successful meet is expected.

In view of the action of these other cities it might be pertinent to suggest that St. John hold an aquatic meet this summer on Lily Lake. An energetic committee might be appointed to provide a programme of events. Men of public spirit, could be counted on and once an affair had been set on foot there would be a host of young men who are employing themselves these summer evenings on the river willing to enter and help provide an afternoon of good sport.
