Nervous Prostration For Three Years

"Dr. Miles' Restorative Nervine cured me of a period of nervous prostration of over three years duration, and the Anti-Pain Pills are as necessary to us as the roof of our house. They have been household remedies with us for many years."

Much distress is due to nervous troubles. Headache, dizziness, epistaxis and insanity are nervous troubles. Then there is a large class of disorders which arise from a weakness of the nerves of an organ or part, as weak lungs, heart, stomach, kidney, bladder, eyes, etc. Dyspepsia and indigestion are usually the result of nervous disorders.

FOR FREER TRADE WITH WEST INDIES

Movement on Foot to Unify Islands in Commercial Life and Have Line to Canada

(Montreal Star.)
A movement is on foot among a number of Canadian merchants and business men of the West Indies, to develop more trade relations between the dominion and Jamaica. This movement has found an appreciable impetus from an exhibit of goods from Jamaica at the Toronto Exhibition, and Stanley de Lissac, of Kingston, Jamaica, who was in charge of the exhibit, is in Montreal at the present time, working in the interests of the present trade movement.

"Jamaica," he said, today, in the course of an interview with a representative of the Star, "has not begun until now to realize the advantages that she may receive by direct interchange of trade with Canada. At the present time there is but little steamship communication between Canada and Jamaica, but there should be sufficient trade for a regular service of steamships coming to Montreal. Canada, I know, can supply us with everything that we need, and I believe that we can supply you with much that you now receive through the United States, such as bananas, sugar, tobacco, and cigars. We ourselves get much Canadian produce through the same channel, and it is only recently that we have got to know that it was Canadian produce that we were receiving. It has been usual to say that the goods came 'from America,' which was accepted as meaning the United States, and Canada has in this way been able to receive the credit which the excellence of the materials, notably four-corn."

"We have to go on our part to unify the West Indian Islands a little more for trade purposes, and then we shall be what I may term a little more 'worth while.' There is a good prospect that this union may be brought about. Several influential business men are working hard towards this end, and the government of Jamaica is actively appreciative of the importance of the enterprise."

J. P. Murray, who represents the Canadian Manufacturers on the Toronto Exhibition committee, was with Mr. de Lissac at the time of the interview, and said that it seemed obvious to him that there was real scope for developing a profitable direct trade with Jamaica.

MOVING PICTURES WHICH DO NEWSPAPERMEN INJUSTICE

(New York Times.)
Now and then a bit of misinformation about newspaper work is put forward which is thoroughly disgusting to active newspaper workers. The latest attempt to capitalize the glamour with which the popular imagination has surrounded the profession of a newspaper reporter, and the city editor calls a reporter. The reporter has dined and wine and but unwisely, and is immediately discharged. The next day he overhauls two men talking about the financial condition of a bank. One drops a paper and the reporter picks it up. He trails the men to Wall street.

A succeeding scene shows the directors of the institution in consultation. The reporter gains admission by returning the paper, and by a trick on the telephone hears the bank examiner declare that the bank must close its doors. The reporter notifies the newspaper office and the press are stopped until he appears and dictates his story to a typist.

Not one essential incident here related would be likely to happen in newspaper life in a hundred years. Reporters never butt in about conversation between strangers. He goes out on a definite assignment as a rule, and doesn't look around for news like a man seeking something lost, not so much as knowing what it is he seeks. Again, if a reporter picked up a paper he had seen fall he would, as would any one else, promptly return it to the man who dropped it. It is never necessary for a reporter connected with a decent newspaper to resort to a trick to see the officers of a bank or other institution on a matter of business. And no reputable or typical newspaper would be likely to publish a story affecting the standing of a bank without first giving the president or other representative officer of the institution an opportunity for a statement. Certainly none would publish such a story on a statement supposed to have been made by a bank examiner and overheard on a telephone by a reporter discharged for drunkenness.

THE CORONATION STONE.

(Exchange.)
The most ancient castle in Scotland, Dunstaffnage, near Oban, is a pile of queer masonry, the walls being chiefly unheaven stones cemented by a strong mortar, and rising from an isolated flat-topped rock of "pudding stone."

Of old the stone of destiny, the coronation stone of the ancient Irish kings, and then of the Scottish monarchy, was kept in this castle, and thence it was taken to the Palace of Science, From Scott it was stolen by Edward L. "Hammer of the Seas," as he called himself, and ever since it has been placed in the coronation chair, fulfilling the curious prophecy that wherever it may be there a king of Scotland shall reign.

AMUSEMENTS FOR OURSELVES AND OTHERS

THE UNIQUE.
A pretty story of rose petals and their influence upon a girl's life is to be featured at the "Unique Theatre" today and tomorrow. It is entitled "Rose Leaves," a simple domestic picture representing the triumph of virtue in a difficult situation. Acted with the ability of the Vitaphone players this will be found better than the average. A tender love comedy of Halcyon time will be seen in the "Lovers' Well," introducing beautiful scenery. Two others, "All's Fair in Love" and "The Three Kisses," with the singing of Mr. Sherman, will make up an enticing bill of fare. For Thursday, Friday and Saturday a patriotic song with elaborate and original stage setting and electrical effects is being prepared.

LYRIC.
The closing performance of the Landow clever sketch artists and singers, will take place in the Lyric Theatre this evening, to be followed by what is announced one of the best musical acts seen in the provinces in a long time, viz. The European Musical Duo, who will present a offering which is said to be a pleasing departure from the usual line of musical acts seen on the vaudeville stage. They are also claimed to be comedians of merit. Pictures for today are: "The Golden Lily," "Railway Scenes," "The Converted Deacon," and "Columbian's Dream."

THE GEM.
That "Gem" which respects, is an old proverb the truth of which is readily recognized. But there are times when this is not so. This will be seen by all who attend the new show at the Gem Theatre today and tomorrow, in the big Vitaphone production, "The Three Cherry Pits," one of the most strikingly original stories of intense interest, which has been portrayed on canvas for some time. It deals with the honor of a veteran soldier, and tells a fascinating tale with many touching incidents. The life of the play is always been a favorite vehicle of romance, drama, and in the picture "The Roman Wife," another splendid story of this sort has been added to the collection. The third film is a Kalem Indian drama, "An Indian's Gratitude," still another of the famous Kalem Indian series, for the production of which the Gem has won much praise.

On Monday next, Donald McGregor, director of Scotland will begin an engagement at this house in a stirring Scottish ballad.
