THE FIREBRANDS

The result in yesterday's federal by-election projects a dangerous element into Canadian politics. It is means that the Bourassa-Monk propaganda against Canada partaking in the defence of the empire is popular throughout Quebec province, so much the worse for Mr. Borden, unless he promptly and emphatically repudiates Mr. Monk and all his works. The most incendiary appeals were made in this typically French-Canadian constituency, and Sir Wilfrid Laurier was pictured as a monster who sought to betray the people of his race to the sword of England's enemies. These were the appeals that won the victory. It is not one to be regarded with pride, but with profound regret. Mr. Monk and those Conservatives like Mr. Foster and Mr. Rogers, who urged that Quebec by men who talk about shooting bullets through the British flag, and he loses a by-election is the result a victory for Mr. Borden.

Mr. Allison loses a very able man in Prof. Andrews, who goes to the presidency of Saskatchewan College. Prof. Andrews has been much more than a college professor during his stay in Sackville.

The Victoria Colonist says:—"Every now and then some paper will talk about the union of the Maritime Provinces. The people who seem to take the least interest in the notion are those who live in those provinces."

The Standard says the result of the by-election in Drummond-Arthursville is the beginning of the end for Laurier. If so it is also the beginning of racial strife that every good citizen should deplore, for the real issue raised by Monk and Bourassa is loyalty to the empire.

The Toronto Telegram (Conservative) says this of Hon. W. S. Fielding:—"Canadian are united in sympathy for Hon. W. S. Fielding in his illness and in the hope that a speedy recovery may restore him to all the friendly associations of his admirable private life and to the great work of his useful public life."

The Times comments to leading citizens of St. John the example of Sir Wilfrid Laurier in Ottawa. The Journal, a Conservative paper, says:—"The ordering by Sir Wilfrid Laurier of the removal of the old public works yard at the foot of Parliament Hill cliff is one of those steps towards a better and cleaner Ottawa, for which Sir Wilfrid has ever been willing to direct his influence. Ottawa, as a municipality, has few better citizens than Sir Wilfrid Laurier, in spite of the manifold claims that other spheres of usefulness have upon his time and attention."

AN IMPORTANT MATTER

It may be hoped that the visit of Mr. Henry Vivian, M. P., to St. John, and his message concerning slums and the housing problem will not have been in vain. What is the city council doing, or any of its officials, in the matter of plans for the enlargement of the city that must take place? St. John is certain to grow. The old city is a city without walls, and almost without back yards, and almost wholly without trees. We are now trying at no small expense to improve the conditions. But what about the new St. John, whether it be in Stanley ward or across Courtenay Bay? The time for planning is now, before the houses are built. Other cities are waking up. Ottawa talks of garden suburbs. Of conditions in the outskirts of that city the Free Press says:—"Getting away from the imaginative or sentimental aspect of this home building one sees narrow streets, houses built right into the sidewalk and few, if any, distinctive styles of architecture. Streets are crooked too. A gutter or a gully seemed a good excuse for the deflection of these streets. There are lots of places where the streets are not 60 feet in width. There are places where the houses are not two feet apart. There are tenements too—tenement pure and simple—long rows of houses with nothing but a board partition on the "verandah" to separate them. It is deplorable that all this should be around Ottawa where there's lots of land. Hasn't somebody been greedy? Hasn't somebody been trying to squeeze in a little land for lots that should have been left for streets of suitable width and running in straight lines. Hasn't somebody blundered? This district isn't part of the city. True, but now the imagination may be

used again, and it's not hard to picture the time when it will be."

The Montreal Witness adds these pertinent remarks on the same subject:—"We have lately had our attention drawn to the slums, which are woefully extending in area and in degradation in Montreal. By our indifference to this growing evil, by our greed and selfishness, by our toleration of drink and other vices, by our neglect of the ancient juvenile criminal, we are daily increasing this class who 'never had a chance,' and are sowing seeds from which we shall some day reap a terrible harvest."

The citizens of St. John should plan for the future, as well as endeavor to rectify some of the mistakes of the past.

THE NEWEST DOMINIONS

The first parliament of the Dominion of South Africa opens today at Cape Town. The opening ceremony will be performed by the Duke of Connaught, whose departure from England took place on the 14th anniversary of the declaration of war between Great Britain and the South African republics. Of the remarkable change that has taken place in eleven years the Montreal Herald says:—"Eleven years ago, on the 11th of October the British agent was instructed to ask for his passport, and the same afternoon the Orange Free State burghers seized a train at the border belonging to the Natal Government Railways. On the following day, at Kranspan, the first shot in the three years' war was fired. Wonderful surely must be the transformation that renders a confederated South Africa, including the two Boer states, possible in so short a time. Such an achievement could not have been carried through without the sincere and whole-hearted co-operation of men who were fighting each other to the death. It is to the credit of the British and Boer races that this has been rendered possible. In saying this credit may also be given to political traditions founded upon long experience of British statesmanship."

If Sir Wilfrid Laurier is denounced in Quebec by men who talk about shooting bullets through the British flag, and he loses a by-election is the result a victory for Mr. Borden.

Mr. Allison loses a very able man in Prof. Andrews, who goes to the presidency of Saskatchewan College. Prof. Andrews has been much more than a college professor during his stay in Sackville.

BY AND BY

Wherever heavy hearts are beating,
Come the gentle whispered greetings,
Hoped-for news, or glad repeating,
By and by! by and by!

Chase the tear-drop, chuck the sigh,
Joy is coming by and by.

Rosy childhood's pulse is bounding,
To dust mags whisper sounding,
Telling of the joys abounding,
By and by! by and by!

And to manhood, tired and weary,
Through the work hours long and dreary,
Steals an echo, soft, yet cheery,
By and by! by and by!

Funch not, pause not, gaudion high
Shall render by and by!

—Peter Prince, in Leslie's Weekly.

IN LIGHTER VEIN

NOT LIKE MARRIED PEOPLE.

"You'd never guess they were man and wife."

"Why not?"

"She never contradicts any statement that he makes."

A GOOD MEMORY.

"Has she a good memory?"

"Splendid. She never has to ask what's trump in a card game."

WHERE IS HE?

What has become of the old-fashioned gentleman who wore a rubber collar and washed it himself?

FOXY SCHEME.

"I think my wife purposely picked a quarrel with me yesterday."

"What for?"

"A pony coat."

WHAT MAY HAPPEN.

When women get the ballot if a handsome man runs against a pretty girl what will be the result? All the women will vote for the handsome man, and all the men will vote for the pretty girl. Husband and wife will quarrel over the affair, and the divorce courts will be enuff to get a jolt of a wife like mine. P. S.—Mandy has just stepped out. You blame fule you, Stay Single!

TIME FOR CHANGE.

George Washington Pinmore, thinking of matrimony and trembling on the edge wrote to his married brother Rufus, for advice. "Dear Jawie," wrote Rufus in reply, "every man should marry. A wife is a man's greatest gift. She soothes his troubles, dabbles his joys and helps him every which way. The married life is the only life when you are fortunate enuff to get a jolt of a wife like mine. P. S.—Mandy has just stepped out. You blame fule you, Stay Single!"

Checks for unusually small amounts have been delivered to citizens of Manchester. William B. Orrill received a check drawn on a Boston bank, and the face value of this check was one cent. The other little check was received by Michael Hendy. It was worth five cents and was in payment of a dividend.

MORE DEADLY THAN THE PLAGUE

The Common Cold is held Responsible
For a Multitude of Human Ills.

Colds kill more people than plagues. When not avoided they can often be hurried from the system by keeping the filtering and excretory organs active.

Many write us that nothing helps them to so quickly get rid of a cold as Dr. Chase's Kidney and Liver Pills. This is because these pills act directly on the liver, kidneys and bowels, and promptly arouse their activity.

The poisonous matter which collects with every cold is quickly removed from the system before it has time to cause trouble or give rise to other derangements. If misfortune in the form of a cold should overtake you do not give it a chance to attack the kidneys or to settle on the kidneys. Get rid of it quickly by using Dr. Chase's Kidney and Liver Pills. Mr. J. H. Gibbard, of New City, B. C., writes:—"We have used Dr. Chase's Kidney and Liver Pills for the last year, and think they are the best thing as a family medicine. My wife has been sick for nearly two years with rapid liver and kidney complaint. Sometimes she was so bad she could not get up or move for two or three weeks at a time, and she suffered dreadfully."

Reading of Dr. Chase's Kidney and Liver Pills, she decided to use them, and has been improving ever since. She is never sick a day now. I have been greatly benefited myself by this treatment for kidney trouble."

Dr. A. W. Chase's Kidney and Liver Pills, one pill a dose, 25 cents a box, at all dealers, or Edmanston, Bates & Co., Toronto. To protect you against imitations the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author, are on every box.

HAIR ORNAMENTS

Some of the large shell hair pins used
to a great extent in holding together the
braids or roll can be made particularly at-
tractive by an inlay or overlay of gold or
silver. One pretty pair has a seaweed de-
sign worked over the shell, and they are
connected by a very slender silver chain
that has a small moonstone set in the mid-
dle. This gives a distinctly oriental effect
to the coiffure.

For the girl who has a fancy for such
work a few lessons in the management of
metal would make it possible to acquire
facility for producing charming ornaments
for herself and gifts for her friends.
