Maunsell addressed the corps and stated that while it was likely the last inspection he would make, he complimented Col. McLean on the fact that, while not reflecting on the efficiency of the corps in former years, he considered this the best inspection they had ever passed. The men were steady and knew their work. He concluded by saying good-bye to the officers, noncommissioned officers and men.

Major Edwards, the adjutant, who has not yet quite recovered from his recent accident, was on parade, but was not requested to drill with the corps. The battalion is up to full strength. Dear Sir—It is with sincere regret that the officers of the 62nd St. John Fusiliers learn that you are soon to retire from the staff of the militia of Canada, and that the inspection of our corps just completed may be one of the last duties allotted to you.

A third of a century has passed since you were appointed, by the government of this province, adjutant general, to organize and command the active militia of New Brunswick, and as evidence of your care of the force, under provincial and dominion militia laws, it is only necessary to note the efficient condition of the different corps at the present time. You have had much to contend with, and many arduous duties to perform, in all of which we recall your tact and judgment, but whether you have been engaged in such active duty as the Fenian raid or the more peaceful work of organizing and commanding camps, or performing the duties of your positions as district officer commanding and inspector of infantry, we realize that your one object has been to make the militia of this province the first in Canada, justly earning for yourself the title of the father of the New Brunswick militia. While devoting your energies to the efficiency of the force of this province in general, you have not missed an opportunity to forward the interest of each individual corps, and have made personal friends of all ranks.

For your kindness to the 62nd during your term of office we heartily thank you, while
