

Dr. Williams' Pink Pills

CURE RHEUMATISM AND SCIATICA.

A VICTIM OF RHEUMATISM.

A Young Farmer Tells of the Agony He Endured for Weeks - Her Limb Became So Numb That a Red Hot Iron Could be Placed Upon it Without Her Knowledge.

Mr. Samuel Francis, a young farmer living on the farm of his brother, near Northbrook, in Renfrew county, says:—"About three years ago the cows got into a grain field at night, and I was called up to put them out. In doing so I got thoroughly wet, and when I awoke the next morning my limbs were so stiff that I could scarcely move them. I was thoroughly rub-

bed with liniment, but without any effect. Mustard plasters were then tried with equally poor results. By this time I was suffering great pain, and a doctor was called in. He said the trouble was rheumatism, and off and on for nearly two years he doctor-ed me with no marked improvement. Then I decided to discontinue the doctor and give Dr. Williams' Pink Pills a fair trial. These I took, two after each meal, for nearly six months, at the expiration of which time every symptom of the trouble had left me. It is now nearly two years since I was cured, and I have in that interval done farm work in all kinds of weather, without feeling a twinge of the trouble, so that there can be no doubt the cure is permanent. Anyone who is suffering from this complaint will save money and hours of suffering by at once beginning the use of Dr. Williams' Pink Pills.

HAD TO USE CRUTCHES.

Mr. E. J. Dall, Hecla, Man., writes:—"I take pleasure in making known the good results that have followed the use of Dr. Williams' Pink Pills in my case. Three years ago while working in the bush I was severely attacked with rheumatism that I was hardly able to reach my home. I suffered terribly, and for three months was unable to walk about without crutches. I consulted several doctors, used an electric belt, and tried a number of remedies, but found no benefit. I was advised to try Dr. Williams' Pink Pills, and had not used them long before I was fully convinced they were the remedy I needed. My health steadily improved, and my recovery is complete. I have no hesitation in recommending Dr. Williams' Pink Pills to all who suffer from rheumatism, and would urge that such sufferers should not waste time with other remedies, when they have a sure cure in Dr. Williams' Pink Pills.

Rheumatism.

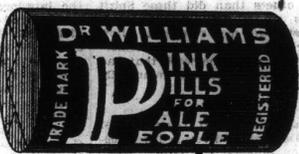

There is a popular idea that Rheumatism is caused by exposure to cold and dampness and that some localities are more infested with it than others. Such conditions frequently promote the development of the disease, but from the fact that this ailment runs in certain families, it is shown to be hereditary, and consequently a disease of the blood.

External applications may afford temporary relief, but to cure the disease it is necessary to treat it through the blood.

Dr. Williams' Pink Pills

go direct to the seat of the disorder, purifying and enriching the blood by eliminating poisonous elements and renewing health-giving forces, thus curing every type of rheumatism.

Do not accept anything that does not have that name printed on it in red ink, in this shape.

Take care that there shall be no missing words.

Dr. Williams' Pink Pills are sold by all dealers in medicine or sent post paid 50 cents a box, or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Company, Brockville, Ontario.

Send us your address on a post card and we will mail you a pamphlet "The Way to be Well."

THE PANGS OF SCIATICA

Mrs. Palmer, of Fenlon Falls, Confined to Her Bed for Weeks - Her Limb Became So Numb That a Red Hot Iron Could be Placed Upon it Without Her Knowledge.

Only those who have felt the agonizing pangs of sciatica can form any conception of the torture which the victim undergoes. The case of Mrs. Job Palmer, of Fenlon Falls, was one of unusual obstinacy and severity, and she makes the following affidavit in reference to her cure for the good of humanity. "I am 29 years of age, and I had always enjoyed the best of health until November, 1887, when I

took a stinging pain in my right hip which seemed to be in my very marrow, as it affected every muscle and joint.

I kept up for several weeks, although suffering the most intense pain, freely using liniments and many other internal and external preparations that sympathizing friends would suggest. I was then compelled to stay in bed, as I got so weak and run down that I could sit up no longer. I received several courses of medical treatment, such as electric batteries, poulticing, etc., but got no ease from the excruciating pain which would shoot down through my leg into my very heel, where it caused a burning feeling. The limb at last became so numb that a hot iron could be placed upon it without my having any knowledge of it. The closing or opening of a door or anyone entering or moving about in my room, seemed to increase the pain. For weeks I could not move any part of my body and had to lie in one position all the time. My brother was cured of rheumatism after other remedies had failed by taking Dr. Williams' Pink Pills, so I thought as a last resort I would try them. As I had not heard of any other cases, three pills could be safely taken a day for about a week, when I began to get the relief I had prayed for. Then I kept on taking the pills two at a dose. In another week I was able to get out of bed and dress myself and in a few weeks I was able to stand on my feet. I was able to do all my household duties, and I have ever since enjoyed the best of health. Friends and neighbors who were conversant with my case can also tell you of my terrible suffering and the remarkable cure effected by Dr. Williams' Pink Pills.

MRS. SUSAN PALMER.

Taken and declared before me, at Fenlon Falls, in the County of Victoria, this 11th day of May, A. D. 1890. JAMES DICKSON, J. P.

MARRIED AT ANDOVER.

An Andover letter of Jan. 18th to the Bangor News says: "A very happy event was the marriage of Arthur Robert McKenzie, eldest son of James McKenzie, to Miss Inez Helena Tibbitts, daughter of Sheriff and Mrs. Tibbitts of Andover, Victoria county. The ceremony was performed at the residence of the bride's parents at high noon (Wednesday) in the presence of a few friends and the relative of both families. Rev. Mr. Hillocks, assisted by Rev. Mr. Hopkins, was the officiating clergyman, the full Episcopal service being used. The bride looked very fair and sweet, in a lovely gown of rich white silk, and orange blossoms. She carried a beautiful bouquet of white carnations and was attended by her sister, Miss Edith Tibbitts, who was attired in a pretty dress of pale pink silk and carried a bouquet of pink carnations. The groom looking radiantly happy, was supported by his friend, Howard Murdoch of St. Stephen. After the ceremony and congratulations, refreshments were served. The bride then changed her bridal costume for a stylish travelling dress of purple broad cloth, trimmed with braid, and hat to match. The happy young couple left for a wedding journey to Boston. On their return a reception is to be given in their honor by Sheriff and Mrs. Tibbitts and Mr. and Mrs. McKenzie will reside in Andover during the winter, where they will be at home to their friends after the 23rd of this month. The wedding gifts were very numerous and elegant. The gift of the groom was a handsome trochee set with pearls."

FENIAN RAID MEDALS.

Major John H. Parks, who is forwarding to Ottawa a list of officers and members of the Old Engineer Co. who are entitled to medals for services at the time of the Fenian raid of 1866, believes that there are some more members who would make application for medals if their attention was drawn to the matter. On looking over the roll of the Engineer Co., Major Parks found that the company increased its strength at that time to 65 members, and he would be pleased to hear from any of them who have not yet sent in their names. The list Mr. Parks has so far compiled is as follows:

- Lieut. J. H. Parks, St. John, N. B.
- Serjt. Joseph Barton, Moncton, N. B.
- John McE. Morrison, St. John, N. B.
- Serjt. Geo. T. Whittecock, St. John, N. B.
- Serjt. Wm. Starkey, Moncton, N. B.
- Serjt. James Hunter, St. John, N. B.
- Serjt. James W. Banks, St. John, N. B.
- Serjt. Geo. Keithley, St. John, N. B.
- Robert J. Malaise, St. John, N. B.
- Serjt. Thomas Finlay, St. John, N. B.
- Serjt. James Myles, St. John, N. B.

HORSE AND SLEIGH MISSING.

A man representing himself as Dr. Appleton of Fredericton, wearing a light overcoat and light soft hat, and registered at the Queen Hotel, this city, applied on Thursday to Harry Short, the well known livery stable keeper, Princess street, for a fine, stylish horse, and Mr. Short showed him a light sorrel mare with white face to a black sleigh, with red plush lining, and the man was going for a short drive. The last seen of the turnout he was driving down Montgomery road at 2 p. m. yesterday. Another man, not seen had returned up to this afternoon. The mare is valued at \$125. Globe.

Mr. Short received a letter Friday night from the alleged doctor. It was postmarked Westfield, but dated Fredericton. The writer said he had been suddenly called to Fredericton and Mr. Short would find the horse at Westfield. It is stated that there is no Dr. Appleton in Fredericton, and that this man had no money when in Fredericton, and it is feared that he realized on the horse at Westfield and is now over the border.

THE I. C. R. AND BALDWIN LOCOMOTIVES.

Another big locomotive from the Baldwin works arrived for the I. C. R. on Friday, and in company with three others already here was sent forward to Moncton last night. There are still more yet to come. Two of the Baldwins are now on their trial trips. One is running regularly between Moncton and Springhill and doing great work. With 30 loaded cars it runs with the lever in the first notch and walks up Dorchester grade with graceful ease.

The employment of these giant locomotives will necessitate the laying of much heavier rails than those now in use. It is proposed to at once substitute rails weighing 90 pounds to the yard for the present 57 pound rails, on all curves and bridges, using the lighter rail on straight runs, until such time as a full supply of the 90 pound rail can be procured. The new rails will, it is said, be obtained in Great Britain.

SMUGGLING INTO AROOSTOOK.

(Bangor Commercial.) A most important seizure was made on Saturday by George A. Fair deputy collector of Limestone, who has been for a few days in Houlton, and day inspector, Benjamin Freedy, of Houlton, at Limestone, about six miles from Houlton. They took Fred Little, Thomas Little and Joseph Ross of Limestone, with their teams. The same day Inspector Ingersoll and Deputy Collector Jenks seized Herbert Martin of Hodgdon, and Harry Marshall of Richmond, N. B. The officers by these seizures secured seven horses and 70 barrels of potatoes. There has been a suspicion for some time that potatoes and cats have been coming over from the Queen's domain via the underground railway, so called, and for some days past the officers had been on the alert. The seizure is the most important case made in Aroostook for a long time.

A petition was presented on Saturday in the probate court by C. F. Kinnear for passing the accounts in the estate of Mary Crane. A citation was granted, returnable May 6. G. G. Ruel, proctor.

SURPRISE.

BRITISH LUMBER MARKET.

Parworth & Jardine's annual lumber circular, dated Jan. 18, gives the following figures for the week ending Jan. 18, 1890, compared with the corresponding week of the previous year, as follows: 1889, 656,352 tons; 1890, 700,342 tons; 1888, 725,636 tons. The firm remarks that lumber stocks at the end of the year were slightly reduced, and still large enough to call for moderation in the coming season. Stocks at Liverpool on Dec. 31st of '89, and N. S. spruce and pine were 1,100,000 cubic feet, compared with 1,178,000 one year before, 1,012,000 two years before, 647,000 three years before, and 1,015,000 four years before.

New Brunswick, Nova Scotia, etc., timber-st. John pine has almost ceased to be imported; the stock is nominal. Over pine-pine-the arrivals have been on a small scale, but sufficient for the demand, and the stock is ample. The market is quiet, chiefly from St. John, N. B., shows a considerable falling off from last year, viz., 275,000 feet against 300,000 feet last year. The arrivals have been fairly satisfactory, and although prices opened low, considerable improvement has resulted at the end of the season; stocks are not excessive. Spruce planks have again been imported too freely, and are now in excess of the market. Stocks are too heavy. More care should be taken in shipping this article in good condition and specifications to suit our markets.

Spruce and Pine Deals-N. B. and N. S. Spruce Deals-Of spruce deals, the import, although considerably short of the record import of last season, has again been large, viz., 24,000 standards against 124,600 standards in 1887, and 50,011 standards in 1888. The season has been a fair one, and a fairly active demand; values ruled low, and with the exception of a slight decline, owing to heavy arrivals of spruce deals, the season continued fairly steady throughout, but for recent arrivals an advance has been established. Deals have been imported, but the stock of 14,955 standards against 20,063 standards, is quite adequate, and does not include any quantity stored on the Manchester Island. Imports continue by the winter line steamers from St. John, N. B., and Halifax, but though on a large scale, these goods are, each season to a larger extent, being carried by steamers, and only a small quantity of spruce deals dock accommodation, the business is difficult and expensive; consequently, more cargoes are being sent by the Manchester Canal and neighboring ports. Pine Deals-Miramichi, Balthazur, etc., have been steadily imported, and are selling at low prices; the stock is ample.

Birch-St. John: 15 to 18 1/2 inches average, at from 15 1/2 to 16 1/2 per cubic foot. 14 1/2 inches average, at from 15 to 16 per cubic foot. 14 inches average, at from 14 1/2 to 15 per cubic foot. 13 1/2 inches average, at from 14 to 15 per cubic foot. 13 inches average, at from 13 1/2 to 14 per cubic foot. 12 1/2 inches average, at from 13 to 14 per cubic foot. 12 inches average, at from 12 1/2 to 13 per cubic foot. 11 1/2 inches average, at from 12 to 13 per cubic foot. 11 inches average, at from 11 1/2 to 12 per cubic foot. 10 1/2 inches average, at from 11 to 12 per cubic foot. 10 inches average, at from 10 1/2 to 11 per cubic foot. 9 1/2 inches average, at from 10 to 11 per cubic foot. 9 inches average, at from 9 1/2 to 10 per cubic foot. 8 1/2 inches average, at from 9 to 10 per cubic foot. 8 inches average, at from 8 1/2 to 9 per cubic foot. 7 1/2 inches average, at from 8 to 9 per cubic foot. 7 inches average, at from 7 1/2 to 8 per cubic foot. 6 1/2 inches average, at from 7 to 8 per cubic foot. 6 inches average, at from 6 1/2 to 7 per cubic foot. 5 1/2 inches average, at from 6 to 7 per cubic foot. 5 inches average, at from 5 1/2 to 6 per cubic foot. 4 1/2 inches average, at from 5 to 6 per cubic foot. 4 inches average, at from 4 1/2 to 5 per cubic foot. 3 1/2 inches average, at from 4 to 5 per cubic foot. 3 inches average, at from 3 1/2 to 4 per cubic foot. 2 1/2 inches average, at from 3 to 4 per cubic foot. 2 inches average, at from 2 1/2 to 3 per cubic foot. 1 1/2 inches average, at from 2 to 3 per cubic foot. 1 inch average, at from 1 1/2 to 2 per cubic foot. 3/4 inch average, at from 1 to 1 1/2 per cubic foot. 1/2 inch average, at from 1/2 to 1 per cubic foot. 1/4 inch average, at from 1/4 to 1/2 per cubic foot.

THEIR GOLDEN WEDDING.

(From Thursday's Daily Sun.) J. A. Fowler and Mrs. Fowler of Goodrich street, Miramichi, celebrated their golden wedding yesterday. Mr. Fowler and Mrs. Caroline Dixon, daughter of Joseph Dixon, were married by Canon Walker, father of Dr. Thomas Walker of this city, fifty years ago yesterday. The marriage took place at the home of the bride's father, Dickson's foot, in the parish of Hampton then, but now in the parish of Robbinston. For the last twenty years Mr. Fowler has resided in this city. The seven children born to Mr. and Mrs. Fowler are still living. Two sons, J. Dixon and Charles, are in the city. The other three daughters are Mrs. (Rev. Lebaron W. Fowler of the Episcopal church of Exeter, Me., Ansonia, Me., and the wife of the late Captain Charles Weldon Upham of this city; and the third, Miss Jessie Fowler, lives with her parents. The bride and groom of fifty years ago were handsomely received by their children, and have received handsome presents in gold. There was a special gathering to celebrate the golden wedding, but Mr. and Mrs. Fowler received very warm congratulations from many friends in this city and elsewhere. Both are in the enjoyment of excellent health.

LETTERS FROM THE PEOPLE.

To the Editor of the Sun: Sir:-In the Sun's report of the last meeting of the county council, it is reported that Edwin Lewis' bill for taking a prisoner to jail, was brought out by the finance committee, because they considered it too frivolous a matter.

I am voicing the respectable part of this community when I enquire through your columns if it is a frivolous matter to have our public streets rendered impassable for ladies and children by a disturbance, and the air rendered hideous by the screams and profanity of one who has been allowed to go unpunished for many previous exhibitions of the same nature.

In justice to the constable (who only made the arrest after being repeatedly requested by a number of people to do so) he should be paid for his services. If his charges were in excess that could be adjusted, but to throw the whole matter out and say it was too frivolous, certainly is putting a premium on crime.

The election of councillors is close at hand, and no doubt this matter will receive the publicity it should.

(Sgd.) RESIDENT.

ALBERT CO.

Thursday Morning and Evening Session of County Council.

At Thursday's session the finance committee recommended that constables making out their bills be presented to the council be careful in estimating and following the code of fees laid down.

Joseph H. Dickson, clerk of the peace, one of the special committee to look over accounts and bills of the Scott Act inspector, read the following report: Your committee, to whom was submitted the report of Scott Act inspector for 1889, and the bills of John Garland, beg leave to report as follows: We have examined the bills very carefully and the inspector in relation thereto, and also how before us in addition to the report an itemized account of all services and also all the witnesses of the count. The report is very full, and with the itemized account furnishes a detail of the work of the inspector during the year, put in the most simple and complete manner. The justices, witnesses and constables fees are charged according to the legal scale of fees. The personal expenses and other charges of the inspector appear very reasonable for the large amount of work done. The request of the inspector to be allowed fifteen dollars for attending three cases on three different days before Squire Coppitt, seems reasonable. The clerk of the peace advises this honorable body that the court is not liable to justices, constables or witnesses for their costs, charges or expenses incurred in Scott Act cases, and that bills for such charges are not properly before this council except coming through the Scott Act inspector.

The Scott Act stands in no different position, so far as the county is concerned, from any other summary conviction. The costs are taxable against the defendant, payable to the prosecutor, and by the prosecutor payable to the persons entitled to them. If these costs are not recovered the prosecutor is liable for them. The council in reference to the expenses of Scott Act enforcement has only to do with the Scott Act inspector. But it is the duty of that officer, where disputes arise as to claims against him, to submit them to this board and be guided by it in the matter. We have carefully gone over the bills presented by Constable Garland in connection with Scott Act services. We think that Mr. Garland is entitled to receive from the inspector the following items, which seem to have been overlooked: Re the cases of Anne

WOOD, SPRAGUE WILSON AND DUTCHER, M. E.

We recommend that the council direct the inspector to allow Garland that amount in addition to the sum of \$38.76 already allowed, and that the amount be voted the inspector to enable him to do so.

Respectfully submitted, JOS. H. DICKSON, A. W. LEBEMAN, Committee.

The motion that the report be adopted was spoken to by the inspector, clerk of the peace, W. B. Jonah and Constable Millidge Molins. MR. MIDGE MOLINS, constable, said that he was not responsible for the escape of one Wm. Dutcher, and should not be charged with the fine and costs, as the inspector had done in his account, before the board, as the warrant of commitment in that case was handed to him by Inspector Steadman personally and had no justice's signature to it.

W. B. Jonah, on behalf of Constable Molins, explained to the board that Dutcher's escape was most fortunate for this municipality, as his arrest was illegal, and the county would have been put to great costs.

Moved by Coun. Goggin, seconded by J. C. Prescott, that Constable Molins be not charged with the amount of the fine charged against him re Dutcher's prosecution, and that the cost be charged back to the inspector. Carried.

ASPIRING OBSERVERS.

Utilising a cathedral spire for the purpose of a meteorological observatory is a new idea, but this is what the city councilors of Tim have resolved to do with the spire of their magnificent cathedral. Next to the Eiffel Tower in Paris, the cathedral spire of Tim will be the highest point of meteorological observation in the world ever by human hands.-British Architect.

Who men are less charitable to their own faults than the faults of others.

MOUNT ALLISON.

The University Presented With a Handsome Album-Sir John Bournout to Lecture.

SACKVILLE, Jan. 15.-The university was recently presented with a handsome album by Charles D. Stewart of Stewart & Co., Sackville, and son of Dr. Stewart, the dean of theology. The book was made to order and is a beautiful and substantial volume, 12 by 14 inches in size, bound in dark morocco leather. On the outside in large gilt letters is "University Album," the title page has the words "Mt. Allison University, Xmas, 1889," and in the centre of the university seal. It is a collection of collection of university pictures, the different presidents, past and present, professors, buildings, and as far as can be obtained, pictures of the graduates. When complete, it will be not only a fine ornament of the university parlor, but a most lasting and valuable historic record.

On Friday, Jan. 27, Sir John G. Bournout of Ottawa is to lecture before the Bursar's Society in their hall in the Residence. His subject is Our System of Government, its Merits and its Defects. The Bursar's Society will invite guests for the occasion. The students are anxiously anticipating the treatment of so important a question by such an authority. It is expected that other lectures will follow at intervals during the winter.

Arthur Palmer, the son of the late C. A. Palmer, Q. C., will return to his work at the Academy. It is not yet known whether J. Curry of Avondale, N. S., whose father was killed so "tragically" near Windsor, will resume his studies.

The usual agent to get students to sell books on commission during the summer holidays has been in town for a few days. It is reported that he has attracted a considerable number with hopes of speedy riches.

Dr. Stewart has recovered from an attack of la grippe during the holidays.

Prof. Hunton's baby was baptized in the church on Sunday by Dr. Brecken. It is called Thomas Frederick.

AT THE DRINKING-FOUNTAIN.

He stands beside the crowded curb and lifts The obnoxious cup to his lips. And now he Buts The water thinly walking through the rear Of wheels and trade. Back, back his memory drifts. To his tired eyes the pasture spring appears. And the dear fields that he shall see no more. Charles G. D. Roberts in "Familiar Ditties."

THE GOOD TEMPLARS.

New Lodges Organized and Dormant Ones Re-organized.

Templar writes to the Sun as follows: During the Christmas vacation the Grand Lodge, I. O. G. T., of New Brunswick, has been doing some good work. Brothers W. R. Robinson, W. M. Burns and A. C. M. Lawson have been lecturing on temperance and opening new lodges and re-organizing dormant ones. Several lodges have been brought back into existence by means of these resolute brothers, and we are pleased to be able to say that our noble order is at present in a flourishing condition. And yet there is room for much more to be done. The want of funds is a great drawback to the good work that might be done in saving the fallen and training the young men and boys of our land in temperance principles. If the money that is spent in some of our towns on "prize fighting," where men are allowed to beat each other until the police have to interfere, and where men lose their lives by a blow on the chin, breaks the neck and such like, all in the name of the many, all this money could be sent to our grand treasury, W. M. Burns, Hillsboro, A. C., he could put it to a much better use. Try it boys, yes, and men who have perhaps boys going fast on the downward road to ruin. We write you to turn right about face and give us your help and sympathy. Our cause is a noble one, well worthy of your support. Fathers and mothers, I appeal to you to help us save your boys and girls from sin. Come, join our lodges and let your influence be shown on the side of right.

On Wednesday evening, Jan. 18th, the members of Nauwigewauk Lodge, I. O. G. T., entertained the sisters and brothers of Gordon lodge, "Smithtown," at a fraternal visit. After the initiatory ceremony and order of business were gone through, a lengthy and interesting programme (in which members of both lodges took part) was ably carried out. At the close the visiting members, as well as members of Nauwigewauk lodge, were treated to hot coffee, beans, cake and other eatables. It is safe to say that all enjoyed themselves very much. Any one thinking the cause of temperance on the decline would do well to visit either of the above lodges and get their eyes opened and their mouths filled.

Children Cry for CASTORIA.

Children Cry for CASTORIA.

It is the best medicine for children. It is safe to say that all enjoyed themselves very much. Any one thinking the cause of temperance on the decline would do well to visit either of the above lodges and get their eyes opened and their mouths filled.
