

ISLAND HORSES WON THE HONORS

Over Four Thousand People Witness Devilish Dorothy and Keltie Win at Charlotte-town Yesterday.

Special to The Standard. Charlotte-town, P. E. I., Sept. 26.—Eight thousand people attended the exhibition today, and 4,500 saw the races, island horses carrying off the honors in each of the two events, the free for all being won by Brenton H., and the 2.27 trot by Keltie. The winning of the second heat in the free for all by the fifteen year old mare, Devilish Dorothy, owned by the nonagenarian sportsman, Dr. J. P. Jenkins of Charlotte-town was a feature of the race, both horse and owner receiving an ovation. After the first heat of the 2.27 trot the judges replaced Carvell's Jennie Penn, driven by Hooper, on the ground that the mare was improperly driven in the first heat.

Summary as follows: Free for All. Brenton H. H. Hooper, Charlotte-town, 2 2 1 1 1. Devilish Dorothy, Dr. J. P. Jenkins, Charlotte-town, 4 1 2 2 2. Colorado L. Han Kelly, Charlotte-town, 1 4 6 4 3. WILL CHANGE MISSIONARY PLANS. London, Ont., Sept. 26.—The executive board for the Dominion Methodist Women's Missionary Association, this morning passed a strong program for missionary activity for submission to the general conference. It is proposed that in the foreign field a certain number of cities be occupied by the missionaries for the first five years, and that still another group be occupied for the next five years, this moving staff to consist of 43 members. For this work a budget of \$100,000 is recommended. For the work in China 30 missionaries are asked for with a \$100,000 fund.

MORE THAN 100 DROWNED IN EASTERN CANADA THIS YEAR

Thirty-Five New Brunswickers Lost Their Lives in the Water—Total of Twenty-Nine Drowned in This Province, Nearly All in Summer Season Recently Ended—Thirty Drowned in Nova Scotia and Forty in Quebec Province.

Drowning accidents in eastern Canada have been unusually numerous during the present year, particularly during the summer season, which has just drawn to a close. Thirty-five New Brunswickers have lost their lives in the water, all but five perishing in this province. More than 100 were drowned in eastern Canada. Shipwrecks do not figure in the long New Brunswick list, although four fishermen were lost by the swamping of their boat off Carquet in June. Nearly all those who were drowned were either boating or bathing and with the exception of a few accidents in the spring, those drowned lost their lives during the summer months. In Nova Scotia about thirty persons were drowned during the past season, in Quebec about forty and in Prince Edward Island one.

New Brunswick List. The New Brunswickers who lost their lives in the water were: April 8—Two year old son of Walter Gambin, Three Brooks, Victoria County. CAPTAIN WILLIAM KIDD WAS HANGED MAY 23, 1704

Notorious Pirate Was Tried At Old Bailey, London—Thursday Last Was Anniversary of the Event.

Captain William Kidd was born probably at Greenock, Scotland. In 1695, he was arrested and imprisoned at Boston, Mass., on the recommendation of Robert Livingston, a colonist, Richard Coote, Earl of Bellmont, Governor of Massachusetts Bay, placed Kidd in command of a privateer with a special commission to suppress piracy. Bellmont, Orford, Somers, Romney and Shrewsbury were to pay the greater part of the cost. His ship, The Adventure, sailed from Plymouth for New York, May, 1698, and from New York to Madagascar, a favorite resort for pirates at that time. It was soon reported, however, that Kidd had become a pirate himself, and when he returned to Boston, July, 1699, he was arrested. He pretended that he was a privateer with a special commission to suppress piracy. Bellmont, Orford, Somers, Romney and Shrewsbury were to pay the greater part of the cost. His ship, The Adventure, sailed from Plymouth for New York, May, 1698, and from New York to Madagascar, a favorite resort for pirates at that time.

RATS AND MICE MUST BE KEPT FROM GRAIN. Farmers Advised To Use Steel or Concrete For Granaries To Stop Waste Due To Activities of Rodents. No part of this year's grain crop can be permitted to go to waste through the activities of rats and mice, which in past seasons were accountable for a loss that has been always too kindly accepted by farmers who store their product in their own granaries or corn cribs. In the building of storehouses special precaution should be taken to prevent the ingress of these marauders and when old buildings must be used, they should be repaired and made rat and mouse-proof by use of material that will not lend itself to destruction by the teeth of the rodents. Steel wire and concrete, if the latter is obtainable, are the materials most to be depended on for the protection of granaries from the gnawing pest, and common sense will provide direction for the use of these materials to advantage in the construction of bins or cribs. A farmstead as a whole cannot be rid of the pest of rats and mice so long as they have access to any food supplies on the premises, so it is as important to provide protection in the house, cellar and pantry as in the granary or bins at the barn. Sometimes all that is necessary to overcome the trouble, as it exists in the farm-house, is the stopping of holes in the foundation with a strong mixture of concrete, though the pest cannot be satisfactorily mitigated so long as material for sustenance is handled within the building with any degree of laxity. Once the household and barn stores of food have been provided with adequate protection, the rats or mice frequenting the place can be disposed of by the introduction of a few good cats or dogs, but it must be remembered that the efforts of these useful animals have to be backed by a severe course of starvation for the enemy. It is almost impossible to prevent the entry of a certain number of rats and mice to the barn with the sheaves of grain or corn from the fields, but their passage beyond the confines of the mow can be prevented if care is taken at threshing time and in husking. It is at those times that a dog can show good reason for his being kept on a farm, even if it is not noticed that he accounts also for quite a number of mice in the fields throughout the year. How to Rid the Skin of Objectionable Hairs. (Aids to Beauty). A simplified method is here given for the quick removal of hairy or fuzzy growths and rarely is more than one treatment required. Mix a stiff paste with some powdered delatone and water, apply to hairy surface and after 2 or 3 minutes rub off, wash the skin and every hair has vanished. This simple treatment cannot cause injury, but care should be exercised to get real delatone.

Catarrhal Deafness and Head Noises

Tells safe and simple way to treat and relieve at home. If you have catarrh, catarrhal deafness or head noises caused by catarrh or if phlegm drops in your throat and has caused catarrh of the stomach or bowels you will be glad to know that these distressing symptoms may be entirely overcome in many instances by the following treatment which you can easily prepare in your own home at little cost. Secure from your druggist one ounce of Parmit (Double Strength). Take this home and add to it 1/4 pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day. An improvement is sometimes noted on the first day's treatment. Breathing should become easy, while the distressing head noises, headaches, dullness, cloudy thinking, etc., should gradually disappear under the tonic action of the treatment. Loss of smell, taste, defective hearing and mucus dripping in the back of the throat are other symptoms which suggest the presence of catarrh and which may often be overcome by this efficacious treatment. It is said that nearly ninety per cent. of ear troubles are caused by catarrh and there must, therefore, be many people whose hearing may be restored by this simple, harmless, home treatment.
