The Daily Tribune.

J. L. STEWART,..... EDITOR.

FRIDAY EVENING, APRIL 2.

Preparing for Plundering.

It seems that the present Government of Canada investigates fraudulent practices for the purpose of acquiring the art of stealing to the best advantage, instead of for the purpose of closing the door to their repetition. The Fraser-Reynolds investigation revealed the fact that the firm that supplied the Nova Scotia section of the Intercolonial charged enormous prices. This was known before the investigation began, and the Government was thoroughly disappointed in its hope—which was the main object of the inquiry—of connecting any member of the late Government with the extortionate hardware dealers. The Government partisans refused to have the accounts of Black Bros & Co. of Halifax, and I. & F. Burpee & Co. of St. John, compared with those of Fraser, Reynolds & Co., which is good evidence of their being extortionate also. But the inquiry revealed one fact, namely, that goods furnished without competition are charged at a very high figure. Did this economical Government hasten to close this door to fraud? Did the pure patriots who vote as the Premier dictates insist that there should be no more stealing on the hardware plan of charging one hundred per cent profit? Not at all. The Premier, as is shown by the following letter, which was in the evidence given before the Committee, has friends to serve in Halifax:

OTTAWA, Dec. 2nd, 1874.

SIR: I am directed by the Honorable the Minister of Public Works to instruct you to purchase such of the railway supplies required in Halifax, N. S., as are not procured by public competition, from the firm of Black Bros. & Co., of Halifax, N. S. [Signed] F. BRAUN,
Secretary.

These friends would be disappointed by a regulation for procuring railway supplies by public competition, and the Premier decides that they shall have an opportunity for gorging themselves to a greater degree than their predecessors. No supplies are procured by competition, and this firm has a clear monopoly of the business, furnishing goods at its own prices.

And yet, in the light of the developments of the Fraser-Reynolds inquiry, and with the perfect knowledge that two hardware firms—one in Halifax and the other in St. John—are plundering the public just as Fraser, Reynolds & Co. did, the Government refuses, and their followers in Parliament shamelessly sanction the refusal, to order that the supplies shall be procured by public competition! This is, without exception, the most infamy-deserving vote ever cast in any legislative assembly, and should be condemned by the people in some expressive manner. Every member who voted to continue, in the interest of favored hardware dealers who are permitted a monopoly of public plunder on the Intercolonial, a system whose fraudulent character has just been so thoroughly exposed, deserves to be received on a rail by his constituents. No honest Government could refuse to assent to a resolution in favor of procuring supplies by competition, and no honest member with a spark of independence could support such a refusal. "We intend to keep up the practice of allowing firms in which Cabinet Ministers or Government supporters are interested to gorge themselves at the public cost by furnishing supplies at their own prices," says the Premier, and his supporters in the House of Commons answer, "All right."

So the plundering will go on just the same, and to a much greater extent. The infamous vote that sanctioned the system of pilfering will sanction the application of the same system to the Pacific Railway, where this method of enriching political supporters on public plunder will be fully developed. Verily, this Government of ours is a paragon of economy and honesty—after the Tweed model.

The prospects of the Philadelphia Centennial Exhibition, which were very dark for a long time after its conception, have been growing bright during the past few months. New York, Boston, Chicago, and other rival cities, have suppressed their jealousy and joined heartily in the scheme, and most of the European nations have made arrangements to be represented. The Canadian Government has determined to waste several thousand dollars in aid of this celebration of the centennial of the independence of the States, and the next financial exhibit submitted to Parliament will show the spending of twice as much as has been voted. Some of the friends of the Government will profit, whether the country is benefited or not.

Has the little man got weary of his regal playthings, and does he want to go back to his mamma? Recent Spanish telegrams assert that such is the case. Perhaps Don Carlos will be chosen next by the Madrid king-makers. He ought to stipulate first for a retiring allowance before accepting.

The Legislative excursion to Woodstock, yesterday, was a pleasant affair, and must have given the legislators a favorable idea of narrow gauge railways. There is nothing like a trip over this road for dispelling prejudices against the narrow gauge.

A correspondent of the *Courier* gives the editor a conundrum by enquiring "whether it is proper to say twins, a pair of twins, or two children born at the same birth?" The editor takes time to consider.

Spino-Meningetis is reported at Shediac.

The *Gazette* contains the re-appointment of the Sheriffs of the various counties.

The *Borderer* is publishing the Connaughton vs. O'Leary trial as a serial, the first instalment being given this week.

Temperance sermons are now preached in Moncton on Sundays, and it is reported a deep interest is manifested in the subject.

Another fortune, and this time it is in Newcastle where Mathew Russel has fallen heir to $50,000, by the death of an uncle in England.

Two deaths from small-pox have occurred on the Intercolonial near Metapedia. The Quebec Government is accused of apathy in the matter.

Two Midgic girls heated a stick of hardwood, and wrapping it in flannel, put it in bed to keep their feet warm. When the girls woke at four the next morning the fire had burned part of the bed clothes and the foot of the bedstead. Their feet were warm enough by that time.

The Moncton *Times* notices the death of C. W. Cole, Esq., Barrister, of Hopewell Cape, A. C., which occurred on Saturday last. The deceased held the office of Judge of Probates since it was vacated by Mr. Palmer in 1872. He has not enjoyed good health for many years and his death was not unexpected. Mr. Cole practised in St. John a few years ago.

Forgeries appear to be in order everywhere. The *Borderer* cheerfully trots out the last one, in which, as in the St. John affair, a woman was the chief actor. Her name was Robinson and she presented an order purporting to be signed by John E. Estabrooks of Beech Hill and drawn on an Upper Sackville merchant. The merchant's clerk paid the order thinking it was genuine. The woman then decamped to the States with the funds, which, however, were only eleven dollars.

The Fraser-Reynolds Accounts.

From the Montreal Gazette.

The conversation which took place in the House of Commons on Tuesday evening affords a good illustration of the manner in which public opinion is manufactured in this country by skilful manipulators. These accounts, which formed one of a series of charges in Mr. Brydges' report, were, early in the session, submitted to a sub-committee of Public Accounts, and several witnesses have been examined. Last week Mr. Dymond, who is a member of the committee, prepared a draft report, stating a number of facts proved in evidence, and omitting a number of others, and this draft, during the illness of Mr. Domville, a member of the Committee, and before any final adoption of it by the Committee, but after it was signed by the Ministerial members, was sent for publication to the Ministerial press, not as the draft report to be submitted, but as the final finding of the Committee. Mr. Domville very properly drew the attention of the House to this most irregular proceeding, and the Speaker was only prevented from giving a ruling upon it by the First Minister insisting upon going on with the orders of the day. In the meantime the readers of the journals which have printed this so called report will go on with the impression that they have had the finding of the Committee as a whole, after the report had been subject to the scrutiny of all the members, instead of a partial and partizan report, prepared not for the purpose of stating facts, but for the purpose of making political capital.

What Talmage Thinks of it.

Talmage says of the reports of the Beecher trial: "For the stockholders of newspapers which build themselves up on such hell broth I prophesy eventual bankruptcy or domestic ruin, or discomfiture in the world to come, or all three God will be even with you in some way. Money that you get by making society worse you cannot keep. God will get it away from you if He has to chase you into hell for it! Can you imagine the hurricane of divine indignation that must whelm forever those who, for the sake of money-making, have poisoned the mind, diseased bodies, and damned the immortal souls of the metropolis?" Yet Mr Talmage has attended the trial oftener than any other clergyman except Mr. Beecher.

Lubec, Maine, has only had one death since last November.

A gentleman in Europe writes: "I see in the American papers notices of bank bills altered from one denomination to another. This is impossible in this part of the world, through the very simple device of having bills of different values made of different sizes."

"When I was travelling in Massachusetts, some twenty years ago," said a traveller, "I had a seat with the driver, who, on stopping at the post office, saluted an ill-looking fellow on the step with, 'Good morning, Judge Sanders; I hope you're well, sir?' After leaving the office I asked the driver if the man he spoke to was really a judge. 'Certainly, sir,' he replied. 'We had a cock fight last week, and he was made a judge on that occasion.'"

About three months ago William H. Neeves, then a clerk for Higgians, Eagan & Co., in Cannon street, London, embezzled £800 from his employers. He took a steamer for the West Indies, and there to New York. Detective Spittle of London traced him to the West Indies, travelled about there for him, and then followed him to New York, arriving there three weeks ago. He traced the young man to the house of one of his friends, and was about to arrest him, but delayed a while, and Neeves visited Brooklyn. There he was arrested by a Brooklyn detective and handed over to Spittle. Neeves is a clerk, 24 years old, and unmarried. He said that he was willing to go back to England, as he had spent all his money. He sailed at noon with the detective, who had chased him 4,000 miles.

ENORMOUS.—No medicine that has ever been introduced into these Provinces enjoys the enormous sale that Reder's German Snuff does. The reason is obvious, because of the grand fact notorious throughout the United States and the Dominion of Canada that it cures that fatal disease catarrh, when all other remedies fail.

WANTED.—A FURNISHED HOUSE (or apartments with board.) Possession required about the end of April. Apply at this office. 2w eod

Brevities.

April is both mild and nasty, so far.

Malcolm Hunter was appointed in policeman O'Donnell's place yesterday afternoon.

Portland abounds in petty thieves. Yesterday they stole an ale pump off the sidewalk in front of J. & J. Ward's shop.

Dominick McHugh, one of the gang employed at the Australia, was injured by being accidentally struck by a deal while at work last night.

It is reported that John Boyd, Esq., will be appointed Chairman of the School Board, and Reuben Lunt, Esq., will accept the vacant place in the Board.

The *Gazette* contains a memorandum of the Association of a number of our citizens in a company styled the Maritime Sewing Machine Co. The capital is $100,000 and the office will be in St. John.

Robert Luling who succeeded in getting away with the $6,000 from the Bank of Halifax does not appear to be in St. John. Detective Hutt was here looking for him, but finding no clue returned home this morning.

The Coroner's jury in the case of Mr. Thomas Miller found that he came to his death from natural causes. He had shown no signs of sickness previous to his death, and had eaten his dinner in apparent good health.

Syrup Lacto Phosphate of Lime.

An excellent remedy in recovery from fevers and other inflammatory diseases, acting as a tonic on the system and helping to support the waste of phosphate of lime. It is a pharmaceutical preparation, destined at no remote day to take a high rank amongst the new remedies of our national pharmacopia. Sold by J. Chaloner, Corner King and Germain streets. 1 w

The Labor Question.

As the Rebels from the Australia were on their way home after quitting work last evening, accompanied by the police, some stones were fired at them out of the large crowd by which they were followed No one was hurt, and the members of the Association deny that the attack was made by any of their number.

The supply of men ready to work in the Rebel cause far exceeds the present demand, as large numbers having heard that men were wanted have come from other places to get employment.

THE DAILY TRIBUNE and all the most popular Canadian, English and American newspapers and magazines can always be obtained at the bookstore of Mr. W. K. Crawford, King street. a1g 8

Stand from Under.

The blasting operations now being carried on in King street East, between Wentworth and Pitt, bid fair to do some damage unless more care is used. One or two old planks are now used to cover the blast, and as these afford very little protection heavy fragments of rock are hurled in every direction. One gentleman had a very narrow escape a few mornings since, and but for his quickness of sight and agility in dodging would have been struck, and probably seriously injured.

A few drops of Dr. FORSTER'S IMPROVED ENAMELLINE upon a wet tooth brush forms a rich, creamy foam in the mouth, imparting a delightful fragrance to the breath, and thoroughly cleansing the teeth from all impurities. Call at the Drug Stores and get a sample bottle free.

The Wanderer's Return.

There is a prospect that the confiding men who went bail for Carvell and Cox will be able to secure at least one of the runaway pair, as the Halifax *Recorder* states that the George Carvell who has been misbehaving himself there is the James Carvell who took leg bail from St. John. The City Marshall of Halifax saw the TRIBUNE's account of the absconding and telegraphed to our Chief of Police Wednesday afternoon asking if Carvell was "wanted." The Chief gave orders to have him detained and to catch Cox, who is also in Halifax. The runaways will, if brought back, be in custody of their sureties whose duty it is to produce them. The bail would be exonerated if the authorities took the matter in hand.

"THE UNIVERSAL AYER."—On my journeys over the continent—through Turkey, India, China, Japan, Peru, Chili, Paraguay, Brazil and Mexico, and the United States—in them all to some extent and in some to a great extent, I have found the UNIVERSAL AYER represented by his family medicines, which are often held in fabulous esteem. Whether they win their marvelous reputation by their cures I know not, but I know they have it to such a degree that it frequently gave me a distinguished importance to have come from the same country.—*Field's letters from abroad.*

More Nominations.

The following have been received by the Town Clerk of Portland, in addition to those mentioned yesterday:

Ward No. 1.—M. D. AUSTIN,—by Robt. Robertson, J. P. Jarvis, S. Verner, W. G. Brown, Robt. Gale, Robt. Stevenson, James A. Price, E. R. Gregory and others.

Ward No. 2.—D. J. PURDY—by C. H. Hatheway, Rich. Farmer, John Polly, John Johnston, Andrew Johnston, John Keltie, Wm. Keltie, Donald McKenzie, David Hatfield, Jas. Watson, and others.

Ward No. 3.—JAS. I. FELLOWS, by John H. Parks, Ric'd Farmer, A. R. Ferguson, Wales & Green, John Hegan, Geo. Eaton, Jno. Cochran, Henry Bond, Joshua Corkery, Thos. W. Smith, M. D., Jno. Reed, Benj. Lawton, Andrew J. Armstrong, Reuben Ebbett.

Ward No. 4.—ARTHUR MCLEAN—by R. Sands Armstrong, Jas. T. Magee, W. Fairbanks, John Spence, Robert Magee, C. E. Barnham, James Reed and others.

HARRIS ALLAN—by D. W. Sadler, Wm. Hazlehurst, Chas. Wilson, Dimock W. Blakeney, Wm. J. McGowan, Campbell & Fowler and E. Puddington.

OYSTERS.—We would advise the readers of THE TRIBUNE, especially those who are fond of oysters, to call on George Sparrow, at the head of King street, and try those splendid oysters which he has on sale. They are certainly the finest oysters in the city, and we think the only place where you get Shediac or Prince Edward Island oysters in St. John.

Shipping Notes.

The ship Wave Queen, Wilcox, master, at London 29th ult., from New York, reports having experienced very heavy weather during the passage, during which stove bulwarks and lost part of deck-load.

The brig Ariel, Doane, master, from Portsmouth, N. H., for St. John's, N. F., put into Halifax on the 30th ult. short of provisions. The captain reports being unable to reach St. John's on account of the ice. The crew were badly frozen.

Charters.—The bark Mary A. Nelson, Smith, master, has been chartered for Sagua to load for a port north of Hatteras at $6.25; the bark J. L. Wickwire, Murray, master, for Cabarien to load for a port north of Hatteras at the same rate; and the bark John Read, McPherson, master, for Matanzas, to load for the Channel at 52s 6d.

The bark Sunlight, of this port, Hayes, master (before reported arrived), was at Dunedin, N. Y., on the 10th February, about half loaded for Boston. The S. has made a long passage of it, having sailed from New York in August last.

Savannah Freights.—Advices from Savannah up to the 30th ult., states that the activity in cotton freights noted in the previous week's report has been maintained to a considerable extent, and rates have been fully maintained, although quite a fleet of vessels have arrived. The prices quoted are—By sail to Liverpool 5-16d; to Havre 13-16c., gold; to Bremen, 7-16d. Charters for Baltic or Continent nominally 7-16a4d.

Lumber Freights.—There have been a large number of arrivals during the week, and charters are readily made at quotations: to Baltimore and Chesapeake ports $5.50 a $7; Philadelphia, $6; New York and Sound ports, $6 a $7; Boston and Eastward $7 a $8; South America, $17 a $18, gold and primage. Rates for timber are $1 a $1.50 above those for lumber.

It is possible that other candidates may appear on the field at the last moment, but not in sufficient numbers to give the election any particular interest. No principle is involved in any of the wards. The fight is purely personal, and it is not probable there will in any case be much change either for better or worse.

Pedestrianism at Home.

Mr. Cadwaller Rourke started from the town of St. George yesterday morning to walk to this city for a wager, agreeing to the following stipulations: The distance supposed to be 45 miles, he to walk a half mile every consecutive half hour. This feat may appear quite easy to some, but if you wish to be convinced to the contrary try it. Mr. Rourke is one of our prominent stevedores.

STILL THEY COME.—Orders from all parts of the country are constantly arriving for Dr. Sweet's Great Magnetic "Nerve Cure," while the incessant local demand remains unabated. Yesterday's sales greatly outnumbered the opening day, a fact worthy of notice, as it plainly indicated that the future is bright with golden promises of health and happiness to the afflicted. Tarry no longer, nervous sufferer, there is yet room for you notwithstanding the crowds which throng T. B. Barker & Sons' drug store. You shall not wait in vain.

For land Election Tactics.

A systematic attempt appears to be making for the defeat of some of the best members of the Town Council on the cry of extravagance. As the taxes for town purposes have not been raised at all, and the only debt incurred has been for necessary fire purposes and requisite permanent improvements, we should suppose that the most ignorant voter could not be gulled into voting against a good man with this cry. The electors should ascertain the facts before promising their votes. The man who is cheated out of his vote by a mere election dodge is despised even by those who secure it.

CATARRH CAUSES CONSUMPTION.—Yes, this is true, as the medical record will show. It was first a cold, then catarrh, and lastly confirmed consumption. Reder's German Snuff will cure the worst cases of catarrh.

Yielded to Temptation.

At the Police Court this morning, George Mullin was brought before the Magistrate, he having previously elected to have his case disposed of summarily and having also pleaded guilty. The Magistrate read an excellent testimonial from Messrs. Stewart & White for whom the young man had worked. The firm stated their full confidence in his honesty and that he had always conducted himself while in their employ. The mother and father of the prisoner were in Court and averred that he had always been an honest and obedient son to them. The prisoner explained that he thought he might as well take the boots as to have them destroyed in the fire, and did not appear to see any great crime in so doing. In consideration of his previous good character, and allowing for the circumstances of the temptation the Magistrate imposed the light sentence of one month in Jail.

The new combination of Hypophosphites invented by Mr. Fellows (Fellows' Compound Syrup of Hypophosphites) is making many extraordinary cures throughout the Provinces, particularly in diseases of the nervous system, the heart and the lungs.
