THE KING'S ILLNESS.

HIS MAJESTY'S PROGRESS IS QUITE SATISFACTORY.

He is Confined to His Apartments, but Not Obliged to Remain in

London, Feb. 4.—Late last night Bar- DR, CHASE'S on Knollys informed inquirers at Windsor Castle that the King's progress was quite satisfactory. An indication that no anxiety is felt regarding the King's son anxiety is left regarding the Ring's condition may be found in the complete absence of a shoal of inquiries from foreign courts, which was the usual experience on the occasion of his Majesty's previous illnesses. It seems that the King caught a slight coid some days ago. He wore a cumbersome overeout while planting trees Monday, and the unbuttoning of it to facilitate digring is supposed to have given him a chill. The usual symptoms of influenza. Iassitude, pains in the back and head at slight rise in temperature fillowed. The King is confined to his apartments, but is not obliged to remain in bed. Queen Alexandra continues her customary drives. There is great disappointment and gloom at Chatsworth, where all the intended festivities except a private theatrical performance have been countermanded. Tons of fireworks have been sent away. The royal servants and baggage have gone, and the guests at Chatsworth are contoing themselves with golling and motoring.

Gen. Ducharme, with 900 men, advanced up the Camatagua River. President Castro seft a force of 1,000 troops against him, under Gen. Alcantara, who took the rebels by surprise and destroyed them after a seven-hours' fight. Alcantara captured thirty officers and 200 soldiers, 40,000 rounds, and all the rebels' reserve ammunition, and 50 animals. The remainder of Ducharme's army fled in the direction of Orituco.
