Poverty of possession need not be creditable; poverty of life always is.

LOSS OF APPETITE.

A person that has lost appetite has lost something besides—vitality, vigor, tone.

The way to recover appetite and all that goes with it is to take Hood's Sarsaparilla—that strengthens the stomach, perfects digestion and makes eating a pleasure.

Thousands take it for spring loss of appetite and everybody says there's nothing else so good as Hood's.

Knowledge and timber should not be much used until they are seasoned.

There are more little things to do than big ones; so do them.

Perhaps two can live as cheaply as one, but most people would rather be alone.

BALKAN COMPLICATIONS.

BELIEF THAT BREAK-UP OF
TURKEY IS AT HAND.

Austria-Hungary Has No Desire to Absorb Additional Territory—Defenders of the Sultan.

Budapest, Hungary, March 3.—The gravity of the Balkan complications is disclosed by inquiries among officials and well-informed men here. I am told that there is a general belief in the Hungarian capital that the break-up of Turkey is at hand; that it will come without doubt within three or four years, or that it may come within three or four months. It is conceded here, as at Vienna, that the catastrophe, if it occurs this year, will be due entirely to the activity of the Albanian and Macedonian bands. The revolutionary leaders understand this, and are making desperate efforts to stir up strife while all eyes in Europe are fixed upon them.

London, March 3.—The Geneva correspondent of The Daily Chronicle telegraphs that news has been received there of an engagement between Turkish troops and bodies of Macedonian and Bulgarian near Monastir. The Turks suffered a repulse. After the fighting thirty-two dead and many wounded men were found.

THE MINERS' DEPUTATION.

Start For Fernie to Settle the Strike—Convention Closed.

Victoria, B.C., March 3.—A deputation of the Mining Association, consisting of equal numbers of mine-owners and laborers, have left for Fernie to attempt to settle the strike there. This commission was accepted amid great cheering in the Mining Convention this morning by Manager Tonkin of the Crow's Nest Company. It is confidently believed that these men will effect a settlement. Representatives of the miners in convention said that all they asked was that the facts be published and the blame settled where it belonged.

The Mining Convention, which has been the most successful gathering of its kind in the history of the Province, concluded to-day. It will meet next year again in Victoria.

MRS. GOWDY'S SUDDEN DEATH.

Married Less Than a Week—A Vancouver Tragedy.

Vancouver, B.C., March 3.—Last Tuesday morning in this city Mrs. J. J. Blake, widow of Vancouver's first Magistrate and City Solicitor, was married to Wm. Gowdy, a prosperous rancher of Ladner, whose first wife died some few years since under tragic circumstances. This morning the bride of less than a week died, heart disease being alleged, although a Coroner's inquiry is probable. The fates apparently pursue both families, for Mrs. Gowdy's first husband was drowned in a well in which he had taken refuge during the great Vancouver fire, while her second committed suicide.

FURIOUS HURRICANE.

Schooner Wrecked Off Newfoundland—Several Bridges Destroyed.

St. John's, Nfld., March 3.—A furious hurricane, the worst for many years, raged here on Sunday. The schooner Ethelroy went ashore and is a total wreck. The crew had a narrow escape. It is feared that other disasters have occurred along the coast. The gale has not yet abated. A number of bridges and fishing stations have been destroyed, and the ice blocks the coast worse than ever as a result of the storm.

THE POPE'S HEALTH.

He Will Be Able to Attend To-day's Ceremony.

Rome, March 2.—Rome is in a state of strained expectancy, and the wildest rumors are being circulated. It is said that the ceremonies to-morrow marking the 25th anniversary of the Pope's coronation cannot possibly take place, as the Pontiff is in the last stages of exhaustion. I am in a position to state, however, that although he has a cold, he will not only appear, but will take part in the ceremony. To-day he is 93, consequently he has had innumerable messages of congratulation. When he received the gift of a new sedia gestatoria he said, smilingly, "It is likely that it will carry my successor offener than myself. I hope, for the bearer's sake, that he will be as light as I am."

SIX MEN KILLED.

Thirty Others were Injured by an Explosion.

Easton, Pa., March 3.—Six men are thought to be dead and about thirty injured, several of them seriously, from the effects of an explosion at the Edison cement plant at New Village, N. J., seven miles from here, on the line of the Delaware, Lackawanna & Western Railroad. A large part of the plant was burned. Six men are missing, and it is feared their bodies are in the ruins. Their names have not been learned.

Wabash Employees Get Increases.

Chicago, Ill., Feb. 23.—Joseph Ramsey, President of the Wabash Railroad, says the trainmen on the Wabash west of the Mississippi River shall receive, after March 1, about 5 per cent. more per month on runs of four thousand miles than those in the service east of the river. This Mr. Ramsey explains on the ground that eastern tariffs are on a much lower basis than western tariffs.
