

REVIEWS.—APPOINTMENTS TO OFFICE.

to refer to the Canadian part of the continent, as well as that other larger part, which larger part sometimes forgets that it does not comprise the whole Continent.

THE UNITED STATES JURIST for July and October received. We are particularly pleased with the book notices for their vigour and impartiality, and the legal intelligence for its piquancy and variety. The editor suggests that the English council of law-reporting would confer an especial favour if they made up lists shewing the causes appealed and the results of the appeal, as to the judgment of the court below being affirmed, reversed or modified, so that the reader consulting reports of an English court of first instance might see readily whether any particular case had been considered in appeal, and, if so, with what result. This is a kind of compilation which may very well be made a part of the new system of reporting in this Province.
