* The Council of Public Instruction has authorized the preparation of a General Geography, and an English Grammar for use in the Public Schools, and until these works are published the Superintendent of Education will not procure any text-books on these subjects. In the mean time, Trustees are authorized by the Council to use whatever Geography or Grammar they prefer. Campbell's or Lovell's Geography will be found to be about the best; and Lennie's Grammar, if followed by Morell's Analysis, will, perhaps, give as good results as any.

“ Candidates for admission to the Normal School shall attend one of the regular semi-annual examinations conducted by the District Examiners in October and April in each year, and if they pass a satisfactory examination on the third-class syllabus,* they shall, if found worthy of the same, receive a certificate of character, ability, and scholarship. This certificate shall give the holder admission to the Normal School, and upon presenting said certificate to the Superintendent, the holder shall receive an allowance of five cents per mile, towards travelling expenses. In the case of those who hold licenses, granted since October, 1864, it shall be sufficient to make application to the Chairman of the District Examiners, who shall forward the requisite certificates to applicants. No person shall be admitted to this Institution as a pupil-teacher, without the above-named certificate.”

Persons wishing to enrol as Candidates for High School or Academy certificates must, in addition to a good knowledge of English, be thoroughly familiar with the Latin and Greek Grammars, and be able to parse with ease any passage in some elementary work in each language. In mathematics, they must be competent to solve any example in the advanced Nova Scotia Arithmetic, to work quadratic equations in Algebra, and to demonstrate any proposition in the first four books of Euclid.”

* If qualified, they may be examined on the second, or first-class syllabus, omitting the practical questions at the end.”
