Sports Roundup

English Rugby

A fairly large crowd ambled down to Colege Field last Saturday afternoon at 2.30 to bid farewell to English Rugby for this season. The team, smarting from a decisive 10-2 loss at the hands of Mt. A. the previous week-end, was playing host to the powerful St. Dunstan's University squad. In their only other encounter with the Irish this year, the Red and Black was swamped under an 18-2 avalanche. Thus things looked black for U. N. B. There was, however, a spark of hope. If U. N. B. could win this game, there would be a chance of creating a three-way tie for the N. B. P. E. I. championship.

At the end of the first half, hope had just about been abandoned. And why not? Cash, a speedy St. Dunstan's three-quarter man, seemingly ran through the entire U. N. B. team for a touchdown, early in the game. This was followed shortly afterward by another Red and White touch scored from a five yard scramble by Ayres. Thus the visitors ran up an early 6-0 count over an apparently listless opposition.

The U. N. B. tackling was poor, the forwards were slow getting up the field and the backfield was continually fumbling the ball. At this point the spectator interest was reduced to that of speculation. How high a score was St. Dunstan's going to run up?

As it turned out, however, the visitors had run out. Just before the end of the half, U. N. B.'s ace full-back Jim McAdam placed a penalty kick neatly between the uprights for two points. As the referee's whistle ended the half, John Glass was brought down deep in the enemy territory. This last minute spark did not end with the half.

When the players came back on the field U. N. B. appeared a new team. Their drives started working with the result that most of the remaining time was spent on St. Dunstan's door-step. "Toe" McAdam managed to place three more penalty kicks from all manner of angles to promote an 8-6 lead, which the Irish never answered. The day was ours.

Although McAdam was easily the standout with his sensational kicking and brilliant full-back work, he used some able assistance in spots. Murray McDougall, Jackie Thompson, John Glass and Dick Snow were a big part of that.

So that, as it stands, if St. Dunstan's should defeat Mt. A. in the next game, the league would end in a three way tie. Two wins and two losses will have been registered by each team. In this event, one team would draw a bye to the finals, while the other two teams would play a sudden death game. Mt. A. could however clinch the championship with a win or a tie in their Charlottetown engagement.

It is interesting to note that of the 19 scoring points recorded by the team this year, McAdam has made 16 of them. He has scored on seven penalty kicks and one convert, in four games. The remaining three points were scored on the team's only touch-down of the season, chalked up by Dick Snow at Mt. A.

SOCCER

The Soccer team is now riding high after three victories against no losses. The team, sparked by the Kelly boys and the expert coaching of the Rev. Canon Clark, have eliminated the Marshmen from further competition, for this year at least and that is no mean feat. In the first encounter the Swampmen managed to come from behind and earn a tie. But that was not how the story went at College Field when U. N. B. men played the part of the genial hosts. Terry Kelly, one of our two Irish brothers, kicked in both scores while brother John played a smart defensive game, using his head on numerous occasions. Talking about scores it is interesting to note that Terry has been the marksman on all the scoring plays made by the team so far this year. He has a total of five goals in three games.

Although the Kelly boys are good they are not the only players on the team worth boasting about. What about Bernard Scott and Mike Hassell, two English imports, and many others too numerous to mention? We have a team here of rugged individuals that are as confident as the students that they will again be Maritime Intercollegiate Champions this year.

VARSITY HOCKEY

"Pete" Kelly has called out all his former charges that are available and any newcomers that are interested in making a spot for themselves on the Varsity Hockey team this season. The first practice was held in the Gym a week ago. So far, the practices are only conditioning sessions, but ice will soon be available. These conditioning sessions are, however, extremely important and any one seriously intending to play Varsity Hockey must be in the pink of condition. Hockey is a hard fast game, which requires keen skill and quick reflexes. Remember above all, that good condition cuts down injuries.

AID TO SOUTH

The highlight of the national I. S. S. conference at Queen's was a first hand account of conditions in South East Asia by a Toronto U. grad, Bill McDougall. As the official Canadian representative to the International conference Mr. McDougall had ample time to observe the appalling conditions in (Continued on Page Eight)

VARSITY HOCKEY STARTED

By Frank Walton

As the football season nears its completion, plans for the coming hockey season are being made. The U. N. B. Senior Varsity has passed the first stages of organization.

On Monday, October 23, and Wednesday, October 25, the team held conditioning workouts in the gymnasium. Under coach Pete Kelly twenty-three aspirants for berths on the squad tossed a medicine ball around and did exercises to strengthen certain muscles.

This year's team is a more or less inexperienced one. Holdovers from last year's squad are forwards Bob Bliss, George Kennedy, Jack Thompson, Tim Bliss, Ralph Doukin, Art Lorimer and Dick Snow and defenceman John Waggar. However, the team will be strengthened by the addition of such promising men from last year's Junior Varsity as forwards Jim McAdam, Everett Boyle, Jack Elliott, John Myers, and Ron Ketch along with blue line stalwarts like Murray McDougall, Cecil Smith, Don Howatt, and Frank Prime.

Word has been received that the ice at York Arena will be ready around the first of the month. Coach Pete Kelly hopes to have his charges out on the ice shortly after this date.

Plans are not yet definite as to what sort of local league the team will enter. Last season, U. N. B. competed in the Southern New Brunswick League with Fredericton Capitals and Saint John Carleton-Yorks. However, it is not yet known whether or not this league will operate this season. If not there are hopes of entering the team in some other local league.

Nevertheless, plans have been finalized concerning the intercollegiate steep. U. N. B. will play a home and home, total goal series with Mount Allison, the winner of which will meet the winner of a similar series between St. Thomas and St. Dunstan's for the N. B. P. E. I. title. The winner of all this will play the Nova Scotia winner for the Maritime crown.

The consensus of opinion has been that the Senior team will not be as strong as last year. However, let us hope that the student body is wrong and that U. N. B. will cop the Maritime Intercollegiate Hockey Championship.

Have New Building

(Continued from Page Four) in the evening to recorded broadcasts of the ceremony over two local radio stations.

Official guests included representatives of the province, the city of Edmonton and other Alberta cities, the university board of governors, senate and faculty, the chamber of commerce, service clubs, business men and others who contributed to make the project a success.

FREELY SPEAKING!

By Stan Jobb

Why we haven't a rink — This year.

1. With the capitulation of Alexander College, the scene of many a joyous encounter, the university now becomes deficient in many things. The most pertinent being that of a rink — an open-air rink. Now since most of the college year takes place in winter months, and most students skate or play hockey, and since we are the only university without this modern convenience, let us view the situation sensibly.

What is required for such a convenience? First of all an honest desire by the student for such a project, secondly, the money to operate it, thirdly and most important—a location.

As for the desire for the rink, each student must ask himself, As for myself, I have no doubt that a rink is indispensable in promoting college sport, spirit, and good feeling.

We have the equipment, hose, boards, penalty boxes, etc., thus eliminating a considerable portion of the expense. The upkeep of such a project however, is a deciding factor, and of late, many students have shown their willingness to help.

The difficulty then lies in obtaining a suitable location. In considering this, three likely spots came to mind, College Field, the tract of land off University Avenue adjoining the railroad tracks and the most desirable of all, beside the gym.

First let us consider College Field. The rink has been there in the past but evidently was unsatisfactory. Why? Well a great deal of money has been spent on the playing field and track and it has been found that undue damage was caused to the ground by the rink. It does seem a shame however, that the College Field which is used approximately a month and a half of each college year, could not, with its benefits such as lights, seating capacity, and quarters, be used a little longer with the proper precautions.

The land off University Avenue which is owned by the University itself, is unsatisfactory because of residential difficulties. It is understandable that with a rink goes a certain amount of noise and the surrounding residents are within their rights. The shouting cheering, the singing of skates, the blaring of loudspeakers, and faintly in the distance, the rumbling of trains, are adequate reasons.

The space at the Gym, although relatively flat, would require an extensive levelling job, which would only be worthwhile if the rink was to be permanent. There still exists, in many minds, hope for an arena. At present this space is used for parking and used extensively during games and loss of it would be very inconvenient.

The area below the Residence was thought of, surveyed, and it was found that due to its position, drainage would be an objectionable factor. With this I agree, for we all know that it is virtually a swamow in springtime and at present is a minor forest.

A cheerful note is found for the intramuralists, the University has very generously offered to pay the expense of the York Arena for intramural hockey games. This is to be commended for the price is high (\$15 per hour), and the teams are to have four hours a week (8-12) on Monday night. Certain advantages can be seen in this, an early start in hockey, good ice, no worry of temperamental weather, and a much better brand of hockey. However, as one fellow intramuralist pointed out, it is a long way and the buses stop at midnight.

So much for the rink problem. The S. R. C. is to be commended on its change of heart in reconsidering the Badminton, Bowling, and Intra-mural activities. They have now been granted a major portion of the budget.

Foresters Hold Hammerfest

By Dan MacArthur

Saturday night, in the wake of the Mount A. game, the Forestry Association's annual Hammerfest erupted at Flanagan's Road. In traditional style, food and drink were served in the open to scores of intrepid foresters. Sitting or standing around they ate and talked and raised hoarse voices in enthusiastic song.

As usual, Dr. Gibson was there, accompanied by Mr. J. C. Veness of the Forestry Branch of the Department of Resources and Development; Professors Rae Brown, Doc Roberts, Ted Owens and Nelson Adams, extension forester, Hank Blenis, director maritime forestry school and Mr. Savage of the New Brunswick Forest Service were other guests. Professor B. W. Flieger, at present on a year's leave of absence and living in Montreal, also attended the meeting.

Bill Donaldson planned and organized the event. With Greg Chisholm supplying fine wood, and Ian Sewell and George Shaw presiding as wine steward and chef respectively, there were few hitches. Willing assistance was readily available at all times. Mrs. Ian Sewell and Mrs. Bill Donaldson helped out by cooking some of the food at their homes in preparation. Mopping up operations after the feast were carried out by Keith Waddell, Jim Newcombe, Don Fowler, Jack Foot, and Vic Stewart.

Several persons expressed satisfaction at the return to the former system of serving a meal. As there was no sign of anyone failing to have an enjoyable time, it seems safe to say that this Hammerfest measured up admirably to any of those held in the past.

S. C. M. Hears Prof. Love

The Student Christian Movement was very fortunate in having Professor R. J. Love, professor of Education at U. N. B., as guest speaker at its regular Sunday evening 'Open House' who spoke on the subject "Religion and Public Education". The discussion centered around the question: "Should the school devote time to religious education?" and he began by noting that the problem of religious education is prominent in other places besides New Brunswick.

Prof. Love stated that there is a direct connection between religious education and morality but that there had been no proof to confirm this assumption. If the school is to care for the whole child it should therefore care for and nourish his religious life. The 'golden opportunity' for religious teaching is in the school, Prof. Love continued, although some might be forced into beliefs that they otherwise would not hold.

The history of religious education in North America was briefly traced by Prof. Love who told of the conflict between church and state for the responsibility of religious instruction in the schools. This struggle still goes on today, and there are a great many problems which must be solved before this important question can be answered; however Prof. Love predicted that there would be a time set apart for religious instruction in the schools within three or four years.
