A RUTH FEEDER

WILL OUTWEAR THREE
or FOUR SEPARATORS
and Still Be on the Job!

The Ruth

—The Self-Feeder with No
"Wear-Out" to It!

The records for astonishing durability being piled up by Ruth Feeders all over America have never before been duplicated in the history of self-feeders. Despite the fact that they are getting the hardest, most constant, most trying use, Ruth Feeders are demonstrating almost every day that there is practically no wear-out to them.

The durability of the Ruth Feeder is as remarkable as its ability to do a wonderful amount of work—more work and better work than any other feeder you can buy.

There are self-feeders that cause all kinds of delays, disappointments, money losses, because they cannot stand up under the work during the threshing season.

We know—and probably you know of feeders that are notorious for the fact

that they *rarely* run one single season without shaking themselves to pieces. They are built flimsily. Their mechanism is weak. Their entire make-up is a mistake.

Yet—some people buy these other feeders. If one doesn't investigate, one is liable to invest in the wrong feeder—one that you'll have to replace at the end of the year, or even before the season is over. It *may* fall down on you right in the middle of the season.

THIS GUARANTEE Protects You for Three Years READ IT!

Here is the strongest guarantee ever given with any self-feeder:—

Such faith have we in the Ruth Feeder, that we guarantee every Ruth Feeder to feed any make or size of separator to its full capacity, with any kind of grain in any condition whatsoever, bound, loose, straight, tangled, stack burned, wet or dry, piled on the carrier any way you please, without slugging the separator cylinder or loosening a spike, and do a faster, cleaner and better job of feeding than any feeder manufactured by any other company in the world.

**FEEDERS can be shipped from Winnipeg, Regina or Calgary
REPAIRS can be supplied from Winnipeg, Saskatoon, Regina
and Calgary.**
