FAIRVIEW FARMS HERD

—HAS FOR SALE—

Sons of **Pontiac Korndyke**, sire of the world's record cow **Pontiac Glorified De Kol 2nd**, 37.02 lbs. of butter in 7 days. He is the sire of seven daughters whose 7 day records range from 22.34 to 26.75 lbs. by the daughters of any other sire of the breed living or dead. He is the sire of the young bull of the breed to date a 30 lb. daughter.

We also offer some of **Rag Apple Korndyke**, whose dam **Pontiac Glorified De Kol 2nd**, 37.02 (world's) record giving this young sire's dam, having the 10 best 7 day records that average for the year a 30 lb. daughter.

We have in service, and can offer you some of **Sir Johanna Colantha (Grand)** of the highest record daughter of **Henserveld De Kol**, 114 A. R. O. daughters, four over 30 lbs. each.

Also, a son of **Colantha Johanna** Led, whose dam **Colantha 4th Johanna**, has a 7 day record of 22.34 lbs. of butter in 7 days and sire's dam average 35.5 lb. each, which is higher than that of any other sire of the breed. Let me see you breeding and quote price on anything you want in first-class Holsteins; young sire or son.

E. H. DOLLAR,
Near Prescott, Ont. **REVELTUN, St. Lawrence Co., N.Y.**

and prices were well maintained, selected lots being put in the market in 2000 lb. weighed off cars. Dressed hogs are meeting with a good demand and fresh killed abattoir stock is quoted at \$9 to \$9.25 a cwt. Country dressed are quoted at \$9.25 to \$9.75.

EXPORT BUTTER AND CHEESE

Montreal, Saturday, Dec. 9.—The market here for cheese has been very quiet this week with scanty arriving doing. Cables have been scarce, and what inquiries have come have not resulted in sales. The market for butter here where our own cheese has been obliged to put up the C.I.F. prices on account of the increased cost per pound to the coast of cheese laid down in England, and this has interfered with considerable business that might have been done. Holders are very firm, however, and will not reduce their prices and are determined to wait patiently until the demand from England comes on and takes care of the balance of the cheese left here unsold. Stocks are very light, and a couple of weeks' good trading would clean them out. Stocks in England are very light, and barely sufficient to last two or three months, and will certainly not suffice to keep going until the new season opens here. There is every indication of a period of extremely high prices prevailing throughout the winter months.

The butter market is very strong owing to the scarcity of supplies, and prices are slowly but steadily advanced as the stocks are reduced. In a wholesale way finest creamery is quoted at 32c a lb., and some dealers are willing to sell at much under 30c, which price is equal to the cost of New Zealand butter laid down in Montreal.

ONE OF CANADA'S GREATEST HERDS OF HOLSTEINS

(Continued from page 17)

DeKol 2nd. They have more white than their dam and are excellent individuals showing dairy capacity with well shaped udders.

They will be tested this winter and promise to make good records.

One of the finest matrons of the herd is the 16-year-old cow, **Bellesbrook**, purchased from Geo. Rice. When eight years old she made a 7-day record of 57.4 lbs. milk and 25.18 lb. of butter. Her 30-day record is 2,243 lbs. of milk and 103 lbs. of butter. This cow is a regular milking machine. She is the true wedge shape with a great barrel, a large pendulous udder, large, tortuous milk veins and a skin that it is a pleasure to handle. In fact, this cow is one of the nicest handlers you have ever seen. She has been entered in the Record of Merit four times with the following result: As a two-year-old she averaged 127 lbs. of milk in 7 days; as a three-year-old, 16 lb.; as a four-year-old, 20 lbs., and at eight years, 25 lb.

(To be continued)
