On Thursday week an Indian girl, aged 12 years, while playing near the encampment below Davis' mill, her clothes, in some way, came in contac with a camp fire. Mr. Drysdale and others hearing the agonizing cries of the child, hurried to the rescue, and succeeded in smothering the flames. A medical man was soon in attendance, but the burns covered so large a portion of the body as to preclude possibility of more than temporary relief. She lingered until Saturday morning, when death ended her sufferings .- Woodstock

GENERAL NEWS.

Mr. James Scott, of Shemogue, N. B., a single man, aged about 27 years, who had been running a fishing stage at Campbellton, Lot 4, P. E. I., left his stage in a sail-boat on the night of the 26th July last by himself, to pick up a dory which had gone adrift. Not returning, his friends became alarmed, and more so in a few days when the dory was found at Miminigash, and the boat picked up at sea. The body was picked up on Friday week, about a half mile from the place at which he embarked. It is supposed on reaching the dory that he attempted to catch her and fell overboard.

A correspondent in Tracadie, N. B., writes to the St. John "Sun:" The body of a young woman, about 18 years of age, was found a few days ago dead on the beach at Shippegan. There was a cut on the side of the head and marks of violence on the body, which led her friends to suspect that she was first outraged and afterward murdered.

Many medical men are expressing the belief that the phonograph will confer great benefits upon physicians in enabling them to diagnose bronchial and pulmonary disease, and the delicate fraction sounds and murmurs in diseases of the heart, aneurism, &c.

When we reflect that a power of endurance can be imparted to the brain, and that weak minds have been restored to strength by Fellows' Compound Syrup of Hypophosphites we cannot but conclude that the subtle power is really ponderable matter. White, Blue, Red, Orange and Green Made of Good American Cotton with great care. Correctly numbered and Warranted Full Length and Weight.

We would ask the purchasers of Cotton Warp to remember that our Yarn is spun on Throstle Frames, which make a stronger Yarn than the Ring Frames, used in making American Yarn. It is also better twisted and more carefully reeled; each hank being tied up in 7 leas of 120

yards each. This makes it much more easy to wind than when it is put up without leas—as the American is—and also saves a great deal of waste Those acquainted with weaving will understand the great advantage it is to them to use yarn put up in this manner.

### THIS DISCOVERY

Is the result of a series of Scientific Ex periments based upon the theory that for the successful cure of Wasting Diseases, the nervous system must be made vigorous and healthy."

One of the first symptoms of disease affecting either the Liver, Lungs, Heart, Stomach, or Genital Organs, is a loss of nervous power. This is followed by muscular relaxation, weakness, and emaciation of all the organs which depend for health on involuntary muscular action, the weaker suffering first.

Now, as the muscles and nerves depend so much upon each other for efficient PIANOS IN PRICE FROM - + \$225 to \$1000 strength and action, and as the organs \$75 to \$400 they control depend on both, it be an actual necessity to treat the nerves and muscles directly in order to speedily and permanently cure diseases of the above

named organs. The inventor, acting upon these ideas, after months of experience, during which time he had ample opportunity for trying the effect of his discovery, became convinced that no other preparation known contained so potent and direct an effect upon the nervous system as his

COMPOUND SYRUP OF HYPOPHOSPHITES. and except in cases of actual organic loss, that it would restore patients suffering from those maladies.

Amongst the diseases overcome by the use of this remedy are the following:-Chronic Constipation,

Chronic Dyspepsia, Asthma, Chronic Bronchitis,

Consumption, Chronic Diarrhea, Chronic Laryngitis, Melancholy, Nervous Debility

### FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES

The power of arresting diseases displayed by this preparation is honorably acknowledged by the medical faculty in every section where it has been introduced; and the large sale is the best guarantee of the estimation in which it is held by the public.

This Syrup will cure Pulmonary Consumption in the first and second stages, will give great relief and prolong life in the third. It will cure all diseases originating from want of Muscular action and

Nervous Force.

### JOYFUL NEWS FOR THE AFFLICTED.

Toney RIVER, N. S., Nov. 15, 1877. C. Gates & Co.,—Gentlemen,—Some time last winter one of my children—a little boy about eightheen monthes-was badly frighteened and his heltn became seriously affected. On the least alarm he used to go off in a kind of fit, becoming motionless and black in the face, his heart at the same time palpitating in the most alarming manner. Each fit was worse than the preceeding one, causing us to fear heart disease. Hearing of some of the numerous cures effected by your medicines in this and other localities, I procured from your agent, Mr. E. A. Gile, a bottle of your No. 2 Bitters, and before it was half gone I noticed a marked improvement York, for Pamphlet of 100 pages, containing in the child's health.
