

**SHIRE STALLIONS & MARES FOR SALE**

My importation of Shire stallions and mares has arrived, and are well over the effects of the voyage. They consist of one six-year-old brown, and one two-year-old red roan stallions, both the best of the breed yet imported to this province, also ten mares, three and four years old, all in foal to first-class stallions. You can pick some prize winners from them, also one nine-year-old and two three-year-old stallions; all imported last spring. Prices defy competition.

**HELP WANTED**

We want a reliable man with rig, or capable of handling horses, in every locality in Canada on salary or commission—\$15.00 a week and expenses, with advance, introducing and advertising our Royal Purple Stock and Poultry Specifics, putting up bill posters, 7 by 9 feet; selling goods to merchants and consumers. No experience needed. We lay out your work for you. A good position for farmer or for farmer's son, permanent, or for fall and winter months. Write for particulars.  
**The W. A. Jenkins Mfg. Co., London, Ont.**

Council will have the power to place the force in active service in case of war, invasion, or insurrection, real or apprehended.

The Governor in Council will also have the power to place the Canadian fleet at the disposal of His Majesty in time of war. In the event of the Governor in Council taking such action Parliament must immediately be summoned. Provision is made for pensions for officers and men, and for the establishment of a naval college similar to the Royal Military College at Kingston. At first the Canadian navy is to consist of four vessels of the Bristol type, one of the Boadicea type, and six destroyers of the improved river type.

The vessels are to be built in Canada if possible, and construction will be commenced as early as can be. The cost will be £2,338,000 if the vessels are constructed in Great Britain, or about 33 1-3 per cent. more if constructed in Canada. The annual expenditure will be, at first, about \$3,000,000.

In ordering change of advertisement, J. F. Mitchell, of Burlington, Ont., says that the imported bulls offered are good enough to head any high class herd. They have a lot of show blood in them and can be banked on as getters of the right sort. The two year old bull is a choice individual and one of the very best sires in this country. Some of his get were winners at the Canadian National at Toronto last fall and a number will be at Toronto this coming fall.

**HOUSES READY FOR IMMIGRANTS**

An arrangement whereby ready made homes will be provided for immigrants coming from Great Britain to the Canadian West is proposed by the Canadian Pacific Railway Co. It is pointed out that many Englishmen want land and are anxious to farm but they do not care to undertake the hardship of the first season.

The simple plan suggested is that the company will make preparations in advance for suitable emigrants from England, build houses for them, break the land, plow it, sow the first crops, and secure repayment by instalments spread over a number of years. The president says: "We want to make it possible for a large body of the best kind of emigrants, working country people, to settle in Canada in place of, as now, drifting into the towns where they are not needed."

"We shall probably settle the families not more than two to the square mile, in order that if they do well they can extend their holdings. The primary aim is not to sell land—for it is easy enough to sell land in the west in large quantities to-day—but to bring people. We want the right kind of Englishmen in the west, and we want them in large numbers."

The land to which this scheme applied is in Alberta and Saskatchewan. In the wheat belt the farms would be 160 acres in extent; in the irrigated portions of Alberta they would necessarily be smaller. The policy of irrigation which has been adopted is said to have been most successful, and the company proposes to apply it to another 1,000,000 acres. The preparatory home-making would cost about \$4,000. The repayment would be spread over ten years, leaving the settler \$400 a year to pay for his property. Men of the right stamp who came out with \$500 would be able to get along successfully.

**BREED SOCIETY ANNUAL MEETINGS**

Following are the dates announced for the holding of the annual meetings in Toronto of the breed societies named Those indicated by the as-

**LANDS FOR SALE**

You are probably acquainted with one of the latest popular hits in the song line, the refrain of which is "Where Has My Lima Bean?" The New York Telegraph makes it out to be an Englishman who heard the song at the Murray Hill Theatre and who was much perplexed by the refrain. Seeking out the house manager, who was a friend, he thus voiced his objections, according to the Telegraph:—

"Beastly bad grammar that song—what? How on earth, dear chap, can you make sense or meaning out of such foolishness? Why, such a meaningless babble! 'Where Has My Lima Bean?' It ought to be either 'Where Is My Lima Bean?' or 'Who Has My Lima Bean,' and it's idiotic to sing it in the way they are doing—what?"
