MR. AMEDEE GARCEAU 32 Hickory St., Ottawa, Ont.

"I was for many years a victim of that terrible disease, Rheumatism. In 1913, I was laid up for four months with Rheumatism in the joints of the knees, hips and shoulders and was prevented from following my work, that of Electrician.

I tried many remedies and was under the care of a physician; but nothing did me any good. Then I began to take 'Fruit-a-tives' and in a week I was easier, and in six weeks I was so well I went to work again. I look upon this fruit medicine, 'Fruit-a-tives', as simply marvellous in the cure of Rheumatism, and strongly advise everyone suffering with Rheumatism to give 'Fruit-a-tives' a trial." AMEDEE GARCEAT.

ing the recent Motor Show at Montreal. This new model has been expected for some time, so that its appearance in Montreal enhanced the value of the Show. The "20's" were also a feature 🐋 the New York Show earlier in the month.

The accompanying illustration will give an idea of the general body lines of the new cars. Hood design has been changed to one of pentagonal character, while the various units, the lamps, radiator, and low-swung ody, are all in harmony. The chassis is one of remarkable balance. Long, fexible, semi-elliptic springs give the car an increased degree of comfort The engine is the well-known Knight sleeve-valve motor, so that it is a case of Willys-Knight engineers having had to build a car to match a wonierful motor. How well they have succeeded is revealed by the beauty of the hody-lines as well as the interior refinemnts that make the new

20" a noteworthy addition to the motor car products of this continent. At present, the company is confining its quantity production at the Foronto plant to the Overland 4, the light car with the Triplex Springs, but it is anticipated that the expansion of this growing industry will per-mit of actual Willys-Knight production by the coming summer.
