TEETH PENETRATE NOSE  
Doctors Treat Wounds and  
Send Patient to Hospital—  
Cat is Then Killed

CANNINGTON, Oct. 20.—Monday  
evening of this week, Mr. H. Curtis  
Shipman's nose was severely bitten  
and his face severely scratched by the  
family's pet cat. He was lying on the  
lounge, reading. The cat was appar-  
ently sleeping under the stove. All  
at once she gave a wild cry, sprang  
from under the stove, jumped on Mr.  
Shipman's face, sinking her claws in-  
to his cheeks and her teeth into his  
nose. Her teeth passed clear through  
his nose. Before the furious animal  
let go her hold, Mr. Shipman's face  
and nose was severely lacerated. Dr.  
Ed. Blanchard was sent for. He  
dressed the wounds and did every-  
thing to alleviate Mr. Shipman's con-  
dition.  
It was decided to take the patient to  
Toronto General Hospital. Blood-poison-  
ing had developed by the time the  
patient reached the hospital. This,  
however, was checked and the patient  
soon showed signs of recovery. The  
cat was killed.

HERE'S A GIANT BEAN  
This Bean is 3 Feet, 4 Inches Long  
and 1½" in Circumference

Peterboro—Botanists and just  
plain backyard gardeners will be  
interested in a giant specimen of the  
Guinea bean grown by G. H. Popham  
151 Lock street. This immense veg-  
etable is 3 feet 4 inches long, 1½  
inches in circumference at the head,  
and 1½ inches at the stem. It  
could be described as a huge cucum-  
ber getting a trifle old, but it is  
thicker at the head, like a torpedo.  
It has a smooth pale green rind,  
somewhat yellowish in spots, and in  
the centre is said to be like a squash.  
It was the largest vegetable on the  
tree-like vine grown by Mr. Popham,  
who is quite a gardener and some-  
what of an experimenter with new  
plants from seed secured in New  
York. Mr. Popham can testify to  
the edibility of these beans, for one  
was used on his own table, and de-  
clared to be delicious. One should  
make more than a meal. The huge  
bean, will be carefully guarded and  
the seed saved for cultivation next  
year of the Guinea bean in numerous  
gardens of the city.

RENFREW MAN DROWNED  
Man Went Canoeing But in Some  
Manner was Drowned

Renfrew—After five hours of a  
search, the body of Victor Angus  
was found drowned in the Bonne-  
chere river, three miles from Ren-  
frew. He was an employee of the  
Renfrew Electric Products Company  
and following his usual practice, had  
canoeed up the river to fish and hunt.  
An upturned canoe and cap were dis-  
covered by Miss M. Pulte and Philip  
Chase, who were boating and who  
gave the alarm. It is known that  
Mr. Angus could not swim. He was  
28 years of age, a returned soldier  
and leaves a mother, a wife and a  
son eighteen months old.

his five year term in Port Arthur

some time to "break in" new men.  
He will probably be four or five days

CANADIAN ROADS  
MAY LOWER PAY  
WITHOUT STRIKE

Head of C.B.R.E. Tells C. N. R.  
Arbitration Board It Must  
be Reasonable

U. S. STRIKE UNCERTAIN  
Expect Former Employees and  
Ex-Service Men to Keep  
Trains Going

OTTAWA, Oct. 20.—That his  
organization was willing to ap-  
prove a reasonable reduction in  
pay in order to assist the rail-  
roads, was the statement of A.  
R. Mosher, president of the Cana-  
dian Brotherhood of Railway  
Employees, at a meeting of the  
Board of Arbitration between the  
Canadian National Railway and  
the employees today.

CHICAGO, Oct. 20.—Leaders of the  
Big Five railroad brotherhoods are  
in secret conference today with the  
Railroad Labor Board, while chair-  
men of most of the eleven other rail-  
road unions are deciding whether  
they will call a walk-out to complete  
the tie up.

Members of the Labor Board are  
optimistic over the prospects of ad-  
justment of the railwaymen's com-  
plaints. Plans to operate passenger,  
mail and milk trains were being push-  
ed by railroad executives today, in  
the event of a strike, with the resump-  
tion of freight traffic as fast as men  
can be secured. From the ranks of  
men recently laid off, pensioners, loy-  
al veterans and others of railroad ex-  
perience, railroad officials state that  
they can recruit almost half a mil-  
lion men.

ADVERTIZING FOR MEN  
NEW YORK, Oct. 20.—Advertise-  
ments calling for men to take the  
places of possible strikers on all rail-  
roads centering here are published in  
today's papers. Several of the rail-  
roads have sent out circulars urging  
the men to think carefully before  
joining the strike. One of these re-  
ferring to the men's leaders, says:  
"Remember, they can order you out,  
but can they order you back?"

Mr. Isaac Johnson  
Dies Very Suddenly

Although he had been ill for the  
past three weeks with heart trouble,  
Isaac Johnson passed away rather  
unexpectedly early today at his  
home at Roblin. The news of his  
death was received here just before  
noon by his son, Mr. Cephas John-  
son.

The late Isaac Johnson was seven-  
ty-five years of age and was born  
near Roblin. He followed the occu-  
pation of farming all his life, re-  
tiring only three years ago on the  
death of his wife. Since that time  
he had resided with his daughter,  
Mrs. Wesley York. He was a mem-  
ber of the Methodist Church and was  
held in the highest esteem.

There survive four sons, Edward  
of Leland, Ont., Wellington of  
Centerville, Robert of Croydon and  
Cephas of Belleville and one daugh-  
ter, Mrs. W. York, of Roblin.  
The funeral will take place at  
Roblin on Saturday, October 22nd at  
ten o'clock. (Napanees papers please  
copy.)

long, also of Belleville, by the Rev. A.  
H. Foster. The young couple were  
unattended. They left on the 2:56

moon. Upon their return they will re-  
side on Catherine street.

BRITISH PRINCES HAD  
VERY NARROW ESCAPE

LONDON, Oct. 20.—The  
Prince of Wales, with his bro-  
ther, Prince Henry, was in a mo-  
tor crash Saturday, and had a  
narrow escape, it was announced  
today. The information was  
withheld in accordance with roy-  
al custom. The Princes were  
motoring near Cambridge, when  
their car collided with a mot-  
orcycle. One wheel of their car  
was smashed, and the cyclist was  
injured, and the Prince of Wales  
and Prince Henry were shaken  
up.

News About People  
and Social Events

Monkey fur is not new as a trim-  
ming; it has been "in" for at least  
two seasons, but it is still going  
strong. Being more like a fringe than  
a fur, it is used in fringe-like ways,  
lacked onto the borders of things or  
otherwise used as an edging. I have  
seen a model frock or two in exclu-  
sive shops entirely with monkey fur  
set into the seams on each side from  
shoulders to hem, and again in the  
sleeve seams from elbow to wrist. I  
can't say that I found the effect per-  
fectly admirable. Paris, so a fashion-  
writer says, has got hold of white  
long-haired monkey fur, and is using  
it freely on black dresses and cos-  
tumes.

The silhouette, that important con-  
sideration in women's fashions, had  
quite a new version, exhibited at a  
private dress show held by Paquin, of  
new Parisian models. The "umbrella-  
shaped" skirt was the sensation of  
the exhibition, for it showed a com-  
plete, unexpected change of the sil-  
houette. The long corset has a loose  
waist, the hips are swathed with a  
roll double ruching, and then the skirt  
dips down, the whole giving the effect  
of a large, "bunchy" umbrella. There  
were fringes everywhere. They hung  
from sleeves and trailed, yards long;  
they fell below the hem of dresses;  
they enclosed skirts like cages, and  
emerging from embroidered panels,  
they formed enormous sporrans.

Miss Josephine Parker, who was in-  
jured when struck by a motor while  
crossing Pinnacle street on Saturday  
evening and who was a few days later  
removed to the Belleville General  
Hospital, is recovering nicely. An X-  
ray examination revealed the fact  
that there had been no fracture.

Six hundred people partook of the  
towel supper last evening at the Cen-  
tenary Methodist Church, Sidney, a  
large number being present from  
Belleville. An enjoyable entertain-  
ment followed, in which Belleville tal-  
ent including an orchestra took part.

SAVED MEN FROM DEATH  
C. W. Cole Rescued Men at Ducks  
After in Water Half Hour

Kingsport—Robert Earl, and Les-  
lie Brown, both of Dexter, were saved  
from drowning by Claude Cole, of  
Cape Vincent, near the Ducks Islands  
when their boat capsized in the  
heavy sea. It was reported that the  
men were in the water for about  
half an hour. Earl and Brown had  
gone to the Duck Islands to hunt and  
fish, they were out on the lake when  
a storm came up. There was a  
heavy sea and after their motor had  
gone dead the occupants were unable  
to keep the boat from capsizing.  
Claude Cole, who was nearby in his  
motor boat, rushed to their rescue  
and succeeded in getting them into  
his boat and took them ashore.

## IN NATURE'S PLAYGROUNDS.

A region which provides one of  
the most delightful winter holidays  
is the great Algonquin Park re-  
serve, 200 miles north of Toronto,  
and 170 miles west of Ottawa. Two  
thousand feet above the sea level it  
has invigorating climatic conditions.  
No matter how cold it is the air is  
dry and the man with a sweater  
never suffers discomfort. The High-  
land Inn, the largest of the Park  
Hotels, will be open for reception of  
guests this season from December  
15th to March 15th, and as the ac-  
commodation is limited, patrons are  
advised to make reservations early.  
Write to any Canadian National  
Grand Trunk Agent, or to Manager,  
Highland Inn, Algonquin Park Sta-  
tion, Ont. for illustrated booklet.

BRITAIN TURNS  
TO EMIGRATION

Idea in Relation to Dominions  
Given Increased Attention  
in London

USE STATE ASSISTANCE  
Imperial Conference Last Sum-  
mer Had Scheme of Large  
Proportions

LONDON, Oct. 20.—Mr. Lloyd  
George's announcement in Parliament  
that 300,000 pounds will be voted to  
assist the emigration of ex-servicemen  
to the Dominions is understood  
merely to mean the continuation of  
the scheme which has been in effect  
for the past two years. It will still  
remain for the British Parliament to  
adopt and carry out the resolution of  
the recent Prime Ministers' Confer-  
ence, for joint loans by the Mother  
Country and the Dominions to finance  
imperial migration on a large scale.  
Lloyd George's present idea is to  
continue assistance for ex-soldiers  
who wish to settle in the Dominions  
and who, as far as Canada is con-  
cerned, have done so with a very  
fair measure of success. Here are  
signs, however, that the idea of mi-  
gration on a much larger scale is re-  
ceiving attention in Great Britain.  
The Morning Post for instance, is pub-  
lishing a series of articles pointing  
out that there are ten million people  
in the British Isles who may be re-  
garded as surplus population. A let-  
ter written to the Times by F. G.  
Wade, Agent-General for British Col-  
umbia, in which he urged that British  
settlement must be encouraged if the  
Americanization of Canada is to be  
prevented, has attracted considerable  
attention and brought many replies  
from persons of prominence who held  
the same convictions. It is certain  
that migration, as a means of relieving  
unemployment, will become more  
and more an issue in Britain this win-  
ter, and one of the problems which the  
incoming Government in Canada will  
have to decide will be whether the  
Dominion is ready to play her part,  
or prefers to continue her present pol-  
icy of rigidly restricting British im-  
migration.
