#### Fix Harvesting Machinery.

A rainy day spent in putting that mowing machine, hay loader, binder and other harvesting machinery into shape is a mighty good investment of time. This is more true this year than usual for two reasons—first, labor is much scarcer, and therefore the loss of any time wasted will be greater, and, secondly, the parts may be harder to get than usual, due to a shortage of supplies in many lines, forethought may save some after-worries.

#### Place for Horses to Roll.

Where horses are closely confined in stalls most of the time, they are more apt to roll in the filth and manure than if they had been taken out and allowed to roll once a day. Letting them roll outside of stalls saves much currying and brushing, avoids the possibility of the animal rolling where it would get fast, and adds to its health and vigor by keeping it cleaner.

#### The Habitants.

The habitants were the real colonists of New France who settled in Quebec as distinct from the Coureurs de Bois or bushrangers and trappers. The name given to habitants indicates that they were looked upon as permanent residents, who to-day constitute the bulk of the population of the Province of Quebec.

#### A Difference.

Delia—"So you have broken your engagement! And, I suppose, of course, you returned that lovely ring?"

Cecilia—"Well, no; that wouldn't be reasonable. While I no longer like George, I admire that ring quite as much as ever, you see."
