New York, Oct. 10 .- O. S. Strauss formerly Turkish minister, thinks that the abducteion of Miss Stone should not be charged to the sultan or his subjects. Neither is he at all sure that the Bulgarian government is in any way implicated. He pre ters to think it was the work of it responsible Bulgarian brigands wit were moved thereto solely by a desire to extract ransom and who had no political end of any kind to serve their nefarious actions. Mr. Strauss thinks both the governments of Turkey and Bulgaria will do all they can to bring the rascals to judgnent. No menace of war will be alowed to arise out of the incident i Mr. Strauss' opinion.

Tomo Sargentich, an Americanized itenegran, who is connected with a bank, knows a great deal more from personal observation about the district where Miss Stone is held captive and about the people who inhabit it He told a Tribune reporter yesterday h is opinion, in p signary. He believed that to be the work of Turks but he thought the peasantry in the country surro the scene of the abduction could easily be induced by the offer of cash rewads for the heads of the brigands, to undertake a war upon the rascals which would end in their extermination. If rewards were placed upor the heads of Miss Stone's daptors, he said, the heads would be forthcoming

The board feels that the brigands are kept pretty well informed of affairs in America and thinks that the less they find out just now the better it will be for Miss Stone
