**Women and the Cigarette**

Mrs. Rodgers, Saskatchewan's earnest L.T.L. Secretary, writes very interestingly upon this subject. She refers to the cigarette smoking by women in England. We regret to say that this deplorable habit is not confined to other lands, but is all too sadly prevalent in our own Canada.

In my journeyings last year I spent various periods as a guest in hotels, and was shocked to see in some high-class hotels this habit indulged in at the tea-hour and in the evenings by young girls.

It was particularly sad to me because of the associations which

I have, in other days, seen connected with the cigarette. I have often thought if I could go to these dear girls and tell them where I first saw a young woman smoke a cigarette and describe the scene there witnessed, it would be somewhat of a shock.

The sad, pitiful picture is inescapably stamped upon my memory. A poor girl of the demi-modi class who was dying in a western city asked that I should visit her on my coming to the city to lecture upon Rescue and Prison Work. I rushed immediately from the train to do so. But the grim reaper had gathered her and all the sinful harvest of her life before I could reach her side. She died crying for some one to pray for her.

When I entered that house of shame, one of her companions in degradation was sitting with apparent careless air, her feet upon a chair, defiantly puffing the fumes of a cigarette!

If our women and girls who indulge this society fad could only know that this habit with the drink habit is always a part of the life of the courtesan class, that the worst types and forms of social evil are invariably linked with the indulgence of drugs and alcohol, I think surely they would not longer be a party to such demoralization of body, mind and spirit. —White Ribbon Bulletin.

"Such a darling blouse! How much is this one?" said the lady shopper.

"Fifty dollars—and so sweet for the price!"

"It's a dear—just exactly what I want, the color and everything. I believe I will take it—though fifty dollars."

"Pardon me, madam, I have made a mistake—this is marked only fifteen instead of fifty dollars."

"Oh, I see. Well, show me something a little better."

**Would Not Be Without Baby's Own Tablets**

Once a mother has used Baby's Own Tablets for her little ones she would not be without them. They are the ideal home remedy for the baby; being guaranteed to be absolutely free from opiates or other harmful drugs. They are a gentle but thorough laxative and have been proved of the greatest aid in cases of constipation, indigestion, colic, colds and simple fevers. Concerning them Mrs. Ernest Gagne, Beausejour, Que., writes: "I have used Baby's Own Tablets for constipation and colic and have found them so successful that I would not be without them. I would strongly recommend every mother to keep a box in the house." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

**Appointment of a Bee Expert**

An inspector for the Province of Nova Scotia under the "Foul Brood Act, 1916," has just been appointed in the person of Mr. Anthony Birch, B. S. Mr. Birch will assist in the administration of this Act, which has for its purpose the treatment and eradication of this serious disease of bees. Mr. Birch is a recent graduate of Macdonald College, where he specialized in agriculture and allied subjects. He also spent a season as assistant to the Dominion Apiarist, Ottawa.

As the disease is confined almost entirely to the Cornwallis Valley district, Mr. Birch will make his headquarters at Wolfville, where a determined effort will be made to treat all cases of Foul Brood early in the season. While it will be necessary for Mr. Birch to spend the greater part of his time in the Valley, it is hoped that ultimately, as time permits, his services may be available to growers in other parts of the Province.

**Boys and Girls Are More Valuable Than Men and Women**

His Worship the Mayor of London, E. S. Little, has addressed the attached letter to pupils of the schools of the Dominion. The bulletin is going all over Canada, and is the second of a series of letters from prominent mayors addressed to school children:

Mayor's Office, London, Ont. To the Children of the Schools.

Dear Girls and Boys,—Do you realize that one of the greatest assets of any country is its manhood and womanhood? And do you realize that you are an even greater asset than the present "grown ups"? Their work is partly done, but yours is only beginning, and you have a wonderful opportunity to profit by their mistakes.

We "grown-ups" have tried to carry on the government of our country in order to provide "life, liberty and happiness" for all; but there will always be room for improvement. Our forefathers fought for these principles, and we look to the young people to do even better than they or we. In one particular, especially, you can perhaps do more than we can—

that is in the prevention of accidents.

Statistics show that in this country during 1919 there were more than three persons killed every day in the year and many more injured.

The fire losses in 1919 amounted to over twenty-three million dollars in this country—and most of these accidents and fires, we are told by the people who should know, were preventable. Will you want to stop this waste?

Children often run risks because they think it shows bravery, and more often because they are careless. Do you know that a truly brave man scorns boasters and reckless persons, and never runs risks "for fun"? Remember you have no right to take undue chances, for should you become maimed you are a charge on your parents or fellow citizens.

Two good slogans for you to bear in mind are—"Stop! Look! and Listen!" whenever you are approaching a dangerous place; and "it is my duty to protect the property and lives of others." If we keep this advice before us, we should make bigger and better Canadians. Yours sincerely,

E. S. LITTLE, Mayor.
