

T. H. HEDDLE HAS RESIGNED.

Board of Works Will Consider Question at Next Meeting.

London Machine and Tool Co. to Build \$40,000 Plant.

York Street Repairs Will be Finished on Tuesday Next.

The location of the London Machine and Tool Co., in this city is now a certainty for a building permit was issued this morning to Stewart and Witton, architects, for buildings to cost \$40,000. The new factory will be on Lotridge street, near the G. T. R. The main building will be 180x180, of two storeys and several smaller buildings will be included. George F. Webb is the contractor. This is the second large factory Hamilton has secured within a week, without taking into account that Sawyer-Massey Co. is building a large addition to its plant, a building permit being taken out this morning, for \$16,000.

The clerks in the waterworks office would be greatly obliged to citizens if they would take their water rates bills with them and also the correct change, as near as possible. This would greatly facilitate business and waste would not be so long.

There will be no meeting of the City Council on Monday night.

The Board of Health will meet on Monday night.

The health report for the week shows the following number of cases: diphtheria 3; typhoid fever 1; measles 2.

A meeting of the Daughters of the Empire and all other ladies of Hamilton interested in the Sanitation project has been called for Wednesday afternoon next. It will be held in the Council Chamber, City Hall, at 4.15.

The work on York street is being pushed very rapidly and Ald. Stewart is satisfied that it will prove one of the best jobs ever done in the city. The road has been complete from Hess to York street, and the whole stretch should be finished by Tuesday night. The cost, it is expected, will be inside the estimate.

T. H. Heddle, the assistant city engineer, has handed in his resignation, and it will be considered at the next meeting of the Board of Works. Mr. Heddle's offer from Medicine Hat, it is stated, has been extended until November 1. Ald. Stewart and other members of the Council think it would be unwise for the city to lose Mr. Heddle if he would consent to remain for a reasonable increase, and an effort will be made to keep him here.

Where Freshness Counts.

Among the manifold advantages of newspaper advertising over other forms there is one which the promoters of competing mediums of publicity can never hope to overcome. The newspaper establishes chain lightning communication between producers and distributors on the one hand and consumers on the other. It is "Johnny on the spot." It carries business news to the people within twenty-four hours after the copy is written. It does away with the necessity of cold storage, preparation, and freshness counts for as much in business announcements as it does in the dissemination of the news of the day.

"PROF." DENIES WIFE'S CHARGE.

McCutcheon Was Allowed Out Without Bail.

John Toner Bonded Over to Keep the Peace.

Other Cases on the Police Court Roster This Morning.

The police this morning asked for a remand until Monday in the case of "Professor" Peter D. McCutcheon, who appeared before the Police Magistrate this morning, charged with threatening his wife.

"I have no objections to that providing he is allowed out on his own recognizance," said M. J. O'Reilly, who defended the prisoner. "He positively denies having made any threats towards her."

But he persists in annoying her," exclaimed his worship.

McCutcheon said he had only seen his wife once since coming here, from the Falls. He admitted going to the house to see his children. On promising to appear Monday and remain away from his wife in the mean time, he was allowed to go.

Because John Toner, Wentworth street, received a notice from his landlady to move, he paid a visit to her house and was said to have created a scene that resulted in his being summoned on a charge of threatening Mrs. Maria White. The woman and her husband swore that Toner, threatened and even kicked her. They said they put him out of the house on account of the way he acted with his family.

"Why, he chases his kids around the yard with an axe," said Toner and then proceeded to give some examples of the language he alleged the woman used towards him.

"I don't believe that," said his worship promptly, as he bound Toner over to the sum of \$50 to keep the peace.

The case of George Weston, accused of failing to properly protect building material and which was adjourned from yesterday to hear the evidence of new witnesses, was allowed to drop.

The Magistrate read the riot act to Henry Olden, and then allowed him to go. Olden is an inmate of the House of Refuge and got drunk the other day with the result that he was locked up as a vagrant.

Ten Connors, 195 Jackson street west, and William Grey, 25 Elgin street, drunks, were fined \$2 each.

William Hannan, a South African veteran, was arrested last night by Detective Coulter and P. C. Springer, charged with neglecting to support his wife, Geo. S. Kerr appeared for him. The case was adjourned and the prisoner allowed out on \$200 bail.

THIRTEENTH BAND WILL HELP.

To the Editor of the Times: Sir,—For some time past the members of the Thirteenth Band have been watching with interest the proceedings in connection with the new hospital for consumptive poor, and now that the project has taken definite course, we feel that we would like, in a small way to do what we can in aid of this most worthy cause.

Ever since the organization of the band it has always been willing to help any good charitable cause; in fact has generally been the first to offer its services. At its meeting last night the band decided to give a concert at some time soon and offer the proceeds to the committee in charge of the Sanatorium movement. The band will be pleased at any time to meet the Mayor or the gentlemen in charge and make arrangements for the concert.

Confinement Kills Them.

Of the fifteen long-term Indian prisoners now incarcerated in the United States penitentiary at McNeil's Island, on Puget sound, twelve who have been there for less than three years are and are under sentence for from ten to twenty years. Warden O. P. Halligan, in discussing the situation, says: "From my experience with the Alaska Indians and Eskimos, doing terms in this institution, I am of the opinion that the majority of both races have hereditary tuberculosis and that the confinement develops it."
