

FINED FIFTY; TWENTY COSTS.

Mrs. Maggie Smith Convicted in
Liquor Case To-day.

William Doyle Held as Suspect on
Vagrancy Charge.

Magistrate Will Carefully Consider
Dog Shooting Case.

Mrs. Maggie Smith, 127 Cannon street west, was fined \$50, and costs to appeal were fixed at \$20, by Magistrate Jelfs at the Police Court this morning, when that young woman was found guilty of keeping liquor more than sufficient for her own use on the premises. M. J. O'Reilly appeared for Mrs. Smith and pleaded not guilty. Sergeant Moore said that on Sunday morning he and two constables called on Mrs. Smith, and, searching her house and yard, found three cases of beer, two in the yard and one in the house. They also unearthed two or three whiskey bottles. Constable Clark corroborated the sergeant's testimony.

Mrs. Smith was called and stated that the case that was in the house was hers, and that she had it for her own use. The other two cases she had bought for some men who worked in a stable in the rear of her house, and she left them in the yard for them to get on Sunday. The whiskey bottles had water in them, she said, as she was washing them to fill them with catsup. In answer to the magistrate she said that she was married, but did not live with her husband. She did not wish to answer when the magistrate asked her what she did for a living, but she stated that two girls were living with her.

Clarence Scott, a colored man, said that he was employed in the stable, and that he and the other men had taken up a collection and given Mrs. Smith the money and asked her to order the beer for them.

This was all the evidence they had to offer, and the magistrate found Mrs. Smith guilty and imposed the fine and fixed the cost of the appeal immediately. Mrs. Smith paid the \$50 fine from a roll that made the back benches think that she was a female Rockefeller.

John Hody and Joe Marshall were charged by the G. T. R. with the theft of some pig iron, 24 pieces, weighing about 1,800 pounds. They were remanded till Friday. Constable Darroch, of the G. T. R., and Police Constable Gibbs arrested them yesterday afternoon after Mr. Darroch had watched them take the pig iron off a car and put it behind a coal shed on Stuart street. They had some trouble getting the men to produce the keys that fitted the shed, but took them away from them and found the iron.

William Doyle was arraigned on a charge of vagrancy and remanded till Friday. He was arrested yesterday afternoon by an exciting chase by Detectives Miller, Blackley and McDonald, of the T. H. & B. near Cannon and Macnab streets. Two other men who were with him got away, but the police are now looking for them. Doyle is suspected of knowing something about the breaking open of a T. H. & B. car, in which were a lot of hives. John Nevills is in the cells awaiting trial on the charge of receiving them.

The case of Herbert Foster, 75 Walnut street south, charged with shooting Mrs. McManus' dog without just cause, was finished this morning. Thomas Spence, who was the defendant in the slaughter, substantiated the defendant's story of yesterday. The Magistrate said he would reserve his judgment till Friday, as he wanted to consider the case. He did not want to say that a man could shoot a dog without reason, and neither did he want to say that a dog could kill a man's child, and chase the owner without being molested.

George Masterson, 12 Smith avenue, was fined \$5 for riding his wheel on the sidewalk.

John McAndrew, 425 John street north, charged with being drunk, was remanded for a few days to sober up. John Jones, Toronto, and Nelson Owens, Beaumont, were each fined \$2.

GOOD ENOUGH STORY
ROCKEFELLER COULD HAVE PREVENTED FINANCIAL TROUBLE.

Oil King, When Informed of Impending Crisis, Said: "Government Fined Us \$20,000,000; Let the Other Fellows Get Their Names Printed for a While."

New York, Oct. 23.—Wall street is of the opinion that John D. Rockefeller could have prevented the present situation in the financial world. Here is the story briefly as told in the inner rooms of the brokerage offices in the downtown district.

About a month ago the City National Bank, which is the financial institution of the Standard Oil Company, became alarmed over the constant depreciation in securities, which was taking place, and it was decided to telephone Mr. Rockefeller, who after all is the ultimate authority on all matters pertaining to finances of that institution.

A conversation something like the following took place:
"There is reason to believe, Mr. Rockefeller, that some of the Wall street banks are hard-pushed for money and may possibly call on us for support. What shall we do?"

The answer came back: "How much will it take to tide them over?"
"Probably from twenty-five million to thirty millions cash."

There was a moment of hesitation, and Mr. Rockefeller replied:
"Well, let me see. The Government has fined us \$20,000,000, which we have to pay. It is probable that we will. In that case we will need the money. More than that—we have been getting our names in the papers a great deal lately, and I would suggest that we let the other fellows get their names printed for a while."

Speaking at Nashville, Tenn., President Roosevelt declared that for the remaining sixteen months of his term he would persevere in his campaign against all who have obtained wealth dishonestly.

FIRESIDE CLUB.

Centenary Church Young Men in
Fine New Quarters.

An event that marks the rapid development of the Young Men's Fireside Club of Centenary Methodist Church was held last evening when fifty of the members, including all officers, met for the first time in the society's new club quarter in the basement of the church. The Official Board of the church has noticed the growth and excellent work being done by the young men and to encourage them, fitted up new rooms. The quarters are spacious, new carpets, chairs, desks and tables have been supplied, everything is now up-to-date and Centenary Fireside Club has probably the most beautiful meeting room of any in the city.

Order was called at 8:15 with the President, Mr. Foot, in the chair. Business was promptly disposed of in the course of which eight new members were admitted. During the summer season the executive lost two members, Glen Walker and Fred Farman, by removal from the city, and Norman Mead and George Hancock were elected to their seats.

The rest of the evening was given up to debating and literary work. The subject for the former was, "Resolved that a young man had as much chance for success twenty years ago as he has to-day." The speakers were Geo. Hancock, Chas. Finch and Everett Wilson, of the affirmative, and Earl Smith, Percy Morton and H. Scott for the negative. Mr. Scott gave a very amusing talk and was applauded for his energy. The judges were Messrs. Darroch, Drey and Mead, and after careful consideration they gave a verdict in favor of the affirmative. The critic's remarks closed this discussion. An adjournment was made to the banquet hall and supper was served. Short addresses were given by the pastor, the Rev. J. H. Leighton, and Norman Mead and George Hancock. N. Mead and H. Scott.

On Tuesday, Nov. 5, the club will have a night to discuss the life of Sir John A. Macdonald.

MAKING SURE OF DEATH.

Heart to be Punctured Before Burial by Competent Surgeon.

The late Mr. Samuel Vallentine, of 209 Brixton road, London, England, took most effectual means to prevent premature burial. Mr. Vallentine died in July last at the age of 87, leaving £26,247, of which £22,000 is bequeathed to charities.

In his will, made when he was 78, Mr. Vallentine directed that before his interment his trustees "shall request Geo. Russell Beadmore, M. R. C. S., of Leighton, to sever my carotid artery or puncture my heart, and in the event of the said Geo. Russell Beadmore being unable or failing from any cause to carry out such request, then I most earnestly conjure my trustees to take all proper steps to procure the carrying out of this my direct by some other skilled and duly qualified surgeon; but if any cause or circumstance shall occur to prevent the carrying out thereof I direct that my body shall remain uninterred for a period of fifteen days following my presumed death unless decomposition set in before that time, and that the trustees shall pay Geo. Russell Beadmore or such other surgeon who shall perform such operation a sum of twenty guineas."

WOMAN IN THIS.

TWO MEN SHOT AND KILLED AND WOMAN FATALLY WOUNDED.

Man Who Did the Shooting Committed Suicide—Woman Had Lived With Murderer and Then Went Back to Her Husband—Hence the Shooting.

Cleveland, Ohio, Oct. 23.—What will result in a triple tragedy was enacted in a house on Buckeye road in the south-eastern part of the city last night. Two men are dead and a woman, the wife of one of the men, is fatally wounded. The shooting occurred in the home of the woman, and one of the dead men is her husband, while the other is the triple slayer, who shot the woman and her husband after the woman had refused to leave the latter to elope with him. The murderer, after shooting the other two, turned the weapon upon himself. The slayer was Michael Szekely, 24 years old, who recently came here from Hungary, and had other parties to the tragedy were Erman Burray, 31 years, and his wife. The hospital officials say the woman is dying. She told them that she eloped with Szekely some time ago, and lived with him in a small town near Buffalo, but had deserted him to live with her husband.

CHURCH WEDDING.

Marriage of Waldron Goff and Miss Daisy McKee.

All Saints' Church was the scene of a pretty wedding yesterday afternoon at 4 o'clock when Miss Daisy A. L. McKee became the bride of Mr. Waldron G. Goff, of Olds, Alberta. The bride, who is the daughter of Mr. John McKee, of Waterville, Que., was given away by her brother-in-law, Mr. E. Gilbert, of this city, and was attended by Miss Nellie Jenks. The bride was beautifully gowned in white, and the bridesmaid in a pretty flowered costume. The groomsmen were Mr. Andrew Begin, this city, Rev. Archdeacon Forrester officiated. After the wedding the bridal party had supper at Mr. Gilbert's residence, 103 Locke street north. Mr. and Mrs. Goff will take up their residence in this city.

POPULAR RAILWAY MAN.

On the occasion of his early marriage to Miss K. MacPherson, of St. Thomas, Mr. Ed. Pepper, Toronto representative of the Niagara, St. Catharines & Toronto Railway, was yesterday the recipient of a handsome presentation made by local railroad and steamship men. The gifts took the shape of fine quarter-cut oak upholstered easy chair, a cut glass water set and tumblers to match, also dish. Representatives of the Hamilton Steamboat Company and the Turbine Steamship Company were present.

THURSDAY, OCT. 24th,
1907

SHEA'S

Men's Scotch Knit Shirts and Drawers, splendid quality and value, all good full sizes, special prices for Thursday, per garment 50, 75c and \$1

INTERNATIONAL BALLOON RACE.

(Continued from page 1.)

other was kept busy with the ballast, the instruments and the records.

"Any exciting experiences? Why, of course there were incidents that were exciting, but we were at all times confident of our balloon and our ability to bring it to a safe landing whenever necessary."

"In danger at any time when over the lakes? Well, the water certainly looked cold and wet, and we would not have cared to get into it, but we kept at a safe distance, never being very close to it. Sometimes we travelled quite low, and at other times at a good height above the earth."

"During Monday night Mr. Hersey and I had some sleep. We took half hour turns, but it was not the sleep one enjoys in a comfortable bed at home—only a light nap, and of a few minutes' duration."

"We had plenty of clothing and provisions for a longer trip, and would have continued our journey throughout the night had our gas and ballast not become spent, necessitating a landing."

Mr. Aetherolt was quite enthusiastic over the trip, and declared that he never felt in better health or spirits. He was an object of great interest in Caledonia this morning, he and Mr. Hersey having gone to that town to take trains for their respective homes.

Was This Another?

Shortly after 10 o'clock last night an east end resident called up the Times and reported that what those who had been convinced was one of the balloons in the mountain ascent, seen sailing over the mountain several miles back and at a considerable altitude from the ground. The shape of the balloon itself could not be distinguished at the distance, but a red light, apparently traveling rapidly in a westerly direction, was discernible. The man whose attention was first attracted to it and had been watching for the appearance of the balloons. He called his wife and others, who watched the red light moving for several minutes. Shortly before 10 o'clock it passed from view.

The wind last night was from the northeast, and reports from various parts of the country earlier in the afternoon say the balloons that crossed Lake Erie were traveling in the same direction. The only explanation for this supposed one traveling in such a direction is that it might have been caught in a current of air in another direction.

Won Bennett Cup.

The "United States" was the balloon which was used by Lieut. Lahm in the flight which won the James Gordon Bennett cup at Paris.

The bulletin from the Hearst Telegraph Service also stated that the Pommern, the German balloon, was reported late last night to be at St. Thomas, Ont., and that the balloons representing the British army were last seen over Ohio, but their location last night had not been reported.

The German balloon is piloted by Oscar Erbslos, who is assisted by Henry H. Clayton.

Crosses Lake Michigan.

Chicago, Oct. 23.—Flying swiftly through the air, but so low that he could converse with persons on the ground, Major H. B. Hersey in the American balloon "United States" swept across Lake Michigan forty miles north of Chicago yesterday morning, the leader in the second great international balloon race which started at St. Louis yesterday afternoon. Shortly after 1 o'clock this afternoon the Hersey balloon passed over the northern part of Detroit, apparently about 1,000 feet in the air. It was sailing at such a high altitude that it was impossible to distinguish the forms of its occupants.

A second balloon reported by the residents of Gray's Lake was also thought to have swept across the lake yesterday morning.

While Hersey was speeding away to the northeast, the big yellow racer, the German Pommern, which crossed Indiana yesterday forenoon and then

OTHER BALLOONS.

Bulletins Tell of Them Being Seen in Their Flight.

Philadelphia, Oct. 23.—Reports from various sources indicate that three of the balloons which left St. Louis Monday afternoon passed over this city between 6.45 and 7.10 a. m. One was positively identified as the German balloon Pommern, which was seen at Cleveland yesterday afternoon. Another was partly identified as the English balloon Lotus II, which passed over Wheeling, W. Va., yesterday, travelling eastward. A note dropped from the German balloon reads: "Am 8,000 feet in the air and have travelled 1,000 miles. Am trying to make Atlantic City."

The third balloon was not identified. All were travelling in a northeasterly direction, and unless they meet with some accident should land on the coast within a few hours.

The America.

Zanesville, Ohio, Oct. 23.—The American balloon "America" passed over this city just after midnight, and dropped a message, which read:

"We are passing town at 12.15 a. m. Due east at rate of 25 miles an hour at an altitude of 1,200 feet. Notify press. (Signed) McCoy."

At Caledonia.

Washington, Oct. 23.—A balloon described as a bright pink passed over Rockville, Md., 10 miles from here, at daylight to-day, travelling in an easterly direction.

The Weather Bureau this morning received a despatch from Major Hersey, reporting his landing in the "United States" balloon at Caledonia, Ont., at 6.15 yesterday afternoon.

Flew U. S. Flag.

Richmond, Va., Oct. 23.—A long distance telephone message from Mineral, Va., says that a balloon passed over Arden, Va., near that city, at 7.35 this morning. There were two men in it. The balloon was flying the United States flag. It was French.

German Lands in New Jersey.

Asbury Park, N. J., Oct. 23.—The German balloon Pommern, from St. Louis, landed here about 9 a. m. to-day.

German Balloon at Dover, Del.

Dover, Del., Oct. 23.—The German balloon Dusseldorf landed at Little Creek, three miles from this city, this morning.

The German Balloon.

Chicago, Oct. 23.—This message was received by the Associated Press this morning: "Dropped from the balloon Dusseldorf at 8.45, Oct. 23, at a distance of about 800 miles."

(Signed) Von Abernethy and Heidmann.

The Dusseldorf is the German balloon.

Landed in Maryland.

Baltimore, Md., Oct. 23.—The American balloon St. Louis with Hawley and Post, landed about a mile south of Westminster, Md., at 6.40 a. m.

Hair Brush Sale.

OTTAWA NEWS.

QUEBEC BRIDGE DIRECTORS INTERVIEW THE PREMIER.

Canal Statistics Show Large Increase in Business Between Canadian Ports and With the States—Good News for Surveyors—Offer by the Government.

Ottawa, Ont., Oct. 23.—(Special).—Hon. S. N. Parent, President of the Quebec Bridge Co., Mr. R. Audette, Vice-President, with Hon. John Sharples, Gaspar Lemoine, Hugh A. Allan, J. B. Laliberte and H. M. Price, all directors of the company, waited on Sir Wilfrid Laurier to-day and talked over matters connected with the company.

The annual blue book containing the canal statistics of the Dominion for the season of 1906 was issued to-day, the figures show a large increase in the business between Canadian ports during the past 20 years, particularly with regard to westward traffic. The growth has been considerable from Canadian to United States ports. The upbound traffic has been in larger volume than that moving eastward. Since 1887 the trade between the United States by Canadian canals has grown largely. In this instance, however, the movement downward has been greater than upward. There has been an actual shrinkage in the up traffic between the United States and Canadian ports. The eastbound business, however, has practically doubled. The expansion of business with the canals is relatively larger than that shown by the Canadian Railways.

The government has decided to offer special inducements to young men who desire to become surveyors. Before being eligible for final examination as a surveyor of which 12 months must be on a survey party. In the case of graduates in engineering these periods are reduced to 12 months and six months, respectively. To help pupils in complying with the requirements of the law the Government has decided to offer places on survey parties to those who have successfully passed the preliminary examination—graduates in engineering will go as assistants at \$4 per day, others will be paid \$3 a day.

The Worker is Our Patron.

We strive to serve him. Pants, shoes, shirts, overalls, duck and leather coats, oil clothing, mitts, at close prices.—M. Kennedy, 240 James street north, and 148 John street south.
