THE COTOSSAL BRONES STATUTE OF VIOTORY which stands in the Park, at Lowell, before the tomb of the first soldiers that fell in the revolution, is a leating and beautiful tribute of art. It is one of the first objects sought by strangers visiting our sister city, while indeed many visit purposely to see this elegant object of high art. It was of the high summer of what his remedies are reputed to have done for the suffering sisk. It was donated by the Doctor to the City of Lovell as a permanent and speaking smblem of the victories both of Eciones and Arms.—Hagerstone (Md.), Press,

We ate a piece of mince pie last night and then dreamed that a twelve-foot giant dressed in pea green boiler iron, ornamented with red-hot horseshoes, and who wore railroad spikes, for tails, was sitting down on our breast while he pulled on a pair of water-pips elbows for boots. McLEAN & COLLINS.

General Debility, and for Purifying the Blood.

This Sarsaparilla is a combination of vegetable alteratives—Stillingis, Mandrake, Yellow Dock—with the Iodides of Potassium and Iron, and is the most efficacious medicine yet known for the diseases it is intended to cure.

It impredients are so skilfully combined, that the full alterative effect of each is assured, and while it is so mild as to be harmless even to children, it is still so effectual as to purge out from the system those impurities and corruptions which develop into loathsoms disease.

The reputation it enjoys is derived from its cures, and the confidence which prominent physicians all over the country repose in it, prove their experience of its usefulness.

Certificates attenting its virtues have Toronto Globe & Mail Certificates attesting its virtues have commutated, and are constantly being ceived, and as many of these cases are activated to the communication of the constant of the communication of the communi received, and as many of these cases are publicly known, they furnish convincing evidence of the superiority of this Sarsaparilla over every other alterntive medicine. So generally is its superiority to any other medicine known, that we need do no more than to assure the public that the best qualities it has ever possessed are strictly unintained.
