**PROGRESS SLOW BUT SURE.**  
PARIS, Jan. 5.—(Official.) In Belgium, in spite of the bad state of the ground rendering operations difficult, we have progressed along the Dunes opposite Neuport.

In St. George's district our infantry gained two hundred to five hundred metres, capturing houses and trenches. At certain points the Belgian artillery silenced the German artillery.

From the Lys to the Oise in Notre Dame de la Lette region, west of Lens, we have, thanks to our mortars and grenades, completely checked the enemy's sapping.

In the neighborhood of Lihie road, the enemy blew up and occupied one of our trenches, but a counter attack on our part resulted in its recapture.

From Oise to Vosges there was no infantry action, and in Craonne and Rheims districts artillery contests.

Our batteries successfully bombarded German positions in Salspote Valley in the Perthes and Beaussajour districts.

Somo artillery success is recorded in Argonne and on the Meuse heights. In Alsace, southeast of Colbonhome, we entered and strengthened the hamlet of Croix d'Argent, two kilometres west of Orbey.

Gains realized on the road of Thenn to Cerney were maintained at one kilometre east of Old Thann, and the fire of four heavy artillery silenced German batteries two kilometres east of Turnhauptehaux.

**BRAZIL TAKES ACTION.**  
RIO JANEIRO, Jan. 5. The German steamer Holger left the harbour of Pernambuco with supplies for German warships, still at large in South American waters. The responsible officials have also been ordered before a Board of Inquiry.

**TURKISH TRICKERY.**  
ROME, Jan. 5. Revolution in Albania is extending. The assertion is made that it is being fomented by certain Austrian-Turkish elements, with the object of forcing Serbia and Montenegro to supply some of their troops along the Albanian frontier. Another object, it is said, is to engage Italy more deeply in Albania, thus distracting her from attention to the main conflict. Rome newspapers urge the Government not to fall into the trap, and to reserve all its energies for the con-

**Foreigner Arrested!**

SUSPECTED TO BE A GERMAN.

A foreigner who claims he is a Norwegian was arrested on suspicion last evening by Detectives Byrne and Lawlor. When brought to the police station he gave his name as Kristian Holt, while, according to the police, his name three months ago was Kristian Olsen. This foreigner was a seaman on board the schr. B. C. French, which is now overdue at Boston from here, and on board of which he injured a shipmate in October last and was arrested and convicted. He never went on board his vessel afterwards and has been going around the city every since, but shadowed by the police. A few days ago he attempted to sign on a local vessel but none of our seamen would sail with him as they believed he was a German. The police authorities had been making enquiries in the meantime and last night took him into custody. He will be kept in custody until he is able to give a satisfactory account of himself.
