

Five Things Happen

When you brush teeth in this way

All statements approved by authorities

Dental science has produced a new teeth-cleaning method. Millions of people have already adopted it. Leading dentists everywhere advise it. In effective ways it combats the film on teeth. And it deals with this tooth wrecker as was never done before.

The fight on film

Modern dentistry finds that most tooth troubles are caused by film. The film at first is viscous. You can feel it now. But it clings to teeth, enters crevices and stays. It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acids. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Very few people have escaped these film-caused troubles. Ordinary methods do not end this film. So millions who brush teeth daily find they still discolour and decay.

A multiple attack

Now new ways have been found to fight film. Careful tests have proved them. High dental authorities approve them. They are all combined in a dentifrice called Pepsodent. It meets every modern requirement. And this new tooth paste is fast coming into world-wide use.

You'll know in a week

Some results of Pepsodent appear rapidly. Within one week the good effects will be amazing to you. One ingredient is pepsin. One multiplies the starch digestant in the saliva, to digest starch deposits that cling. One multiplies the alkalinity of the saliva to neutralize mouth acids. Two factors directly attack the films. One of them keeps the teeth so highly polished that film cannot easily cling. In all these ways it brings and maintains whiter, safer teeth.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how the teeth whiten as the film-coat disappears. Compare the results with your old methods. Then let those evident results tell you what is best. Cut out the coupon now.

Who Invented Figures?

The history of figures as we use them today carries us back to the days when the Moors invaded Spain twelve hundred years ago.

It was at first believed that the Arabs invented the figures which superseded the Roman numerals, and they are always known as Arabic figures, but it has since been discovered that the Hindus, who centuries before had reached a high state of culture, and showed exceeding inventive genius, were the real originators of the idea.

The Mohammedan Saracens, or Moors, took possession of Spain, and early in the period of eight hundred years during which they remained in power adopted the use of figures similar to those of our time.

The original figures were formed of straight lines, but the Hindus fixed the value of the symbols according to the number of angles contained in their formation. The figure one had one angle, and number nine had nine, while the cipher was a circle and therefore had nought.

CARPENTIER IN NEW YORK.

NEW YORK, Sept. 13. Georges Carpentier, French boxer, arrived here to-day on the steamer La Lorraine. He intends to meet Battling Levinsky and Jack Dempsey. Carpentier intimated he had been stung by adverse criticism in American newspapers, and that he eagerly awaited an opportunity to show what he could do in the ring.

S.S. METAGAMA IN MONTREAL.

MONTREAL, Sept. 13. After being firmly embedded in a clay bank of the St. Lawrence River channel, near Contr' Cocur, below Montreal, for nearly forty hours, the steamer Metagama was released to-night under pressure from united efforts of wrecker Lord Strathcona, assisted by graving tugs. She was able to proceed to Montreal under her own steam, and within three hours was berthed at Vickers dock, where she will be overhauled for repairs.

MILITARY AGREEMENT ACCEPTED.

PARIS, Sept. 13. Badon de Ceillier D'Hestroy, Belgian Ambassador to France, to-day informed the Foreign Minister of the acceptance by Belgium of France, Belgian military agreement, which is to become effective immediately.

CLOSE OF THE CONFERENCE.

AUX LES BAINS, France, Sept. 13. At the close of the Conference on International questions to-day, Premiers Millerand, of France, and Gioletti, of Italy, sent the following telegram to Premier Lloyd George, of Great Britain: "M. Gioletti and Millerand met together at Aux les Bains, do not wish to separate without addressing in common to His Excellency, Premier Lloyd George, their very cordial and friendly greeting. The Italian and French Prime Ministers have once again had occasion to recognize the full accord of their general views and the primordial necessity of the close entente of Great Britain and France, in order to ensure settlement of European problems, and the resolute maintenance of peace and normal relations between the peoples."

THE MACSWEENEY CASE.

LONDON, Sept. 13. Assurance that there is no element of bluffing in the respective attitudes of the British Government and the Irish Nationalists, relative to the MacSweeney case, were obtained from reliable sources of each faction, by the Associated Press to-day. "If Sinn Feiners think we are biding our time, and will capitulate when MacSweeney's condition requires eleventh hour action, in order to save his life, they are mistaken." This characterizes the British official view as expressed by the correspondent. There can be no doubt or question about our desire or intention of having Lord Mayor MacSweeney recede from the tragic stand he has taken," declared an official at London headquarters of the Irish Nationalist organization. "If he is not released voluntarily by the Government, he will most certainly go down in history as the first hunger striker to perish in an English prison."

IN LOVING MEMORY

of Michael J. O'Brien, died Sept. 14, 1919.
"The tie that earth has broken
And severed one year ago,
Fond memories of you my darling
Will eternal peace bestow;
He suffered much, he murmured not,
We watched him day by day,
Until at last with broken hearts
We saw him pass away.
Softly at night the stars are shining
On a lonely, silent grave,
Where thou lie my dearest Michael
Whom we loved but could not save;
But your chair stands alone and empty
In the home you loved so well,
And how much we miss you darling
Only God alone can tell.
He died in life's fair summer,
God knoweth what is best;
May the Sacred Heart of Jesus
Grant his soul eternal rest."
—Mother.

SAVE THE BABIES!

During these hot days when infants are suffering and dying from Summer Diarrhoea, it might be interesting to quote from a report read by Dr. Alan Brown, Child Specialist of Toronto, who says:—

"In severe cases of Diarrhoea which do not respond to the elimination of carbohydrate in the usual milk mixtures, PROTEIN MILK is indicated, as in practically all cases of intoxication and infectious diarrhoea, and many cases of dyspepsia in breast-fed infants."

The process of making LIQUID PROTEIN MILK is a long and difficult one. After four years of careful experimentation a PROTEIN MILK has been manufactured in powder form, conforming exactly to the analysis of the Liquid preparation.

Upon presentation of a prescription from your doctor it can be obtained at any of the three Child Welfare Milk Stations where it is sold at cost of importation.
