The Premier's Trip. With what feeling of pardonable pride will Hon. Wilfrid Laurier start on his first journey across the Atlantic tomorrow. To most Canadians a trip occasion of pleasurable excite ment. But the case of Mr. Laurier is that of the ordinary tourist. The duke is a second-rate statesman, with little or no experience, and it is not likely that in future the British Government will select anyone to act as her Majesty's representative in Canada who is not in the first rank of imperial public men.

The Bank Note Contract.

The bank note contract, recently entered into by the Dominion Government for the period of five years, is held by all persons who dispassionately consider the question, to be a highly advantageous bargain.
