WHISKARD'S Three Busy Stores | 228, 230, 232 Dundas Street Can't Understand It.

There are very few people who are not in our confidence that can understand how we can afford to, or how we dare to carry on such a reckless, and, as some say, "Crazy Sale." It's contrary to preconceived notions of merchandising. Why any concern should recklessly upset all standards of value, turn prices to psy-turvy, and get people to thinking what it all means. Well, we are too busy to explain; we can only say this: Come to the sale; it will pay you.

"As we have stated before, we believe this move would be in the interests of the citizens of the County of Middlesex, and we shall endeavor to merit your generosity by conserving your interests in the matter and by looking after the property carefully after

In addressing the council upon this matter, Mr. A. E. Welch, manager of the company, explained to the council the benefits to be derived by the peo-ple of the county from this road. He had spoken to a number of county people, and he had heard no objection to the proposal to place a station on the courthouse square. On the he claimed it would be a ment they might have had the cars running, and there would have been less hardship during the recent cold weather. WIDE TIRES NOT THE BEST. The deputation from the city coun-

ald. Wyatt, Cooper and Gerry. Chairman Wyatt was the first to address the council. He explained that the city council had given a bylaw regulating the width of tires two readings, and before giving it its third reading it had been deemed advisable to consult with the county council. The ity's interests and the farmers' were dentical, and the city could not do much in this regard unless the county passed it by a large majority. He thought himself that the wide tires would mean a great saving on the roads. Whether it was an advisable bylaw or not, it was for the county councilors to say.

Many physicians who advertise to cure piles, without the aid of the knife, imply use Pyramid Pile Cure reme-They do so because they know it is the best medicine for obtaining a proper combination of the most scienific ingredients for the cure of piles. Pyramid Pile Cure is not an experimental stage, but is an established emedy, and is recognized and used by the best physicians in the country. Being in suppository form, it reaches the trouble at once and the healing process is quick and effective; immediate results are obtained, and before the patient realizes the fact he has recovered from the pain, suffering and irritation which this trouble causes. Children who suffer from this painful trouble, obtain relief at once. It is well with a very young child to reduce the size of the suppository before using. However, if children are afflicted with piles, they should be treated without elay, or the trouble may beic. Hundreds of little ones

have been cured with Pyramid Pile The prevention of piles is better than the cure, and they can be prevented if only people would look to the regularity of the bowels and not become constipated. Constipation and its attendant ills can be avoided by the ase of Pyramid Pills. The proprietors of the Pyramid Pile Cure saw that it was necessary to use with the ma-jority of their patients a mild nonirritating laxative, and the Pyramid Pills for constipation were the result of much careful thought and patient investigation. Pyramid Pile Cure and Pyramid Pills are sold by druggists everywhere for fifty and twenty-five

cents per package.

A little book on the nature and cure of hemorrhoids or piles will be furnished free upon application to the Pyramid Drug Co., Marshall, Mich.

Ald. Cooper was a strong advocate of the bylaw. He thought a load could be drawn easier on a wide tire than on a narrow one. He also advised the county council to grant the request of the traction company for a station

Mayor Beck was noticed at the back of the chamber, and was invited to the platform. He said he had only come to hear the views of the county council. Ald. Gerry seconded the statements of the other members of the commit-

Councilor Gray expressed his pleasure that the city deputation had come to consult with them before passing the bylaw. Wide tires, he said, were not looked upon favorably. He explained the superior advantages of the narrow tire. Councilor Robotham was of a like opinion, adding that it was the gravel teamsters who damaged the city streets, and not the farmers. Councilors Elson and Neely also spoke against the wide tire bylaw,

the former moving the following resolution: "That after a discussion with a deputation from the city council re bylaw compelling the use of wide tires on wagons, this council is of the opinion that if the ciy passes such a bylaw it should not apply to farmers' wagons coming to the city market, as it would compel them to refit their wagons with wide tires or risk being fined in the city, which would incon-venience many farmers and no doubt lessen the supply of produce now

lessen the supply of produce now brought to the city."

Chairman Wyatt then stated that if the resolution carried there need be no fear of the city passing the bylaw.

This brought the mayor to his feet, in favor of the bylaw. He would not commit himself so far as to speak for the twelve aldermen. While saying a few words upon this matter he took the opportunity to rebuke Ald. Cooper for bringing up the question of the station for the traction company. They were not their to discuss that, and moreover, that was the county's own affair, and he thought the council old enough to know what was the best thing to do in the matter.

The request from the Southwestern

ACCOMMODATION FOR INSA. ..

Mr. A. Ballantyne, of Westminster, appeared before the council. He stated that he and Mr. German, who was out of the city, had been appointed by the grand jury to wait upon the council and draw their attention to the state of affairs by which insans persons were committed to their attention to the state of affairs by which insane persons were committed to jail and left there, instead of being immediately removed to an asylum, where they could be treated and possibly saved. He quoted from the address of Chief Justice Meredith, who spoke in exceedingly strong terms against the system. Justice Meredith, who spoke in exceedingly strong terms against the system.

Mr. Ballantyne likened the cases to what might have been done after the Wanstead wreck. Supposing that after that horror the injured had been taken to the jall, before being admitted to the hospitals—that would have been similar to what is done with insane people. One other hand, he claimed it would be a decided acquisition to the square. Had the city used more expedition and judgment they might have had the cars running, and there would have been care of prisoners. He asked the county
